

1000 Word Paper

Nineteenth-century British periodicals for girls and women offer a wealth of material to understand how girls and women fit into their social and cultural worlds, of which music making was an important part. The Girl's Own Paper, first published in 1880, stands out because of its rich musical content. Keeping practical usefulness as a research tool and as a guide to further reading in mind, Judith Barger has catalogued the musical content found in the weekly and later monthly issues during the magazine's first thirty years, in music scores, instalments of serialized fiction about musicians, music-related nonfiction, poetry with a musical title or theme, illustrations depicting music making and replies to musical correspondents. The book's introductory chapter reveals how content in The Girl's Own Paper changed over time to reflect a shift in women's music making from a female accomplishment to an increasingly professional role within the discipline, using 'the piano girl' as a case study. A comparison with musical content found in The Boy's Own Paper over the same time span offers additional insight into musical content chosen for the girls' magazine. A user's guide precedes the chronological annotated catalogue; the indexes that follow reveal the magazine's diversity of approach to the subject of music.

Getting published is crucial for professional success in biomedicine. This book provides fresh practical tips which can be applied immediately. It answer the quesitons writers actually ask. It includes essential topics such as how biomedical publishing works; how to write scientific papers abstracts review articles and book chapters; how to write clearly concisely and correctly; up-to-date advice on hardware and software for writers; resources on the internet; and overcoming writer's block.

The new version has two additions. First, at the suggestion of Stephen Stigler I have replaced the Table of Contents by what he calls an Analytic Table of Contents. Following the title of each section or subsection is a description of the content of the section. This material helps the reader in several ways, for example: by giving a synopsis of the book, by explaining where the various data tables are and what they deal with, by telling what theory is described where. We did several distinct full studies for the Federalist papers as well as many minor side studies. Some or all may offer information both to the applied and the theoretical reader. We therefore try to give in this Contents more than the few cryptic words in a section heading to ~peed readers in finding what they want. Secong, we have prepared an extra chapter dealing with authorship work published from. about 1969 to 1983. Although a chapter cannot compre hensively Gover a field where many books now appear, it can mention most ofthe book-length works and the main thread of authorship' studies published in English. We founq biblical authorship' studies so extensive and com plicated that we thought it worthwhile to indicate some papers that would bring out the controversies that are taking place. We hope we have given the flavor of developments over the 15 years mentioned. We have also corrected a few typographical errors.

A Weekly Review of Theoretical and Applied Electricity

John O'London's Weekly

Journal of Education

Some people complain that science is dry. That is, of course, a matter of taste. For my own part, I like my science and my champagne as dry as I can get them. But the public thinks otherwise. So I have ventured to sweeten accompanying samples as far as possible to suit the demand, and trust they will meet with the approbation of consumers. Of the specimens here selected for exhibition, my title piece originally appeared in the Fortnightly Review: 'Honey Dew' and 'The First Potter' were contributions to Longman's Magazine: and all the rest found friendly shelter between the familiar yellow covers of the good old Cornhill. My thanks are due to the proprietors and editors of those various periodicals for kind permission to reproduce them here.

The bestselling workbook and grammar guide, revised and updated! Hailed as one of the best books around for teaching grammar, The Blue Book of Grammar and Punctuation includes easy-to-understand rules, abundant examples, dozens of reproducible quizzes, and pre- and post-tests to help teach grammar to middle and high schoolers, college students, ESL students, homeschoolers, and more. This concise, entertaining workbook makes learning English grammar and usage simple and fun. This updated 12th edition reflects the latest updates to English usage and grammar, and includes answers to all reproducible quizzes to facilitate self-assessment and learning. Clear and concise, with easy-to-follow explanations, offering "just the facts" on English grammar, punctuation, and usage Fully updated to reflect the latest rules, along with even more quizzes and pre- and post-tests to help teach grammar Ideal for students from seventh grade through adulthood in the US and abroad For anyone who wants to understand the major rules and subtle guidelines of English grammar and usage, The Blue Book of Grammar and Punctuation offers comprehensive, straightforward instruction.

"Pen Drawing: An Illustrated Treatise" by Charles Donagh Maginnis. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten–or yet undiscovered gems–of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

The Structure of Argument

The Electrical Engineer

Elements of Argument

The World's Chronicle

An Audience of One

New England Journal of Education

The Structure of Argument covers critical thinking, reading, writing, and research. It is concise but thorough and presents everything students need in an affordable, compact format. The Structure of Argument includes questions, exercises, and writing assignments, and a full semester's worth of readings. Now presenting Aristotelian and Rogerian as well as Toulmin argument, it includes many fresh readings and additional support for academic writing to help students stake their claim. Its emphasis on Toulmin argument makes Structure highly teachable, since the approach fits with the goals of the composition course. An electronic edition is available at half the price of the print book.

Elements of Argument combines a thorough argument text on critical thinking, reading, writing, and research with an extensive reader on both current and timeless controversial issues. It presents everything students need to analyze, research, and write arguments. Elements of Argument covers Toulmin, Aristotelian, and Rogerian models of argument and has been thoroughly updated with current selections students will want to read. It now includes additional support for academic writing, making it a truly flexible classroom resource. An electronic edition is available at half the price of the print book. Read the preface.

This collection of intriguing essays describes important applications of statistics and probability in many fields. Instead of teaching methods, the essays illustrate past accomplishments and current uses of statistics and probability. Surveys, questionnaires, experiments, and observational studies are also presented to help the student better understand the importance of the influence of statistics on each topic covered within the separate essays.

Starting university can be a daunting prospect, as students come to grips with new ways of working, learning and thinking. Studying sport at university poses particular challenges, with students often engaged in playing or coaching sport alongside their studies and having unconventional working patterns. Study Skills for Sport Studies is the only complete guide to degree-level study to be written specifically for students on sport-related courses, outlining the core academic competencies needed to succeed at university. The textbook offers tips and techniques for all aspects of higher education, including time management, critical thinking, academic research and writing, e-learning, presentations, group work and exams. The practical processes are supported by sports-related examples, and each chapter ends with useful exercises to test your skills as well as reflect on your prior learning experiences. Designed as either a self-paced text or a companion to an introductory class, Study Skills for Sports Studies demystifies the academic skills needed to succeed and helps you make the most of your time at university.

A First Nations former hockey star looks back on his life as he undergoes treatment for alcoholism in this novel from the author of Dream Wheels. Saul Indian Horse is a child when his family retreats into the woods. Among the lakes and the cedars, they attempt to reconnect with half-forgotten traditions and hide from the authorities who have been kidnapping Ojibway youth. But when winter approaches, Saul loses everything: his brother, his parents, his beloved grandmother—and then his home itself. Alone in the world and placed in a horrific boarding school, Saul is surrounded by violence and cruelty. At the urging of a priest, he finds a tentative salvation in hockey. Rising at dawn to practice alone, Saul proves determined and undeniably gifted. His intuition and vision are unmatched. His speed is remarkable.

Together they open doors for him: away from the school, into an all-Ojibway amateur circuit, and finally within grasp of a professional career. Yet as Saul's victories mount, so do the indignities and the taunts, the racism and the hatred—the harshness of a world that will never welcome him, tied inexorably to the sport he loves. Spare and compact yet undeniably rich, Indian Horse is at once a heartbreaking account of a dark chapter in our history and a moving coming-of-age story. “Shocking and alien, valuable and true... A master of empathy.”—Jane Smiley, Pulitzer Prize–winning author of Golden Age “A severe yet beautiful novel.... Indian Horse finds the granite solidity of Wagamese’s prose polished to a lustrous sheen; brisk, brief, sharp chapters propel the reader forward.”—Donna Bailey Nurse, National Post (Toronto)

Over a thousand words about Animals, living and extinct to search for and find. A perfect way to keep your mind active!

This book offers a unique collection - the first of its kind - of chapters dealing with socio-dynamical aspects of the astronomy (and related space sciences) community: characteristics of organizations, publication studies, research indicators, space science planning, research communication, public outreach, and so on. The experts contributing to this book have done their best to write in a way understandable by readers not necessarily hyper-specialized in astronomy, while still providing specific detailed information. The book concludes with an extensive bibliography of publications related to socio-astronomy and to the interactions of the astronomy community with society at large. This book will be most usefully read by researchers, teachers, editors, publishers, librarians, science sociologists, research planners and strategists, project managers, and public relations officers, plus those in charge of astronomy-related organizations, as well as by students aiming at a career in astronomy or related space science.

Welcome to the City. In this place of peace and plenty, with no disease, no suffering, and no want, people find meaning in service to their gods. They know the gods were created by humans, of course. But the gods protect and provide for the people, so why wouldn't the people serve the gods? In a Utopian society, what better way to express service than through pleasure and faith? For Kheema and her seven fellow Potentials, that means entering the temple of the Sun God to undergo months of training and practice to determine which of them will be chosen as Sacrifice. On the day of the summer Solstice, the one chosen as Sacrifice must recite the entire litany from atop the temple, while enduring nonstop forced orgasms from dawn 'til dusk. For Terlyn, service means becoming part of the Garden, bound naked and asleep while worshippers help themselves to her body. Terlyn wakes in ecstasy over and over, only to fall asleep again. The experience changes her, and her relationship with her friend and lover Donvin, who visits her while she is part of the Garden. Ashi's service to the god known as the Wild entails competing with other worshippers in a forest that appears overnight to demonstrate her resilience and will, so that she might become part of a ritual involving an altar, a long row of cages, and the complete abandonment of the self. The three stories brush against each other, revealing the heart of the City, as the people of the City serve, or ask for enlightenment from, multiple gods at once.

"Everyone working in or teaching public health has their origin story. Ask your colleagues how they ended up where they are and you will rarely hear the same story twice. Of course, there are variations on some key themes:"

This is a book on how to read the essay, one that demonstrates how reading is inextricably tied to the art of writing. It aims to treat the essay with the close attention that has been given to other literary genres, and in doing so it suggests the beauty and depth of the form as a whole. At once personal appreciations and acute critical assessments, the pieces collected here broaden our perspective on the essay as a major literary art, tracing its history from William Hazlitt to Joan Didion.

This brief edition of a groundbreaking textbook addresses the need for college students to develop critical reading, writing, and thinking skills for self-defense in the contentious arena of American civic rhetoric. Designed for first-year or more advanced composition and critical thinking courses, it is one-third shorter than the original edition, more affordable for students, and easier for teachers to cover in a semester or quarter. It incorporates up-to-date new readings and analysis of controversies like the growing inequality of wealth in America and the debates in the 2008 presidential campaign, expressed in opposing viewpoints from the political left and right. Exercises help students understand the ideological positions and rhetorical patterns that underlie such opposing views. Widely debated issues of whether objectivity is possible and whether there is a liberal or conservative bias in news and entertainment media, as well as in education itself, are foregrounded as topics for rhetorical analysis.

The Critical Citizen's Guide to Argumentative Rhetoric

The Brazen Altar

A Shepherd to Fools is the second of Drew Mendelson’s trilogy of Vietnam War novels that began with Song Ba To and will conclude with Poke the Dragon. Shepherd: It is the ragged end of the Vietnam war. With the debacle of a failing South Vietnamese invasion of Northern Laos as background, A Shepherd to Fools tells the harrowing tale of a covert Hatchet Team of US soldiers and Montagnard mercenaries. They are ordered to find and capture or kill a band of American deserters, called Longshadows, before the world learns of their paralyzing rebellion. An earlier attempt to capture them failed disastrously, the facts of it buried. Captain Hugh Englander commands the Hatchet Team. He is a humorless bastard, sneering and discourteous to every regular army soldier. He cares little for the welfare of his own men and nothing for the lives of the deserters. The conflict between him and Captain David Weisman, the artillery officer assigned to the mission for artillery support, threatens to tear the team apart. Deep in the Laotian jungle, the team is caught in a final, horrific battle facing an enemy armed with Sarin nerve gas, the [worst of the worst] of the war’s clandestine weapons.

Based upon the principle that graph design should be a science, this book presents the principles of graph construction. The orientation of the material is toward graphs in technical writings, such as journal articles and technical reports. But much of the material is relevant for graphs shown in talks and for graphs in nontechnical publications. -- from back cover.

Getting published is crucial for success in biomedicine. Whether you are a beginner or an experienced writer, you will find this book has fresh, practical tips on everyday issues. Based on the authors’ successful training courses and extensive experience of healthcare communications, this book will answer your questions and help you to avoid the most frequent problems and pitfalls. The book is designed to be very practical, and to be used when you are actually writing. It does not need to be read straight through from beginning to end before you get started. Instead, just dip into any chapter and you will find a range of tips relevant to the material you are working on right now.

'At last virtually everything that a postgraduate research degree student should need to know in a single volume.' Ian Haines, member of the Executive Committee of the UK Council for Graduate Education, and former Director of the Graduate School, London Metropolitan University The Postgraduate's Companion is the most comprehensive, practical and accessible source of support and guidance for anyone contemplating starting, or already undertaking, their research degree. Hall and Longman's invaluable book is an essential reference resource for anyone doing postgraduate research or thinking of doing it. Leading experts in their fields address the fundamental questions of what a research degree involves; how to choose the best institution; secure an offer; and fund your research degree. For students who are currently working towards a research degree the book deals with the process thoroughly, including coverage of: - getting the most from the supervisory relationship; - planning and writing the thesis; - navigating and succeeding in research training; - learning to teach in HE and balancing teaching and research; - beating the blues and learning how to complete in good time; - and succeeding in the viva voce examination. The final section of the book covers what to do with a research degree once you have one. This includes identifying your skills; staying in academia; research outside academia; leaving research and academia; and starting your own business. The Postgraduate's Companion is a uniquely comprehensive guide for research students and supervisors. It covers all of the processes involved in doing a research degree - from setting out, to life beyond the research degree - providing an invaluable guide for all research students.

Stasiland tells true stories of people who heroically resisted the communist dictatorship of East Germany, and of people who worked for its secret police, the Stasi. Internationally hailed as a classic, it is 'fascinating, entertaining, hilarious, horrifying and very important' (Tom Hanks) and 'a heartbreaking, beautifully written book.' (Claire Tomalin). East Germany was one of the most intrusive surveillance states of all time. One in 7 people spied on their friends, family and colleagues. In 'the most humane and sensitive way' (J.M. Coetzee) Funder tells the true stories of four people who had the extraordinary courage to refuse to collaborate with the Stasi, and the price they paid. She meets Miriam Weber, who was imprisoned at 16 after scaling the Berlin Wall. She drinks with the legendary "Mik Jagger" of the Eastern Bloc who was 'disappeared'. And she finds former Stasi men who defend their regime long past its demise, and yearn for the second coming of Communism. Stasiland won the Samuel Johnson Prize for best non-fiction published in English in 2004. It was a finalist for the Guardian First Book Award, the W.H. Heinemann Award, the Index Freedom of Expression Awards, The Age Book of the Year Awards, the Queensland Premier's Literary Award and the Adelaide Festival Awards for Literature (Innovation in Writing). It is read in schools and universities in many countries, and has been adapted for CD and the stage by The National Theatre, London.

This is the climax of God's revelation of His will to a lost world, and given through the greatest mind of all times. What a blessing it has been to my soul, these studies, made on our tour clear around the world. I studied it night and day. It was my meditation on land and sea. Whether in the snow-capped majestic Alps or in the desert sands of Arabia, whether in the storms of the Atlantic, or in the quiet calm of the "Pacific, my soul fairly rejoiced in this the greatest, the highest mountain peak of divine revelation. Often I would bow my head in humiliation, confess my sins, that I would ever complain or hesitate one second's time to proclaim the gospel of the Son of God. I could wish I could roll back the hands of time and begin once more the simple ministry of an earnest country preacher.

The creator of the Unmistakable Creative podcast makes a counterintuitive argument: By focusing your creative work on pleasing yourself, you can increase your productivity, happiness, and (eventually, paradoxically) the size of your audience. Creating for your own pleasure--whether you're writing a novel, composing songs, or painting a landscape--can seem pointless. It's tempting to focus on pursuing money and fame, rather than the process itself. But as Srini Rao warns, creating then turns into a chore that can harm your self-esteem and suck the pleasure out of life, rather than being a source of joy. Rao, host of the podcast The Unmistakable Creative, argues that we should counter this thinking by intentionally creating art for ourselves alone--an audience of one. In this book he shares the fascinating true stories of creatives who took this path, along with actionable tips and the research of creativity experts. You'll learn, for example:

- How Oprah's intentional focus on her own work rather than the opinions of everyone else catapulted her into one of the most popular talk shows of all time.
- How being process-driven can not only help you produce more work, but can make you happier outside of your creative time.
- How to put together a creative "team of rivals" whose feedback can help you hone your craft and filter out useless feedback.

By playing to an audience of one, we can find more happiness, increased productivity, and a greater sense of community.
