With more than one and a half million copies sold worldwide in thirty languages, '1001 Movies You Must See Before You Die' celebrates the great and groundbreaking, classic and cult, must-see movies of all time, offering a treasure trove of incisive, witty, and revealing insights. Spanning more than a century of extraordinary cinema, this comprehensive volume brings together the most significant movies from every country and all genres, from action to Western, through animation, comedy, documentary, musical, thriller, noir, short, romance, and sci-fi. Completely revised and updated for 2013, this definitive edition features a fresh new design, 500 original movie posters, and 200 new movie stills. Fifty previously overlooked or recently discovered masterpieces are reviewed for the first time, taking their place alongside the box-office smashes and critically acclaimed films of movie history. Quotes from movie directors and critics, together with little-known facts complement the incisive reviews and vital statistics of each movie to make this the most fact-filled edition ever. So, whether your passion is rom-com or art house, 'The Blue Angel' or 'Blue Velvet,' '1001 Movies You Must See Before You Die' is bound to become the only film book you will ever turn to.

Collared from the annual 'Top 1000 songs of all time' listener poll, the most requested songs on the 'X-list' and suggestions from radio DJs and celebrity guests, this book covers all our best-loved tracks. Each entry contains a short explanation of why the song in question is so brilliant, it also features hand trivia and chart statistics.
The emergence of severe acute respiratory syndrome (SARS) in late 2002 and 2003 challenged the global public health community to confront a novel epidemic that spread rapidly from its origins in southern China until it had reached more than 25 other countries within a matter of months. In addition to the number of patients infected with the SARS virus, the disease had profound economic and political repercussions in many of the affected regions. Recent reports of isolated new SARS cases and a fear that the disease could reemerge and spread have put public health officials on high alert for any indications of possible new outbreaks. This report examines the response to SARS by public health systems in individual countries, the biology of the SARS coronavirus and related coronaviruses in animals, the economic and political fallout of the SARS epidemic, quarantine law and other public health measures that apply to combating infectious diseases, and the role of international organizations and scientific cooperation in halting the spread of SARS. The report provides an illuminating survey of findings from the epidemic, along with an assessment of what might be needed in order to contain any future outbreaks of SARS or other emerging infections. In fewer than fifty years, these viruses have become one of the most popular forms of entertainment. But which are the best games, the ones you must play? Tony Mott, editor of popular gaming magazine Edge, presents 1001 of the best video games from around the world, from Donkey Kong to Doom, and from Frogger to Final Fantasy. Covering everything from old favourites to those breaking new ground, these are the games that should not be missed.

An Aural History of Recorded Music

A guide to music provides recommendations on one thousand recordings that represent the best in such genres as classical, jazz, rock, pop, blues, country, folk, musicals, hip-hop, and opera, with listening notes, commentary, and anecdotes about performers

1,000 Recordings to Hear Before You DieA Listener's Life ListWorkman Publishing

The musical adventure of a lifetime. The most exciting book on music in years. A book of treasure, a book of discovery, a book to open your ears to new worlds of pleasure. Doing for music what Patricia Schultz—author of the phenomenal 1,000 Places to See Before You Die—does for travel, Tom Moon recommends 1,000 recordings guaranteed to give listeners the joy, the mystery, the revelation, the sheer fun of great music. This is a book both broad and deep, drawing from the country, folk, musicals, hip-hop, world, opera, soundtracks, and more. It's arranged alphabetically by artist to create the kind of unexpected juxtapositions that break down genre bias and broaden listeners' horizons—it makes every listener a seeker, actively pursuing new artists and new sounds, and reconfirming the greatness of the classics. Flanking J. S. Bach and his six entries, for example, are the little-known R&B singer Baby Huey and the '80s Rastafarian hard-core punk band Samuel Barber, Cecilia Bartoli, Count Basie, and Afropop star Waldemar Simões. Each entry is passionately written, with expert listening notes, fascinating anecdotes, and the occasional perfect quote—"Your collection could be filled with nothing but music from Ray Charles," said Tom Waits, "and you'd have a completely balanced diet." Every entry identifies key tracks, additional works by the artist, and where to go next. And in the back, indexes and playlists for different moods and One of The Telegraph's Best Music Books 2011 Alex Ross's award-winning international bestseller, The Rest Is Noise: Listening to the Twentieth Century, has become a contemporary classic, establishing Ross as one of our most popular and acclaimed cultural historians. Listen to This, which takes its title from a beloved 2004 essay in which Ross describes his late-blooming discovery of pop music, showcases the best of his writing from more than a decade at The New Yorker. The artists alike, are at once erudite and lively. In a previously unpublished essay, Ross brilliantly retells hundreds of years of music history—from Renaissance dances to Led Zeppelin—through a few iconic bass lines of celebration and lament. He vibrantly sketches canonical composers such as Schubert, Verdi, and Brahms, gives us in-depth interviews with modern pop masters such as Björk and Radiohead, and introduces us to music students at a Newark high school and indie-rock hip

Mozart or Bob Dylan, Ross shows how music expresses the full complexity of the human condition. Witty, passionate, and brimming with insight, Listen to This teaches us how to listen more closely.

This book names the best albums of the last 50 years from across the globe. It tells the story behind the making of the album, where the album fits in the artist's career and the album's impact on the local and world stage. The entries will feature new interviews with the artists and the producers/managers involved in the recording and the release of the album. Finally, here is a much-needed list of argument-starting top 100 seminal/influential/essential albums of all time. Let the fight begin!

This volume acts as a reference to the 1000 top albums of all time. All the key information is provided, including track listings and a brief judgement on each album. The appendices in this new edition have been expanded and enlarged to include the top 1000 albums across a range of genres, from blues to rap, reggae to indie and jazz to dance. More specialist areas, such as Latin, have been included and the number of jazz albums have been increased.

Profiles major blues musicians, including Bo Diddley, Howlin' Wolf, and Bessie Smith.

This masterful survey covers all genres of popular music, from pop, rock, soul, and country to jazz, blues, classic vocals, hip-hop, folk, gospel, and ethnic/world music. Collectors will find detailed discographical data while music lovers will appreciate the detailed commentaries and deep research on the songs, their recording, and the artists.

The Gramophone Classical Music Guide 2011 is the essential guide for music lovers collecting their music on CD, DVD or as a download, drawing on Gramophone magazine's 85-year experience of reviewing classical music on record.Whether you're just dipping a toe into the huge, but rewarding, world of classical music, or already have a substantial collection, The Gramophone Classical Music Guide 2011 is an invaluable companion.

The ultimate gift for the food lover. In the same way that 1,000 Places to See Before You Die reinvented the travel book, 1,000 Foods to Eat Before You Die is a joyous, informative, dazzling, mouthwatering life list of the world's best food. The long-awaited new book in the phenomenal 1,000 . . . Before You Die series, it's the marriage of an irresistible subject with the perfect writer, Mimi Sheraton—award-winning cookbook author, grande dame of food journalism, and former restaurant critic for The New York Times. 1,000 Foods fully delivers on the promise of its title, selecting from the best cuisines around the world (French, Italian, Chinese, of course, but also Senegalese, Lebanese, Mongolian, Peruvian, and many more)—the tastes, ingredients, dishes, and restaurants that every reader should experience and dream about, whether it's dinner at Chicago's Alinea or the perfect empanada. In more than 1,000 pages and over 550 full-color photographs, it celebrates haute and snack, comforting and exotic, hyper-local and the universally enjoyed: a Tuscan plate of Fritto Misto. Saffron Buns for breakfast in downtown Stockholm. Bird's Nest Soup. A frozen Milky Way. Black truffles from Le Périgord. Mimi Sheraton is highly opinionated, and has a gift for supporting her recommendations with smart, sensuous descriptions—you can almost taste what she's tasted. You'll want to eat your way through the book (after searching first for what you have already tried, and comparing notes). Then, following the romance, the practical: where to taste the dish or find the ingredient, and where to go for the best recipes, websites included.

The first ever comprehensive guide to musical theatre recordings, this book covers the entire history of musical theatre. From Jerome Kern and the Gershwins to Bernstein and Sondheim, here are capsule reviews and ratings of more than 400 theatre recordings of the past 60 years. Organized alphabetically, each listing contains background information on the show, cast information, record label, catalogue number, and whether the recording is currently in print, and an overall rating of one to five stars.

This is a true story of daring and adventure during World War II—with such unexpected players as Marlene Dietrich, who took part in the "musical warfare," and Julia Child, whose duties were clerical but who nonetheless felt she was "saving the world." To quote Tom Moon: "Anything that could hurt the enemy and aid the Allies was fair game. The rules of warfare were to be abolished for this organization." "This organization" was the Office of Strategic Services (OSS), the precursor to the CIA, which President Franklin D. Roosevelt ordered into existence five months before the Japanese attack on Pearl Harbor in 1941. The eclectic group of specially skilled agents included scientists, professors, policemen, forgers, pickpockets-and a nineteen-year-old French-speaking draftee from Nebraska named Tom Moon. Their mission: to gather information and to carry out sabotage and guerrilla operations behind enemy lines any way they could, anywhere in the world. Here is a little-known but crucial aspect of the war effort, told as only an insider can.

1001 Albums You Must Hear Before You Die is a highly readable list of the best, the most important, and the most influential pop albums from 1955 through 2003. Carefully selected by a team of international critics, each album is a groundbreaking work seminal to the understanding and appreciation of music from the 1950s to the present. Included with each entry are production details and credits as well as reproductions of original album cover art. Perhaps most important of all, each album featured comes with an authoritative description of its importance and influence. Among the critics involved in selecting the list are some of the best known music reviewers and commentators, including Theunis Bates (music writer for Time and urban editor at worldpop.com), Jon Harrington (staff writer at MTV), Seth Jacobson (writer for Dazed & Confused), as well as many others.

A succinct survey of Western popular music since the advent of sound recordings. Exhaustive in its coverage of musical genres and styles, including chapters on jazz, the blues, country & western, the Tin Pan Alley pop tradition, R&B, 1950s rock 'n' roll (and countless offshoots such as rockabilly, doo-wop, novelty songs, instrumentals, girl groups, teen idols, et al.), the British Invasion, the American Renaissance (most notably, soul, the California Sound, and folk rock), and the seemingly infinite variety of hybrids occurring since the late 1960s: progressive rock, disco, punk/new wave, alternative rock, rap/hip-hop, and much more. Representative recordings are noted for each discussed style. The author taught a University pop music survey course over the past 20 years.

The award-winning founder of Piano Today magazine presents a historical tribute to the piano that evaluates the roles of forefront composers and pianists while exploring the artistic development of various genres and the influence of the piano on Western musical traditions.

In 1915, Thomas Edison proclaimed that he could record a live performance and reproduce it perfectly, shocking audiences who found themselves unable to tell whether they were hearing was an Edison Diamond Disc or a flesh-and-blood musician. Today, the equation is reversed. Whereas Edison proposed that a real performance could be rebuilt with absolute perfection, Pro Tools and digital samplers now allow musicians and engineers to create the illusion of performances that never were. In between lies a century of sonic exploration into the balance between the real and the represented. Tracing the contours of this history, Greg Milner takes us through the major breakthroughs and glorious failures in the art and science of recording. An American soldier monitoring Nazi radio transmissions stumbles onto the open yet revolutionary secret of magnetic tape. Japanese and Dutch researchers build a first-generation digital audio format and watch as their "compact disc" is marketed by the music industry as the second coming of Edison yet derided as heretical by analog loyalists. The music world becomes addicted to volume in the nineties and fights a self-defeating "loudness war" to get its fix. From Les Paul to Phil Spector to King Tubby, from vinyl to pirated CDs to iPods, Milner's Perfecting Sound Forever pulls apart musical history to answer a crucial question: Should a recording document reality as faithfully as possible, or should it improve upon or somehow transcend the music it records? The answers he uncovers will change the very way we think about music.

Pioneering Discoveries in the New Science of Song

Glenn Gould's Obsessive Quest for the Perfect Piano

The Gramophone Classical Music Guide 2011
The Must-Have CDs and DVDs

Glenn Gould was famous for his obsessions: the scarves, sweaters and fingerless gloves that he wore even on the hottest summer days; his deep fear of germs and illness; the odd wooden "pygmy" chair that he carried with him wherever he performed; and his sudden withdrawal from the public stage at the peak of his career. But perhaps Gould's greatest obsession of all was for a particular piano, a Steinway concert grand known as CD318 (C, meaning for the use of Steinway Concert Artists only, and D, denoting it as the largest that Steinway built). A Romance on Three Legs is the story of Gould's love for this piano, from the first moment of discovery, in a Toronto dept. store, to the tragic moment when the piano was dropped and seriously damaged while being transported from a concert overseas. Hafner also introduces us to the world and art of piano tuning, including a central character in Gould's life, the blind tuner Verne Egnist, who lovingly attended to CD318 for more than two decades. We learn how a concert grand is built, and the fascinating story of how Steinway & Sons weathered the war years by supplying materials for the military effort. Indeed, CD318 came very close to ending up as a series of glider parts or, worse, a casket. The book has already been lauded by Kevin Bazzana, author of the definitive Gould biography, who notes that Hafner "has clarified some old mysteries and turned up many fresh details."

The Step-by-Step Guide to Marketing Your Book

The award-winning creator of the documentary The Music Instinct traces the efforts of visionary researchers and musicians to understand the biological foundations of music and its relationship to the brain and the physical world. 35,000 first printing.

This book is primarily concerned with the classical music catalog of Mercury Living Presence recordings recorded and published by the Mercury Record Corporation. Mercury Records made some of the finest and most natural sounding audio recordings ever made, mostly of excellent and committed performances of classical music. But this is not a history of Mercury records or even of the Living Presence series of recordings. My main focus was to create a list of all the Mercury Living Presence classical records. I am mostly interested in the stereo recordings, but there are also many earlier mono recordings of great interest, too, so I have included those also. Specifically, what is included is information on the SR 90000 series of stereo recordings and the MG 50000 series of mono recordings, but there is also a listing of the Wing classical reissue series. **** Decades ago, when I began collecting Mercury records, and years later when I started collecting the CDs, I was looking for a complete list of all the Mercury Living Presence records and later the CDs. Though I found some information that was helpful, to get what I wanted, I had to make the list myself. I started with lists of records on the record sleeves of the albums, got some information from The Absolute Sound! magazine, and in the internet age, found useful information on several internet sites, but mostly to get the list I wanted, I had to dig up the information and build it myself. Having completed the list, it occurred to me that other collectors might find it helpful, too. So I put together a group of databases and spreadsheets in Microsoft Excel and Microsoft Works database format files and issued the databases I had created on a CD-ROM disc in early 2013. By that time I had all the original series of CDs mastered by Wilma Cozart Fine, and many of the records that had been reissued on CD, and virtually all of the stereo records not issued on CD, plus most of the mono records in which I had a strong interest. Now it is available as a book. Among other things it includes the following lists: Complete Mercury Living Presence CDs, including every CD, with its track information, identifying Composer, title, soloist, conductor, orchestra, CD #, LP where originally published, and recording date. Complete Mercury Living Presence LPs including every LP with its track information identifying Composer, title, soloist, conductor, orchestra, LP #, CD on which it was reissued if any, and recording date. Different versions of the files are arranged by: Composer and Title, Recording Date, Record number, and CD number. There are also a listings of LPs and LP tracks that have not been reissued in the Mercury Living Presence CD series. Included are listings of all original Mercury Living Presence records in the SR 90000 and MG 50000 series, all CDs originally mastered by Wilma Cozart Fine, all SACDs, and the more recent reissues and new issues in the large 50+ CD box sets and the 10-CD box sets of Marcel Dupré and Janos Starker. There are also a few chapters of background information, little known facts, and other topics of interest. Hopefully readers will find it interesting and useful.

The author of the New York Times bestseller This Is Your Brain on Music reveals music's role in the evolution of human culture in this thought-provoking book that "will leave you awestruck" (The New York Times). Daniel J. Levitin's astounding debut bestseller, This Is Your Brain on Music, enthralled and delighted readers as it transformed our understanding of how music gets in our heads and stays there. Now in his second New York Times bestseller, his genius for combining science and art reveals how music shaped humanity across cultures and throughout history. Here he identifies six fundamental song functions or types—friendship, joy, comfort, religion, knowledge, and love—then shows how each in its own way has enabled the social bonding necessary for human culture and society to evolve. He shows, in effect, how these "six songs" work in our brains to preserve the emotional history of our lives and species. Dr. Levitin combines cutting-edge scientific research from his music cognition lab at McGill University and work in an array of related fields; his own sometimes hilarious experiences in the music business; and illuminating interviews with musicians such as Sting and David Byrne, as well as conductors, anthropologists, and evolutionary biologists. The World in Six Songs is, ultimately, a revolution in our understanding of how human nature evolved—right up to the iPod.
