*Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the*

disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

On their remarkable journey across the North American continent, Meriwether Lewis and William Clark's "Corps of Discovery" traveled almost ten thousand miles, about nine thousand of them on rivers. With an expert's eye, Verne Huser tells us what it was like to mount and carry out such an expedition. 52 photographs, 4 line drawings, map.

But the armada lost some forty ships during the battle, suffering a defeat the magnitude of which would not be seen again until Pearl Harbor. Blame for the debacle was placed on Commo. Dudley Saltonstall, who was accused of cowardice and court-martialed."

An Encyclopedic Guide to the Voyage of Discovery

James Colnett, a veteran of James Cook's second voyage to North America, was an early participant in the maritime otter trade. Between 1786 and 1789 his two-vessel expedition traversed the Northwest Coast from Prince William to Vancouver Island and wintered on the Hawaiian Islands. Along the way, he and his crew had some remarkable encounters with Native peoples of the Northwest Coast and the Hawaiian Islands: they were the first Europeans to encounter the Tsimshian and the southern Heiltsuk peoples as well as the first to land on the southern Queen Charlotte Islands. Colnett's journal of this expedition is published here for the first time. Editor Robert Galois provides extensive annotations, along with an introductory essay addressing the geopolitical context of the voyage and the intellectual background that shaped the writing of the journal. Galois supplements Colnett's writings with extracts from a second journal -- also previously unpublished -- by Andrew Bracey Taylor, third mate on one of the ships under Colnett's command. Also included are illustrations from Colnett's journals and a variety of maps, both contemporary and historical. This fascinating and informative account offers a new understanding of the early European presence in the Northwest and of Native responses to these developments. It will interest historians, geographers, and ethnographers of the Northwest Coast and beyond.

Call the kids, grab the picnic basket, and load up the wagon for this colorful salute to the great American family hauler. The entire evolution of the station wagon is examined, from the "depot hacks" that shuttled passengers to their trains in the 1920s to today's popular SUVs and minivans. The emphasis, however, is decidedly on the fantastic classics that came into their own during the postwar boom of the 1950s and '60s, including the Chevrolet Nomad, Pontiac Safari, Studebaker Wagonaire, and Oldsmobile Vista Cruiser. Also included are beautiful woodys from several manufacturers and rare wagons from bygone manufacturers like Packard. The wonderful images in this nostalgic, one-of-a-kind history include period color photography, fascinating print advertisements, and exclusive modern color photographs of lovingly restored wagons.

A Drama of the American Workplace

This series of essays on Toni Morrison's first four novels--The Bluest Eye, Song of Solomon, Sula, and Tar Baby is the delightful, intelligent collaboration of a white of Greek descent (Demetrakopoulos) and a black American (Holloway). In addition to the influence of their respective backgrounds, Demetrakopoulos is particularly interested in women's studies and Jungian psychology, and Holloway in black studies and linguistics; these fields inform their individual contributions. . . . The clear writing is free of academic jargon and makes exceptionally good sense. Very highly recommended to academic libraries, especially for women's studies and black literature collections. Choice This first full-length study of the novels of Toni Morrison is a breakthrough in literary criticism, not only from the standpoint of feminist critique but as a biracial, bicultural dialogue on literary, social, and spiritual themes. Holloway, a specialist in Black studies and psycholinguistics, and Demetrakopoulos, whose academic interests include women's studies and Jungian psychology, weave their multidisciplinary interests and divergent experience into an integrated study of Toni Morrison's novels. The authors' introductory essays put Morrison's work in critical perspective and approach her literary vision in terms of its cultural, racial, and historical linkages and meanings. The novels are then considered chronologically by both authors, who each comment freely on the

interpretations and viewpoints of the other.

Featuring profiles and photos of over 170 passenger cars, minivans, and four-wheel drive vehicles available for 1999, this book includes the latest suggested retail and dealer-invoice prices for all models.
