Model papers for competitive grammar school exams This book contains four 11 plus maths model papers reflecting competitive grammar school exams in the UK. These papers are popular among students who intend to go to top grammar schools such as the schools in Sutton, Bexley, etc.. These papers were prepared by a professional who works closely with a number of 11+ mock exams in London. Each paper contains 50 novel and challenging maths questions with answers. In total, there are 200 questions - answers are provided in the back of the book. Students are expected to finish each paper within 50 minutes. If a student can get around 38 to 45 correct answers for each paper the

student has a great chance of scoring a very good mark in school's selective eligibility exams. Why are these papers so expensive? These papers are prepared to challenge the students who are at borderline to go to top grammar schools. These papers contain challenging questions that you wouldn't find in any of the books/papers you may get from high street. These papers are unique and reflect the questions tested by popular and competitive grammar schools in recent years. Using these unseen papers at home and marking will immensely help and put your child on the edge compared to others. Exposing challenging questions like the questions in this paper set will avoid surprise to your child during the real exam. Brand NEW from Bond, a range of up-

approaching the 11+ Examination face
many challenges, including lack of time,
uncertainty over what is required, and an
ever-changing and secretive testing
environment. Plain "mathematics"
questions are progressively being
replaced with more demanding
"numerical reasoning" questions.

Selective schools are increasingly interested in not only rote recall of methods but also the ability to understand questions expressed in prose and skilfully apply (sometimes several) mathematical principles to arrive at an answer. The Eureka! 11+ Challenging Maths and Numerical Reasoning series of books to provide focused preparation for pupils and their busy parents.

Questions are expressed in words, with the pupils learning the habit of extracting the relevant numbers and key facts. Most questions are multi-part, reflecting the trend in examinations to challenge pupils skills at progressively higher levels as the question unfolds. These questions are the upper echelon of what is tested at 11+. Although they need only Key Stage 2 concepts, they are challenging because

they require good command of multiple skills simultaneously. Pupils, and perhaps even parents, will find very few of these questions to be very easy. Thankfully, the real exam will contain many easier questions, but preparation time is best spent on those which present greater challenges and therefore more learning opportunities. When answering the questions Set yourself a target, e.g. "3 questions in half an hour" Write down clearly your steps of working in full to make checking easier Go through the answers soon after doing the questions Do not be sad if you have made mistakes: learn from them Many questions cover areas where even strong pupils are prone to errors Watch out for the Traps described Incorporate the Tips into your methods in future See if the

Method suggested is quicker or less open to error than yours For any examination, diligent practice, carefully analysing errors, mulling over methods, and developing and testing your own preferred approaches pay enormous dividends.

Bond 11+ Mixed Standard Test Papers are realistic 11+ timed test papers, with full answers included. This new edition now contains an additional challenge paper with extra tricky questions across all four 11+ subjects: English, Maths, Non-verbal Reasoning and Verbal Reasoning. Each mock test paper enables children to simulate the test, developing critical exam techniques of following instructions, reading the question carefully and time management that will build confidence ahead of the test.

performance in these puzzles. The Non-
Verbal Ninja Training Course from
Eureka! Eleven Plus Exams is a three-
part series of training books with several
features to maximise the skill boost they
provide to students. Full explanations are***

given immediately after each block of questions Visual explanations are provided where these are easier to understand The early questions of each type are easy, testing only one or two rules Challenging, broad-ranging questions are soon introduced Each question teaches an additional skill or reinforces a core skill You are not told in advance exactly what the rule will be, so you build confidence in identifying the rule for yourself - a crucial skill for exam success The series of books, studied in sequence, covers the spectrum of types of format of questions and of the types of rule being tested. Some rules can be tested in many different settings. Dedicated practice and, more importantly, careful review of the explanations of questions that turned out to be difficult, is the key to success in Non-Verbal Reasoning.

Papers Practice is the key
to success. Pupils need
experience in deciding and
documenting their answers
efficiently. They need

total familiarity with the spectrum of multiple choice questions, and with the layout of question papers and response sheets. The Eureka! 11+ Confidence series of Exam Papers provides: Question papers laid out in modern, multiple-choice format Answer sheets laid out in modern format (in places requiring digit-by-digit entry) Full answers with explanations Supplementary books giving very detailed methods, tips and tricks on the more challenging aspects of Numerical Reasoning In supporting

your child's preparation for the exam: Do as much exam paper practice as possible. Variety helps retain attention. Cut out the multiple choice answer sheet and use it to record the answers. Maximizing authenticity now minimizes exam-day anxiety. Do these practice exams formally: seated alone, away from television and radio. Immediately afterwards, encourage the pupil to mark their own work. Insist on discussing the questions which were not answered correctly. Do not set aside any errors as

"silly mistakes." All mistakes are silly. The key to 11+ is attention to seemingly small details. Doing exam papers is a learning opportunity. Underline the importance of discovering how errors were made and how they may be prevented in future. Tips, tricks and (most of all) systematic approaches for avoiding the major traps at 11+ are given in the associated "Eureka! Challenging Maths and Numerical Reasoning Exam Questions for 11+" series of books. Thoughtful support from parents can

be crucial for pupils in the run-up to examinations. Use the Eureka! Practice Exam Papers and Numerical Reasoning training books to help them reach their full potential.
