Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will push car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance issues that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from service bulletins and memos than ever.

Here is information on all the 1995 models, including key plus and minus points, performance evaluations, complete specs and charts, latest prices, safety issues, best buys, and more--all in an easy-to-read format.

If God wanted April Grace to be kind to her neighbors, He should have made them nicer! Growing up in the country is never easy, but it sure is funny—especially if you happen to have a sister obsessed with being glamorous, a grandma just discovering make-up, hippie friends who never shower, and brand new neighbors from the city who test everyone's patience. From disastrous dye jobs to forced apologies and elderly date tagalongs, you'll laugh 'til you cry as you read the Confessions of April Grace! Here are just a couple of April's thoughts: On her sister, Myra Sue: "How anyone can be that dumb and still be able to eat with a fork is beyond me." On senior citizen lovebirds: "What if they started smooching right at the table in front of God and everybody?" In spite of all the loony characters in her life, April Grace is able to learn from her parents as they share the love of God—to even the craziest of characters!

Stabilizing the Financial Condition of the American Automobile Industry

Betty Lee, Senior Betty Lee, who was sometimes jokingly called father's little goldfish, had acquired that title by reason of her ability to swim and her golden head, though that was usually covered tightly by a rubber cap. As her taking part in most of the swimming contests among the girls of Lyon High necessitated good bathing suits, Betty was already prepared in that respect for her visit at the seashore. Secrets were all very well. Betty had interest in everything. But her greatest interest was in the new experience ahead of her, the new country and the delights of the ocean. Her father warned her of new conditions, but she would quickly learn. Though there were no river current, there would be the undertow. Betty promised to use her common sense and swim within the boundaries allowed at the resort to which she was bound. With the highest anticipations, then, Betty accompanied the Gwynnes and Kathryn Allen on the fascinating trip East and to New England. Dick Lee was at a boys camp. His twin, Doris, would soon be at a corresponding girls' camp, for it "had to be fair," at the risk, said Mr. Lee, of depleting the treasury. Mother and Amy Lou would remain in the city with Father, but would take an outing with him later, when a business trip would take him East again. Then Betty, returning from the visit with Carolyn, would meet other girl friends at a "wonderful" Girl Reserve camp. Truly the summer could offer no more! Betty's former chum at the little town of Buxton, Janet Light, with whom Betty

still corresponded fitfully, as her full life permitted, wrote Betty that she was a "lucky girl," and Betty thought so too.

In Front of God and Everybody

4x4x, Pickups, and Vans Buying Guide 1995

Why Do They Do It?

The truck's role in American society changed dramatically from the 1960s through the 1980s, with the rise of off-roaders, the van craze of the 1970s and minivan revolution of the 1980s, the popularization of the SUV as family car and the diversification of the pickup truck into multiple forms and sizes. This comprehensive reference book follows the form of the author's popular volumes on American cars. For each year, it provides an industry overview and, for each manufacturer, an update on new models and other news, followed by a wealth of data: available powertrains, popular options, paint colors and more. Finally, each truck is detailed fully with specifications and measurements, prices, production figures, standard equipment and more.

In this exciting new history of Dodge and Ram trucks, award-winning automotive author Patrick Foster details the genesis of today's hot-selling Ram pickups, vans and four-wheel-drives. Beginning with the Graham Brothers, who built the first trucks sold through Dodge dealers, Foster traces the path of Dodge commercial vehicles through the terrific Dodge trucks built during the Roaring Twenties and into the Depression Thirties. Foster then takes us into the war years, 1941-1945, when Dodge manufactured a broad array of war materiel including the mighty WD and WF trucks, which later morphed into the now-legendary postwar Dodge Power Wagons. Next, Foster dives into the decade of the fabulous 1950s, a golden era for American pickups that brought us the equally fabulous Dodge B and C series trucks. Entering the 1960s, Foster tells the story of the growing popularity of Dodge trucks. The story grows as the Dodge line expands in size and in sales. The Dodge D-series and four-wheel-drive W-series are covered in a following chapter, while another is dedicated to the Dodge cabover trucks. The book ends with an Addendum dedicated to the delightful Dodge cabovers. The final chapter of Dodge and Ram Pickups: An Illustrated History covers the turbulent years 2000-2020 when Dodge went from being part of a bankrupt company to its present position today as the number 2 selling full-size pickup in the world.
