This edition of  
North Korea: A  
Country Study  
replaces the

and treat in a concise manner the dominant social, political, economic, and military aspects of contemporary North Korea.

Sources of information included books, scholarly journals, foreign and

newspapers,

official reports of  
governments and

international

organizations,

and numerous

periodicals and

Web sites on

Korean and East

word of caution is

necessary,

however. Even though more information is forthcoming from and about North Korea since it became a member of the United Nations in 1991, the government of a closed society such as that of

North Korea  
controls  
information for  
internal and  
external  
consumption,  
limiting both the  
scope of  
coverage and its  
dissemination. A  
chronology of  
major historical  
events is

Chapter bibliographies appear at the end of the book, and brief comments on some of the more valuable and enduring sources recommended for

Spellings of place-

book are in most  
cases those  
approved by the  
U.S. Board on  
Geographic  
Names (BGN);

spellings of some of the names, however, cannot be verified, as the BGN itself notes. Readers of this book are alerted that because the BGN recognizes the Sea of Japan as the formal name of the body of water to the

east of the Korean Peninsula, this book also uses that term.. Similarly, the Yellow Sea is identified as the West Sea. The McCune-Reischauer system of transliteration has been employed except

for the names of some prominent national and historical figures. Thus, Kim Il-song is rendered as Kim Il Sung, and Kim Chong-il is rendered as Kim Jong Il. The names of Korean authors writing in English are

metric
