Being a son of a multi-millionaire and growing up in the Hollywood Golden Era, Robert Sterling had it all—the looks, the wealth, the freedom, and the attitude. The future seemed guaranteed and unquestionable until the life as he knew it began to crumble. At the age of 17, following a routine appendectomy in Burbank, California, Robert developed Panic Disorder and Agoraphobia. Fear became his new dictator, and after being omitted from his father's will, Robert's life began a rollercoaster ride evolution. This book is a diary of quest for survival and the true meaning of success.

Used Car Buying Guide 2007

When it comes to their personal transportation, today's youth have shunned the large, heavy performance cars of their parents' generation and instead embraced what has become known as the "sport compact"--smaller, lightweight, modern sports cars of predominantly Japanese manufacture. These cars respond well to performance modifications due to their light weight and technology-laden, high-revving engines. And by far, the most sought-after and modified cars are the Hondas and Acuras of the mid-'80s to the present. An extremely popular method of improving vehicle performance is a process known as engine swapping. Engine swapping consists of removing a more powerful engine from a better-equipped or more modern vehicle and installing it into your own. It is one of the most efficient and affordable methods of improving your vehicle's performance. This book covers in detail all the most popular performance swaps for Honda Civic, Accord, and Prelude as well as the Acura Integra. It includes vital information on electrics, fit, and drivetrain
