The Real Pop Book - Volume 1

Outsider musicians can be the product of damaged DNA, alien abduction, drug fry, demonic possession, or simply sheer obliviousness. This book profiles dozens of outsider musicians, both prominent and obscure—figures such as The Shaggs, Syd Barrett, Tiny Tim, Jandek, Captain Beefheart, Daniel Johnston, Harry Partch, and The Legendary Stardust Cowboy—and presents their strange life stories

along with photographs, interviews, cartoons, and discographies. About the only things these self-taught artists have in common are an utter lack of conventional tunefulness and an overabundance of earnestness and passion. But, believe it or not, they're worth listening to, often outmatching all contenders for inventiveness and originality. A CD featuring songs by artists profiled in the book is also available.

A historical account of Giuseppe Ferrata's (1865-1928) life from his childhood in Italy through the difficult years as an unknown émigré musician in America to his final years as a leading figure in the cultural life of New Orleans. Sources include local newspapers, university archives, family scrapbooks, correspondence, and personal interviews with his son, Ernesto Ferrata. Moreover, this book offers an overview of Ferrata's compositional style with a brief examination of his major publications, such as the Messe solenne and the String Quartet in G Major. A catalog of Ferrata's published and unpublished compositions is included.

(Fake Book). An invaluable collection of over 250 of the best rock songs of all time, with nearly 70 new songs added for this spectacular 2nd Edition! For piano, voice, guitar and all C instruments, this fake book

Professor Litman's work stands out as well-researched, doctrinally solid, and always piercingly well-written.-JANE GINSBURG, Morton L. Janklow Professor of Literary and Artistic Property, Columbia University

Litman's work is distinctive in several respects: in her informed historical perspective on copyright law and its legislative policy; her remarkable ability to translate complicated copyright concepts

and their implications into plain English; her willingness to study, understand, and take seriously what ordinary people think copyright law means; and her creativity in formulating alternatives to the copyright quagmire. -PAMELA SAMUELSON, Professor of Law and Information Management; Director of the Berkeley Center for Law & Technology, University of California, Berkeley
In 1998, copyright lobbyists succeeded in persuading Congress to enact laws greatly expanding copyright owners' control over individuals' private uses of their works. The efforts to enforce these new rights have resulted in highly publicized legal battles between established media and new upstarts. In this enlightening and well-argued book, law professor Jessica Litman questions whether copyright laws crafted by lawyers and their lobbyists really make sense for the vast majority of us. Should every interaction between ordinary consumers and copyright-protected works be restricted by law? Is it practical to enforce such laws, or expect consumers to obey them? What are the effects of such laws on the exchange of information in a free society? Litman's critique exposes the 1998 copyright law

as an incoherent patchwork. She argues for reforms that reflect common sense and the way people actually behave in their daily digital interactions. This paperback edition includes an afterword that comments on recent developments, such as the end of the Napster story, the rise of peer-to-peer file sharing, the escalation of a full-fledged copyright war, the filing of lawsuits against thousands of individuals, and the June 2005 Supreme Court decision in the Grokster case. Jessica Litman (Ann Arbor, MI) is professor of law at Wayne State University and a widely recognized expert on copyright law.

A record of the darker races.

Émigré Pianist and Composer

The Illustrated London News

Music and Fantasy in the Age of Berlioz

By his early thirties, Paul Allen was a world-famous

billionaire—and that was just the beginning. In 2007 and 2008, Time named Paul Allen, the cofounder of Microsoft, one of the hundred most influential people in the world. Since he made his fortune, his impact has been felt in science, technology, business, medicine, sports, music, and philanthropy. His passion, curiosity, and intellectual rigor—combined with the resources to launch and support new initiatives—have literally changed the world. In 2009 Allen discovered that he had lymphoma, lending urgency to his desire to share his story for the first time. In this classic memoir, Allen explains how he has solved problems, what he's learned from his many endeavors—both the triumphs and the failures—and his compelling vision for the future. He reflects candidly on an extraordinary life. The book also features previously untold stories about everything from the true origins of Microsoft to Allen's role in the dawn of private space travel (with SpaceShipOne) and in discoveries at the frontiers of brain science. With honesty, humor, and insight, Allen tells the story of a life of ideas made real.

This guide is designed for musicians and music professionals who wish to hone their knowledge of the music business. It is intended as a practical tool to help composers, performers and all those involved in the music world get into the specifics of the management of their intellectual

property rights. The guide aims to provide instructive advice on how to build a successful career in music in both developed and developing countries, by generating income from musical talent.

"The Victorian cup on my shelf--a present from my mother--reads 'Love the Giver.' Is it because the very word patronage implies the authority of the father that we have treated American women patrons and activists so unlovingly in the writing of our own history? This pioneering collection of superb scholarship redresses that imbalance. At the same time it brilliantly documents the interrelationship between various aspects of gender and the creation of our own culture."--Judith Tick, author of *Ruth Crawford Seeger: A Composer's Search for American Music*

"Together with the fine-grained and energetic research, I like the spirit of this book, which is ambitious, bold, and generous minded. *Cultivating Music in America* corrects long-standing prejudices, omissions, and misunderstandings about the role of women in setting up the structures of America's

musical life, and, even more far-reaching, it sheds light on the character of American musical life itself. To read this book is to be brought to a fresh understanding of what is at stake when we discuss notions such as 'elitism, ' 'democratic taste, ' and the political and economic implications of art."--Richard Crawford, author of The American Musical Landscape "We all know we are indebted to royal patronage for the music of Mozart. But who launched American talent? The answer is women, this book teaches us. Music lovers will be grateful for these ten essays, sound in scholarship, that make a strong case for the women philanthropists who ought to join Carnegie and Rockefeller as household words as sponsors of music."--Karen J. Blair, author of The Torchbearers: Women and Their Amateur Arts Associations in America

Classic Rock Fake Book (Songbook)

Bryan Adams Anthology (Songbook)

The centrality of fantasy to French literary culture has long been accepted by critics, but the sonorous dimensions of the mode and its wider implications for musical production have gone largely unexplored. In this book, Francesca Brittan invites us to listen to fantasy, attending both to literary descriptions of sound in otherworldly narratives, and to the wave of 'fantastique' musical works published in France through the middle decades of the nineteenth century, including Berlioz's 1830 *Symphonie fantastique*, and pieces by Liszt, Adam, Meyerbeer, and others. Following the musico-literary aesthetics of E. T. A. Hoffmann, they allowed waking and dreaming, reality and unreality to converge, yoking fairy sound to insect song, demonic noise to colonial 'babbling', and divine music to the strains of water and wind. Fantastic soundworlds disrupted France's native tradition of marvellous illusion, replacing it with a magical materialism inextricable from republican activism, theological heterodoxy, and the advent of 'radical' romanticism.

Vols. for 1957-61 include an additional (mid-January) no. called Directory issue, 1st-5th ed. The 6th ed. was published as the Dec. 1961

issue.
