There is nothing quite like whipping up a batch of steaming hot stew or soup on a cold day. Even when the weather is warm out, a good soup can bring comfort into any house and a cozy feeling that heats your entire body. We normally associate the preparation of these dishes with heavy pots or time-consuming crock pots, and forget that there are actually much easier ways of creating the soups and stews that we crave. Fortunately, the pressure cookers is just another means of making these meals and in virtually half the time! The benefit of using a pressure cooker specifically with soups and stews is that it cooks much quicker than on a conventional stove or with a crock pot. The steam heat that is trapped inside creates enough pressure to cook all of the contents rapidly. And if you're using meat to protein-pack your stew and chili, then the pressure cooker ensures that all of the flavors stay locked directly in your ingredients, creating a robust taste. From traditional chilis to soups and stews with a twist, this e-book has something for whatever taste you are trying to satisfy. These 50 recipes will no doubt keep you warm for nights to come, and also provide a delicious, healthy meal for the next day if you have some left over. You'll be pleased with the easy cleanup and the effortless feasts you will be able to create in no time flat! HERE ARE JUST A FEW OF THE AMAZING RECIPES INSIDE THIS BOOK\* Electric Pressure Cooker Lentil Soup \* Electric Pressure Cooker Chicken Noodle Soup \* Electric Pressure Cooker Tomato Soup \* Electric Pressure Cooker Chicken Butternut Squash Soup \*Pressure Cooker Potato & Kale Soup \*Pressure Cooker Creamy Potato Cheddar Soup \*Pressure Cooker Sausage & Bean Soup \*New England's Best Pressure Cooker Clam Chowder \*MUCH MUCH MORE!

Pressure cookers have been around for a long time, but the thought of using one still does not appeal to some. This reluctance may be due to childhood memories of a screeching pressure cooker followed by an explosion that sent the evening's dinner splattering all over the ceiling in the kitchen. Many people can remember that as children they were hurried out of the kitchen whenever the pressure cooker was on the stove. Eating foods that are pressure cooked offers more nutritional boost than those cooked for longer periods using traditional cookware. The longer foods are cooked, the more nutrients are destroyed. Pressure cooking is far more efficient than using multiple pots on separate burners, and can result in significant energy savings. This is because pressure cookers lend themselves to one-pot cooking recipes.
