

150 English Prepositions

A guide for developing successful speakers, this book proposes a pedagogical approach to the prepositions of the English language. Designed for all levels of students for easy comprehension and quick learning, over 2000 examples of simple and complex (phrasal) prepositions and prepositional idioms help readers understand and create the intended message. By learning how to correctly link words to their specific meanings, students will be able to build fluency and accuracy while working with creativity and autonomy. Organized by function and subject, with over 400 prepositions, including more than 100 illustrations, this book helps students identify and use context cues through a variety of examples of real-world situations. Whether you are in the English classroom or out in the professional world, Prepositions: The Ultimate Book is an indispensable and comprehensive reference tool for all international learners seeking to communicate more effectively and naturally in the English language.

A Student Grammar of French is a concise introduction to French grammar, designed specifically for English-speaking undergraduates. Keeping technical detail to a minimum, it explains the fundamentals of the grammar in accessible and simple terms, and helps students to put their learning into practice through a range of fun and engaging exercises. All the essential topics are covered, with chapters on verbs, nouns, adjectives, pronouns, determiners, prepositions, adverbs, negation, numerals, sentences, and clauses. Every grammatical point is illustrated with a range of authentic examples drawn from magazines and newspapers, covering many areas of contemporary life such as fashion, health issues, relationships and sport. It is clearly organized into a user-friendly, numbered indexing system, allowing the learner to quickly and easily locate any grammatical topic. Functioning both as an indispensable reference guide and a comprehensive workbook, this grammar will become the perfect accompaniment to any first or second year undergraduate course.

The Guide includes 151 prepositions with all meanings, transcription, examples, schemes, quotes, standard expressions, idioms and phrases. The most common prepositions are grouped in their aim and purpose (a place, a direction and movement, time, etc.). The most popular combinations of prepositions to nouns, adjectives, participles and verbs, and also usual expressions and idioms are in addition considered. It is possible to find exercises which will help with practice in using prepositions in a various context. Some control tasks and tests with keys finish the

guide. Description 151 prepositions with transcription and all meanings, 50 illustrations, 200 standard expressions, 300 constructions, 150 phrasal verbs, 85 exercises, 150 control questions and over 900 examples. The guide is addressed to all those who begin or continue studying English.

Many grammatical issues of Archaic and Medieval Chinese still lack a comprehensive analysis. The book provides the first thorough investigation of the syntactic and semantic constraints of the linguistic categories tense and aspect and their relation with the lexical aspect of the verb in Han period Chinese.

The author uncovers fascinating details of a language with a highly restricted verbal morphology.

Oxford Modern English Grammar is Oxford's brand new and definitive guide to English grammar. This book has been written by a leading expert in the field, covers both British and American English, and makes use of authentic spoken and written examples. Arranged in four clear parts for ease of use, its comprehensive coverage ranges from the very basic to the most complex aspects of grammar, all of which are explained clearly yet authoritatively. This descriptive source of reference is invaluable for those with an interest in the English language, undergraduate and postgraduate students, and for anyone who would like a clear guide to English grammar and how it is used.

The Teacher's Grammar of English with Answers

This completely revised and expanded edition of English Prepositions Explained (EPE), originally published in 1998, covers approximately 100 simple, compound, and phrasal English prepositions of space and time - with the focus being on short prepositions such as at, by, in, and on. Its target readership includes teachers of ESOL, pre-service translators and interpreters, undergraduates in English linguistics programs, studious advanced learners and users of English, and anyone who is inquisitive about the English language. The overall aim is to explain how and why meaning changes when one preposition is swapped for another in the same context. While retaining most of the structure of the original, this edition says more about more prepositions. It includes many more figures - virtually all new. The exposition draws on recent research, and is substantially founded on evidence from digitalized corpora, including frequency data. EPE gives information and insights that will not be found in dictionaries and grammar handbooks.

This user-friendly guide to understanding and properly using English grammar is designed to augment the ability of busy engineering and science students to convey information in a precise manner. The book's sensible organization around the eight parts of speech, its accessible format, and the straightforward explanations of written American English also make it a highly suitable tool for ESL students. While the authors' intent is not to emphasize or overload readers with scientific jargon, he does include a rich collection of examples and illustrations that relate directly to engineering and science topics. Clear models and explanations, keyed to diagrams, tables, and flow charts, provide very effective visual elements.

The easy way to brush up on your English skills Is it good or well? There, their, or they're? Some people don't have to think twice about using proper English, but for the rest of us it can get tricky and confusing. Whether you're writing or speaking, it's all too easy to fall prey to simple mistakes that will represent you in a less-than-desirable light—which can potentially cost you a job or put you in an embarrassing social situation. Avoiding complicated grammar rules, Basic English For Dummies sticks to the basics and makes it easy to get up and running on what you need to know to partake in successful everyday communication, no matter your audience or medium. Inside, you'll find plenty of examples and exercises, guidance on how to structure sentences to make yourself easily understood, and so much more. In no time, you'll leave the 'me or I?' debate at the door and speak and write confidently and correctly. Plus, you'll expand your vocabulary, find the right tone and style you want to convey in your communication, and avoid common English language pitfalls. Includes quizzes and self-tests Provides guidance on composing letters, emails, texts, and phone calls Explains in plain English how to improve your English skills Gives you instruction and exercises on putting your skills to practice right away If English is your first language, but you missed or have forgotten the nuances that were taught in school, Basic English For Dummies is your go-to guide. It is also ideal for those learning English as a second language.

Winner of the Swedish National Language Council's Erik Wellander Prize, 2003 Swedish: A Comprehensive Grammar is an award-winning complete reference guide to modern Swedish grammar. Systematic and accessible, the volume is organised to promote a thorough understanding of Swedish grammar, presenting the complexities of Swedish in a concise and readable form. Explanations are full, clear and free of jargon, and an extensive index, numbered paragraphs, cross-references and summary charts provide readers with easy access to the information they require. Now in its third edition, the text has been comprehensively updated to conform to new standards set in the description of language and to reflect the recommendations of the Language Council of Sweden. It offers an improved layout, completely revised index and more user-friendly paragraph structure. Continuing the tradition of previous editions, the emphasis remains fixed on Swedish in everyday communication, drawing on modern corpus material, the internet and the media to provide high frequency words and expressions. Examples have been modernised

throughout and new content takes account of recent trends resulting from the increasing democratisation of written Swedish. Features include: detailed treatment of grammatical structures and parts of speech a wealth of examples from present-day Swedish particular attention to areas of confusion and difficulty for learners Swedish/English contrasts highlighted throughout the book chapters on word formation, orthography and punctuation. Swedish: A Comprehensive Grammar is the most thorough and detailed Swedish grammar available in English and is an essential reference source for the learner and user of Swedish, irrespective of level. It is ideal for use in schools, colleges, universities and adult classes of all types.

Using a cognitive linguistics perspective, this book provides a comprehensive, theoretical analysis of the semantics of English prepositions. All English prepositions originally coded spatial relations between two physical entities; while retaining their original meaning, prepositions have also developed a rich set of non-spatial meanings. In this study, Tyler and Evans argue that all these meanings are systematically grounded in the nature of human spatio-physical experience. The original 'spatial scenes' provide the foundation for the extension of meaning from the spatial to the more abstract. This analysis articulates an alternative methodology that distinguishes between a conventional meaning and an interpretation produced for understanding the preposition in context, as well as establishing which of several competing senses should be taken as the primary sense. Together, the methodology and framework are sufficiently articulated to generate testable predictions and allow the analysis to be applied to additional prepositions.

The book benefits researchers, advanced students, as well as practitioners interested in applications of ubiquitous computing. Features practical, tested applications in ubiquitous computing Includes applications such as health, business, education, electronics, tourism, and transportation Applicable to researchers, academics, students, and professionals

Preposition placement, the competition between preposition stranding (What is he talking about?) and pied-piping (About what is he talking?), is one of the most interesting areas of syntactic variation in English. This is the first book to investigate preposition placement across all types of clauses that license it, such as questions, exclamations and wh-clauses, and those which exhibit categorical stranding, such as non-wh relative clauses, comparatives, and passives. Drawing on over 100 authentic examples from both first-language (English) and second-language (Kenyan) data, it combines experimental and corpus-based approaches to provide a full grammatical account of preposition placement in both varieties of English. Although written within the usage-based construction grammar framework, the results are presented in theory-neutral terminology, making them accessible to researchers from all syntactic schools. This pioneering volume will be of interest not only to syntacticians, but also second-language researchers and those working on variation in English.

This book comprises a series of studies by a number of scholars working on what might broadly be termed the “ medieval ” period of the history of English, focusing on Old English, Middle English, and the relatively less well-documented period of transition from the former to the latter. The volume brings together contributions not only from a variety of fields, ranging from semantics and syntax to prosody and phonology, but also from different theoretical standpoints, in order to improve the reader ' s understanding of the rapid changes that affect the language at this time. The collection of papers here should be of interest to all scholars and students working on Old or Middle English, as well as to students of historical linguistics in general, given that many of the processes and methodological parameters described here will prove to be directly applicable to the study of other periods and of other languages.

Applications in Ubiquitous Computing

"The Teacher's grammar of English enables English language teachers and teachers-in-training to fully

understand and effectively teach English grammar. With comprehensive presentation of form, meaning, and usage, along with practical exercises and advice on teaching difficult structures, it is both a complete grammar course and an essential reference text."--Back cover.

This book provides an integrated account of the main prepositions of English, outlining their various forms and illustrating contrastive senses. It is written in a clear and accessible style, and will be of interest to students and scholars of the English language, including instructors of English as a second language.

Elizabeth M. O'Dowd offers a new, discourse-functional account of the categories "preposition" and "particle" in English. She explains why certain words have membership in both categories, and solves many intriguing puzzles long associated with the syntax and semantics of these words. Based on linguistic data extracted from a series of actual conversations, O'Dowd provides new insights into how prepositions and particles are used, and how their meanings can change across different discourse contexts over time.

150 Everyday Uses of English Prepositions. Book Two.

English is the dominant language of international business relations, and a good working knowledge of the language is essential for today's legal or business professional. Written with the needs of both practitioners and students in mind, Legal English provides a comprehensive and highly practical approach to its subject-matter and addresses the key aspects of the use of English in commercial legal contexts. Legal English covers the key areas of legal English usage for both written and oral legal communication in typical legal situations. It features expanded terminology glossaries, legal drafting troubleshooting tips, language for negotiation and contract-drafting guidance. This new fourth edition now offers more activities and examples, both in print and online, showing how language is correctly applied, as well as sample templates for commonly used written documents such as legal letters, memoranda, and contracts.
