This publication covers the special tax situations of active members of the U.S. Armed Forces. For federal tax purposes, the U.S. Armed Forces includes commissioned officers, warrant officers, and enlisted personnel in all regular and reserve units under control of the Secretaries of the Defense, Army, Navy, and Air Force. The U.S. Armed Forces also includes the Coast Guard. The Public Health Service and the National Oceanic and Atmospheric Administration can also receive many of the same tax benefits. The U.S. Armed Forces

doesn't include the U.S. Merchant Marine or the American Red Cross. Members serving in an area designated or treated as a combat zone are granted special tax benefits. In the event an area ceases to be a combat zone, the IRS will do its best to notify you. Many of the relief provisions will end at that time.

Every parent wants the best for their child. That's why they send them to college! But most parents struggle to pay for school and end up turning to student loans. That's why the majority of graduates walk away with \$35,000 in student loan debt and no clue what that debt will really cost them.¹ Student loan debt

doesn't open doors for young adults—it closes them. They postpone getting married and starting a family. That debt even takes away their freedom to pursue their dreams. But there is a different way. Going to college without student loans is possible! In Debt-Free Degree, Anthony O'Neal teaches parents how to get their child through school without debt, even if they haven't saved for it. He also shows parents:

- *How to prepare their child for college***
- *Which classes to take in high school***
- *How and when to take the ACT and SAT***
- *The right way to do college visits***
- *How to choose a major***

A college education is supposed to prepare a graduate

for their future, not rob them of their paycheck and freedom for decades. Debt-Free Degree shows parents how to pay cash for college and set their child up to succeed for life.

Is the end in sight for college tuition hikes?

Tuition and fees at public colleges and universities consistently have risen twice or even three times as fast as comparable increases in the Consumer Price Index in recent years. Since 2000 these costs have even grown 60 percent faster than health care costs. The results have been rapidly rising student debt (now \$1.4 trillion nationally), rising delinquencies in debt repayment, and a

dysfunctional stratification of public college student bodies on the basis of family incomes. This is a broken, unsustainable model for the majority of public colleges. Why has this occurred? The multiple causes include declining state support, the avaricious behavior of individual institutions, their reluctance to adopt productivity-increasing innovations, their cost-increasing competition for higher U.S. News ratings, and misdirected federal student financial aid policies. The key actors are the 50,000 members of the governing boards of public colleges, who too often forget that their primary responsibility is to citizens, taxpayers,

Where To Download 13 14 Paper Fafsa

and the 15 million students. Instead, board members are co-opted by clever administrators into approving tuition and fee increases well beyond what is needed to make up for declining state funding. Concerted, informed public pressure on governors, legislators, and board members is necessary to move institutions in more positive directions. Higher education funding and tuition and fee inflation are complicated matters that very few people understand well. The Impoverishment of the American College Student clarifies the central issues and provides plentiful data to support its key points. It is a must-read for anyone who

American leadership in the world is built on the foundation of its economic strength. Yet the United States

faces enormous economic competition abroad and threats to its economy at home. In *How America Stacks Up: Economic Competitiveness and U.S. Policy*, Edward Alden, Bernard L. Schwartz senior fellow at the Council on Foreign Relations and director of the Renewing America initiative, and Rebecca Strauss, associate director of Renewing America, focus on those areas of economic policy that are the most important for reinforcing America's competitive strengths. Covering education, transportation, trade and investment, corporate tax, worker retraining, regulation, debt and deficits, and innovation, *How America Stacks Up* shows how, in a highly

competitive global economy, these seemingly domestic issues are all crucial to U.S. success in the global economy. The line between domestic economic policy and foreign economic policy is now almost invisible, and getting these policies right matters for more than just U.S. living standards. The United States' ability to influence world events rests on a robust, competitive economy. But without further investment in education, infrastructure, and innovation, Alden and Strauss show, the United States runs the risk of endangering its greatest competitive advantage. Through insightful analysis and engaging graphics, *How America Stacks Up* outlines the challenges

private-sector policies hinges on the behavior of individuals, groups, and organizations. Today, such behaviors are better understood than ever, thanks to a growing body of practical behavioral science research. However, policymakers often are unaware of behavioral science findings that may help them craft and execute more effective and efficient policies. The pages of this new journal will become a meeting ground: a place where

Through on-the-ground reporting, conversations with university administrators and presidents, and accessible
