

1 Helping Children Locked In Rage Or Hate A Guidebook Helping Children With Feelings

From the illustrator of the #1 smash The Day the Crayons Quit comes another bestseller--a giggle-inducing tale of everything tossed, thrown, and hurled in order to free a kite! When Floyd's kite gets stuck in a tree, he's determined to get it out. But how? Well, by knocking it down with his shoe, of course. But strangely enough, it too gets stuck. And the only logical course of action . . . is to throw his other shoe. Only now it's stuck! Surely there must be something he can use to get his kite unstuck. An orangutan? A boat? His front door? Yes, yes, and yes. And that's only the beginning. Stuck is Oliver Jeffers' most absurdly funny story since The Incredible Book-Eating Boy. Childlike in concept and vibrantly illustrated as only Oliver Jeffers could, here is a picture book worth rescuing from any tree.

Jesse Rigshy hates video games—and for good reason. You see, a video game character is trying to kill him. After getting sucked in the new game Full Blast with his friend Eric, Jesse starts to see the appeal of vaporizing man-size praying mantis while cruising around by jet pack. But pretty soon, a mysterious figure begins following Eric and Jesse, and they discover they can't leave the game. If they don't figure out what's going on fast, they'll be trapped for good!

Describes what obsessive-compulsive disorder is and how it works, and teaches young readers techniques to reduce and overcome it through writing and drawing activities and self-help exercises and strategies.

This book chronicles the unforgettable account of one of the most severe child abuse cases in California history. It is the story of Dave Pelzer, who was brutally beaten and starved by his emotionally unstable, alcoholic mother: a mother who played tortuous, unpredictable games--games that left him nearly dead. He had to learn how to play his mother's games in order to survive because she no longer considered him a son, but a slave; and no longer a boy, but an "it." Dave's bed was an old army cot in the basement, and his clothes were torn and raunchy. When his mother allowed him the luxury of food, it was nothing more than spoiled scraps that even the dogs refused to eat. The outside world knew nothing of his living nightmare. He had nothing or no one to turn to, but his dreams kept him alive--dreams of someone taking care of him, loving him and calling him their son.

At the center: a young woman who calls herself Bride, whose stunning blue-black skin is only one element of her beauty, her boldness and confidence, her success in life, but which caused her light-skinned mother to deny her even the simplest forms of love. There is Booker, the man Bride loves, and loses to anger. Rain, the mysterious white child with whom she crosses paths. And finally, Bride's mother herself, Sweetness, who takes a lifetime to come to understand that “what you do to children matters. And they might never forget.”

Effective Discipline for Children 2–12

What to do when your child is not just being difficult, but becoming dangerous Are you locked in a constant struggle for control with your child? Do you question your abilities as a parent because your child doesn't seem to love you? Are you at your wit's end because of your child's endless lies and destruction? While parenting inevitably comes with its fair share of struggles, caring for a child with Reactive Attachment Disorder (RAD) will turn your world upside down. It doesn't matter how much you love and care for them: your child will push your buttons and test your limits.

From violence to false accusations of abuse, no parent expects, or is prepared to handle, these kinds of troubling behavior from a child. Your child's unique condition requires a unique style of parenting. Because they don't have the same motivations and attachments as regular children, a child with Reactive Attachment Disorder will need a different type of care and discipline. Fortunately, you don't have to figure things out on your own. Others have gone through the heartaches and struggles of parenting a child with this serious condition. By learning from their experiences, you can navigate this challenging journey with both eyes open and prepare your family for what lies ahead. This easy-to-understand guide lays out the complexities of dealing with Reactive Attachment Disorder, based on detailed research and hands-on experience. In Reactive Attachment Disorder 101, here is just a fraction of what you will discover: How to approach parenting when caring for a child with Reactive Attachment Disorder, and why it differs from traditional parenting methods Why your child is rejecting your attempts to hug and kiss them, and how to show your affection instead The shocking behavior that could put your other children in harm's way, and the measures you should take to keep them safe How to make your child feel secure and at ease in your home when they feel suffocated by your care and attention The types of discipline that work with children with Reactive Attachment Disorder, and how to implement them The essential qualities to look for when seeking professional help for your child The #1 thing you should do when interacting with your child that will not only help you take better care of them, but also protect you in worse-case scenarios The hard choices you need to be prepared for when parenting a child with Reactive Attachment Disorder And much more. It can be tempting to give up when you feel like your child is more than you are capable of handling. But it's possible to overcome these difficult challenges and thrive as a family. Understanding your child's illness is the first step in resolving your child's issues. You will have a long, arduous road ahead, but with hope, determination and lots of support, you can get through it. Following the implementation of the Human Rights Act 1998, awareness has increased that we live in a rights-based culture and that children constitute an important group of rights holders. Now in its third edition, Children's Rights and the Developing Law explores the way developing law and policies in England and Wales are simultaneously promoting and undermining children's rights. The book reflects on how far these developments take account of children's interests, using current research on children's needs as a template against which to assess their effectiveness and considering a broad range of topics, including medical law, education and youth justice. A critical approach is maintained throughout, particularly when assessing the extent to which the rights of children are being acknowledged by the courts and policy makers and the degree to which the UK fulfils its obligations under, for example, the UN Convention on the Rights of the Child.

"Perfect for reading aloud, this counting book not only contains bright bold illustrations but also has lots of . . . sound effects that children will love to replicate." -- BOOKLIST Down by the marsh, by the sleepy, slimy marsh, one duck gets stuck in the muck . . . Can two fish, tails going swish, help? What about three moose, munching on spruce? Bright, spirited illustration, this one-of-a-kind counting tale by Phyllis Root - a feast of sounds and numbers that will have listeners scrambling to join in the slippy, sloppy fun.

Brothers and sisters: they can make great friends, and it's nice to have someone who'll love you no matter what. But kids know siblings can be a real drag, too. Full-color illustrations and humorous, kidfriendly text teach kids how to cope with problems of fairness, jealousy, conflict, tattling, privacy, and other things that can make having siblings so difficult. Kids learn how to get along at the home and how to handle special situations such as siblings with special needs, step-siblings, and adopted siblings. Unlike most other books on the topic, Siblings doesn't dwell on sibling rivalry; it focuses on building positive relationships. After all, siblings can grow up to be the best of friends.

1-2-3 Magic for Christian Parents

You're Stuck with Each Other, So Stick Together

This exceptional bedtime story for ages 3 to 6 follows the adventures of Hug, a hero who got stuck as he was headed for the heart for which it was made. Will Hug navigate past The Web of Sticky Thoughts to deliver love and care to the one special heart for which it was intended? Wonderfully illustrated, this book, which is part of the Conscious Bedtime Story Club collection, is a sure-fire winner for parents seeking conscious parenting tools, as it helps kids to learn that sometimes it takes surrender for everything to get better. The book ends with Your Daily Hug Meter, a short set of questions to help children open to giving and receiving love, and the value of surrender as an antidote to Sticky Thoughts.

Complete with relevant Bible verses, explanations, and exercises, this guide builds on the enormously popular 1-2-3 Magic discipline system by addressing the concerns of a Christian parent. Focused on the three main tasks of controlling obnoxious behavior, encouraging good behavior, and strengthening the parent-child relationship, this program is simple, effective, and can be implemented immediately. Addressing everything from homework and chores to more serious tantrums and fighting, Dr. Phelan and Pastor Webb teach parents to take charge—yet refrain from any physical discipline or yelling—leading to happier parents, better behaved children, and a more peaceful home environment. This revised edition includes tips from parents and expanded information on privacy, cyber safety, and social media.

The titles in this extraordinary series are a vital resource. Nine practical guidebooks, each with an accompanying beautifully illustrated storybook, have been written to help children (aged 4-12) think about and connect with their feelings. These guides and stories enable teachers, parents and professionals to recognise the unresolved feelings behind a child's behaviour and to respond correctly to help. How Hattie Hated Kindness is a story for children locked in rage or hate: (A story for children locked in rage or hate). Hattie lives by herself on an island. She likes sharks, and crabs and stinging centipedes. She likes anything hard and spiky. Lots of people try to bring kindness to Hattie on her island, but each time she is very horrid to them, smashing and spoiling everything they try to do for her. So after a while they all stop coming to the island. Hattie is very alone. So she sits by the water's edge and tries to figure out why she hates love and loves hate. She thinks it must be because she is a very bad girl indeed. But the lapping water-over-her-toes helps Hattie to understand that because she'd been a very sad and frightened little girl in a too hard world, she had become hard too, so that the awful fear and the awful pain would go away. The lapping-water-over-her-toes helps Hattie to move from cruel to kind. In the end, Hattie builds a bridge to the warm and cosy world across the water.

This is a guidebook to help children who: hurt, hit, bite, smash, kick, shout, scream or who are out of control, hyperaroused or hyperactive; can only discharge their angry feelings in verbal or physical attacks, rather than being able to think about and reflect on what they feel: are angry because it is easier than feeling hurt or sad; are locked in anger or rage because of sibling rivalry; are controlling and punitive; regularly defy authority or are diagnosed with a conduct disorder; commit cold acts of cruelty, hurt animals or do not cry any more; spoil, damage or destroy what others do or make; create fear in others because they have locked away their own fears; do not want to please people, cannot trust, have stopped looking for love or approval or truly believe they do not need anyone; do not really know how to 'like' someone; and, definitely do not know

how to love someone or are affectionate only if they want something.
