

*World-renowned classical orchestras frequently perform concerts of game music to sold-out audiences. But what do such combinations of art and entertainment reveal about the cultural value we place on these media? Can classical music ever be video game music, and can game music ever be classical? Delving into the shifting and often contradictory cultural definitions that emerge when classical music meets video games, Unlimited Replays offers a new perspective on the possibilities and challenges of trying to distinguish between art and pop culture in contemporary society.*

*With a Haynes manual, you can do it yourself! From simple maintenance to basic repairs, Haynes writes every book based on a complete teardown of the vehicle. We learn the best ways to do a job and that makes it quicker, easier and cheaper for you. Our books have clear instructions and hundreds of photographs that show each step. Providing an overview of sugar-based technologies, this book is a valuable resource for chemists working to develop greener synthetic routes to chemicals and pharmaceuticals.

A powerful guide for seeking out the best acquisition and mergertargets As increasingly more companies look to mergers and acquisitions(M&As) as a source of new growth and revenue, there is an evengreater chance that these M&As will go bad. This insightfulguide focuses on one of the most often debated and key issues inmergers and acquisitions-why some deals fail miserably and whyothers prosper. It provides a complete road map for what potentialbuyers should look for when picking a target and whatcharacteristics of sellers they should steer clear of, as well aspitfalls to avoid during the M&A process. Real-world examplesare provided of high-profile failures-Quaker Oats, United Airlines,Sears, and Mattel-and high-profile successes-General Electric andCisco. Patrick A. Gaughan (New York, NY) is President of

EconomatrixResearch Associates and a professor of Economics and Finance at theCollege of Business, Fairleigh Dickinson University. He is activelyengaged in the practice of business valuations for mergers andacquisitions, as well as other related applications.

Author Trenton McGee, 4x4 suspension expert and host of Outdoor Channels Off-Road Adventures, explains 4x4 suspension systems in an easy-to-understand manner. He gets specific on types of suspensions available from all the major manufacturers including Jeep, Toyota, Ford, Chevy, and Dodge. He goes into a great level of detail on every different model, including early and modern model systems.

Models covered: all Jeep Grand Cherokee models 1993 through 2000.

The purpose of this publication is to provide the background rationale and support for WHO's working paper Dealing with uncertainty - how can the precautionary principle help protect the future of our children?, prepared for the Fourth Ministerial Conference on Environment and Health held in Budapest, Hungary, in June 2004. The debate around the precautionary principle has provided many insights into how to improve public health decision-making under conditions of uncertainty. This publication should further support approaches to attaining the concurrent goals of protecting adults, children and future generations and the ecosystems on which we depend and enhancing economic development, sustainability and innovation in science, research and policy. The Complete Guide to Off-Road and Overland Adventure Driving, Revised & Updated

*How a company 'positions' a brand is not necessarily how the consumer perceives that brand. Brands allow marketers to add meaning to products and services, but it is consumers who ultimately determine what a brand means. The sources of brand meaning are many and varied, as are the ways in which meanings become attached to brands. Brand Meaning takes a comprehensive and holistic look at how consumers find and create meaning in brands. It explores the fundamental conscious and unconscious elements that connect people with products and brands. Traditional marketing concepts are questioned, and a new brand meaning framework is put forward. The book lays out new and fertile territory for the understanding of how brands can both assimilate and provide meaning. It will leave readers with a better appreciation of what brand means and what brands mean. Primarily intended as a supplemental reader for undergraduate, graduate and MBA courses, the book's scope should also make it rewarding and valuable reading for practitioners in the fields of marketing and advertising.*
