A coherent and joined-up approach is still missing. This volume provides an analysis of the main contentious areas in British law, and proposes ways forward for reform. The collection includes contributions from leading experts across various jurisdictions. Part I examines the law in the United Kingdom, with specialist contributions on Irish and Scottish law. Part II consists of contributions by authors from a number of foreign jurisdictions, all written to a common research grid for maximum comparability, which provide a wider background of how other legal systems treat problems relating to general defences in the context of the criminal law, and which may serve as points of reference for domestic law reform.*

Ever been late? Steve has. Lots. But he always has a good excuse. Here are 101 real corkers for you to enjoy, and maybe even borrow: Distracted by a surprisingly complicated Kinder toy. Overcome by the urge to alphabetize my pets. Forgot how trousers work. Became temporarily feral. Got stuck in a romantic montage. Why Steve Was Late is a book of hilarious (and even--occasionally--plausible!) reasons for tardiness, handily dreamed up and illustrated by someone else.

Remote Learning or in the classroom. Why are you late again? Where is your assignment? Do you wonder how to answer these questions? In this book you will discover 101 excuses for students and how to use them. You will learn how to explain away your behavior. This book is a result of many years of teaching and listening to my students explain why they were late with turning in assignments or getting to class on time. The list may give you some ideas on what has worked and what you can use in your future. While that statement is meant to be tongue-in-cheek, you can use the advice from this book for creative ways to use excuses and avoid needing to use them. This book is also filled with ideas on how to get things done on time, so you do not need to use the excuses. This

As an internationally gifted speaker and author, David Bennett explains how God uses believers with the Gift of Mercy to benefit the Body of Christ. Using Biblical characters, great historical men of faith, and contemporary real-life people, David opens the heart and soul of Christians spiritually endowed with the Motivational Gift of Mercy. Beginning with Scripture, David defines and demonstrates the Gift of Mercy as it plays out in real life Christianity. Gleaning from the personal lives of past and present saints, David details how the believer with this Gift can be characterized, identified, motivated, and used in the Church of Jesus Christ today. David believes that for the body of Christ to function successfully each member must recognize his divine purpose and function for the health and growth of the body, and carry out his intended objectives and responsibilities in the power of the Spirit.

**Singleness has somehow become a word that carries with it a negative connotation, as if being single means there is something wrong with you. Comments such as “she’s such a lovely girl, I wonder why she hasn’t found a good man yet” are coupled with looks of pity and suggestions of how to meet someone. Well, I’m here to tell you that the negative connotation of singleness is BS. We learn faster, discover ourselves more deeply, and are overall happier and more content with life when we are single than when we are in an unsuitable relationship with another human being. Over the past decade, I’ve had four long-term relationships; none of which lasted. While I loved them, none of those men were the one. I believe that there is someone out there—that is, a man that will make my heart pound with excitement and my hands clam up— and I will not settle for less than that. During this time, I have embraced my singleness. I’ve discovered various reasons why, contrary to popular belief, it is truly great to be single. I am not lonely, I am not pining for affection, and I feel more alive than ever. I’m standing up for singleness, and I tell you, it feels great. A dynamic book filled with excuses, antidotes, jokes and great one-liners to add to your mental database! #591. Hung Loe calls work and says, "Hey, boss I no come work today. I really sick. **Humans are funny creatures. We know a healthier lifestyle is within our grasp, yet we invent a host of excuses to keep us stuck on the couch. Many of us avoid physical activity. But we cant hide from the consequences forever. 101 Excuses NOT to Exercise transforms time-honored excuses for inactivity into humorous (some might say snarky) lessons on nutrition, exercise, and healthy living. My excess weight makes it hard to exercise. Choose swimming; remember, fat floats. Exercise makes my pee stink. Then drink more water and lay off the asparagus.**

*be heroes, too, in so many different ways. Author Di Bates has collected lots of stories about what Aussie kids have done to earn their stripes as heroes. And we're sure that you'll enjoy the illustrations that artist Marjory Gardner has drawn to go with their special stories. Here are just a few of the amazing but true stories you'll find in this book: 16-year-old Grace Bussell and young Aboriginal stockman Sam Isaacs saved 40 out of 48 people in 1876 after the Georgette was shipwrecked off the Western Australia coast... At the age of 14, Melinda Tubolec won a trip to the United States to spend five days in an astronaut-training program at the National Aeronautics and Space Administration (NASA). During the program Melinda won awards for her innovative space station designs and simulated space shuttle missions... On his first try to scale Mount Everest (the world's highest mountain), Christopher Harris became the youngest person to climb above 7,000 metres. Christopher started mountaineering with his dad Richard at just eight years of age. Since then, Christopher has won the Australian Geographic's Young Adventurer of the Year award... Justin Kroh has been blind since he was five years old. However, he entered and won the 1993 UNICEF Art Award when he was 11. Justin's collage, titled How the Crocodile Got to Like Fish, was judged the best overall entry from a total of 4,890 entries from 254 schools.*

*This handbook is based on more than thirty-five years of John DiNapoli's leadership experience in the US Army, the US Army National Guard, and the corporate world. The tenets discussed are in alphabetical order because there is no particular order for these principles. It has been the author's experience that good leaders need to understand and follow them all if they want to be effective. To be sure, we are all stronger in some areas than others, and you may find that because of these strengths, you are more comfortable with select ideas. That is a good thing. We should all look to maximize opportunities to display our strengths. DiNapoli challenges you to read those pages that cover skills where you are less comfortable. In addition to maximizing our strengths, we should all look for areas to stretch or capabilities and improve. DiNapoli says this as someone who, on occasion, has delayed focusing on improving specific skills outside of his comfort zone.*

*No one is an exception to life's curveballs. Things happen. Sometimes they're unavoidable. Sometimes they're the result of poor planning. But when Brian can't make it to work because the same relative died, for the third or fourth time, red flags go up. One employer has spent the past forty-five years observing workforce activity and collected its common trends and tactics for missing work. A company's human capital is an invaluable resource. Employers, middle managers, and business owners know that the lack of return on investment, or revenue loss, resulting from employee absenteeism is hard math; however, the more subjective factor of workforce morale is less calculable-but no less important. It can be difficult to decipher when an employee is playing hooky or telling the truth, but it is more important to be aware of the larger working environment as a potential cause for poor attendance. Whether hotel-housekeeper Bertha would rather play bingo than dress beds, or Butch would rather extend his stay in Las Vegas than make his shift at the sporting goods store, this list is an informative and hilarious reminder that human nature is perhaps the largest factor when strategizing ways to maintain a profitable workforce.*
