Scandinavian Journal of Primary Health Care

Cordwood building—log-ends set in insulated mortar—is a versatile, economical, low-impact, and beautiful building method. Its durability and performance has been proven in beautiful, centuries-old buildings in North America and Europe. Yet until now, there has been no trusted, practical guide to cordwood construction using the material in a wide variety of construction projects. Distilling decades of experience and best practices, Essential Cordwood Building is the first fully illustrated, step-by-step guide to cordwood building. Ideal for the DIYer and professional designer and builder alike, it covers: Wood species selection, log-end length, and seasoning Cement, lime putty, and cob mortar options Wall cavity insulation options Budgeting and estimating Highly illustrated, step-by-step building techniques Window and door frame installation, pointing and chinking, finishing, and plastering Special designs and decorative features Code references, compliance, building science, and best practices Troubleshooting and maintenance Essential Cordwood Building is part of New Society’s Sustainable Building Essentials Series. Series editors Chris Magwood and Jen Feigin have scoured the world of sustainable building to bring you the techniques and systems that deliver measurable benefits in terms of greater efficiency and reduced environmental impacts. Written by the world’s leading sustainable builders, designers, and engineers, these succinct, user-friendly handbooks are indispensable tools for any project where high performance and low impact are key goals. Get the essentials! Rob Roy is widely recognized as a world leading authority on cordwood construction. He is Director of Earthwood Building School in West Chazy, New York, which teaches owner-builders how to build with cordwood masonry. Rob has authored and edited fifteen books, including Cordwood Building, Timber Framing for the Rest of Us, Earth-Sheltered Houses, and Stoneview.

THE WRITER’S MONTHLY

**"Becoming a designer takes a huge amount of time and education. With so many skills to learn, many people never get the chance to master the one skill that can give them a real advantage in business or academia: They never learn to write well." In Writing for the Design Mind author, designer and educator Natalia Ilyin offers clear, concise, and humorous writing tips, techniques and strategies to people who have spent their lives mastering design rather than learning to write. Ilyin's book helps designers approach writing in the same ways they approach designing - teaching skills and methods through encouragement, practical exercises and visual advice. Writing well is a skill, like any other, and with this book you can learn to do it with confidence. //Winner in the 50 Books | 50 Covers award 2019 from the AIGA//**
