Every red-blooded motorcyclist dreams of making the Big Trip—this updated fifth edition shows them how. Choosing a bike, deciding on a destination, bike preparation, documentation and shipping, trans-continental route outlines across Africa, Asia and Latin America, and back-country riding in SW USA, NW Canada and Australia. Plus—first hand accounts of biking adventures worldwide. On May 19, 2010, the Royal Thai Army deployed tanks, snipers, and war weapons to disperse the thousands of Red Shirts protesters who had taken over the commercial center of Bangkok to demand democratic elections and an end to inequality. Key to this mobilization were motorcycle taxi drivers, who slowed down, filtered, and severed mobility in the area, claiming a prominent role in national politics and ownership over the city and challenging state hegemony. Four years later, on May 20, 2014, the same army general who directed the dispersal staged a military coup, unopposed by protesters. How could state power have been so fragile and open to challenge in 2010 and yet so seemingly sturdy only four years later? How could protesters who had once fearlessly resisted military attacks now remain silent? Owners of the Map provides answers to these questions—central to contemporary political mobilizations around the globe—through an ethnographic study of motorcycle taxi drivers in Bangkok. Claudio Soprancetti explores the unresolved tensions in the drivers' everyday lives, their migration trajectories, consumer desires, and political demands amidst the restructuring of Thai capitalism after the 1997 economic crisis. Reconstructing the entanglements between their everyday mobility and political mobilization, Soprancetti reveals mobility not just as a strength of contemporary capitalism but also as one of its fragile spots, always prone to disruption by the people who sustain its channels but remain excluded from their benefits. In so doing, Owners of the Map advances an analysis of power that focuses not on the sturdiness of hegemony or the ubiquity of everyday resistance but on its potential fragility as well as the work needed for its maintenance.

Modern Tort Law is a comprehensive, accessible and up-to-date introduction to the law of torts. Now in its seventh edition, Vivienne Hartwood's popular, student-friendly text explains the principles of all aspects of tort law in a lively and thought-provoking manner. The broad coverage of modern tort law makes this an ideal textbook for any undergraduate tort law course. Students are encouraged to understand and apply the principles of tort law effectively throughout and particular attention is paid to the context within which the law is evolving, making these topics both accessible and enjoyable. This seventh edition has been revised and updated to take into account developments since publication of the previous edition including in the areas of privacy, negligence, personal injury and defamation. Human Rights issues are integrated throughout the text rather than treating the topic in isolation, in line with the way the subject is commonly taught. Now more accessible and student-friendly, it includes: advice on further reading at the end of each chapter which is intended to point students towards sources of further study and critical debate new chapter introductions, rewritten to reflect learning outcomes. Modern Tort Law is now supported by a Companion Website which offers lecturer resources available to adopters of the book, including 'think points' designed to encourage reflection and debate and PowerPoint diagrams and flowcharts contained within the text. A dedicated student section also offers weblinks, a guide to key Tort law cases, a flashcard glossary and a test bank of multiple choice questions.

Larry Grodsky devoted his life to motorcycle safety. Through the riding courses he taught and his "Stayin' Safe" columns in Rider magazine (from 1988 until his untimely death in 2006), he helped thousands of motorcyclists improve their skills and their ability to ride really well. This collection of Grodsky's columns reveals his ability to illuminate complex and sometimes highly technical subjects with an entertaining and personal style, spiced with his trademark wry wit and keen observations of human behavior. A master teacher, Grodsky was constantly learning from his students, always striving to find the best way to lead riders towards the mastery of their two-wheeled vehicles. Many of his columns focus on helping riders develop specific skills (complete with practice exercises), while others deal with the riding environment and riders' mental processes. Although it is packed with information useful to both novice and experienced motorcyclists, this book is not structured as a how-to guide to motorcycle proficiency. Rather, it is a collection of thoughtful essays to be read and savored individually. Readers will be rewarded by the beautifully written stories of a great motorcycle riding instructor who has left his mark on a generation of grateful riders.

Material from Classical Music (Eyewitness Companion) with updates. This book is a guide to every aspect of the long and ongoing story of Western classical music. It reveals in a stimulating and lively way the exceptionally gifted individuals who have shaped the musical landscape over a millennia, from the chanting monks of the middle ages to the bold exponents of minimalism of the last 100 years. Personal and creative profiles of composers, both major and minor, form the heart of the book and offer rich insights into the qualities of their music and an ideal introduction to the range and diversity of the Classical repertoire.

Robert M. Grant combines a highly accessible writing style with a concentration on the fundamentals of value creation and an emphasis on practicality in this leading strategy text. In this new edition, he includes an even greater focus on strategy implementation that reflects the needs of firms to reconcile scale economies with entrepreneurial flexibility, innovation with cost efficiency, and globalization with local responsiveness. This edition also incorporates some of the key strategic issues of today including: post-financial crisis adjustment, the continuing rise of China, India and Brazil, and the increased emphasis on ethics and sustainability. Coverage is also provided on strategy in not-for-profit organizations. Contemporary Strategy Analysis, 8th Edition, is suitable for both MBA and advanced undergraduate students. It has been adopted by leading business schools all across the world.

A potentially troubling aspect of modern vehicle design – some would argue – is a trend towards isolating the driver and reducing vehicle feedback, usually in the name of comfort and refinement but increasingly because of automation. There can be little doubt cars have become more civilised over the years yet, despite this, the consequences on driver behaviour remain to a large extent anecdotal. Readers of this book will have heard such anecdotes for themselves. They usually take the form of drivers of a certain age recalling their first cars from the 1970's or 80's, in which "doing 70mph really felt like it". The question is whether such anecdotes actually reflect a bigger, more significant issue that could be better understood? Related questions have been explored in other domains such as aviation, where the change to "fly-by-wire", for example, did indeed bring about some occasionally serious performance issues which were not anticipated. Despite some clear parallels automotive systems have been left relatively unexamined. The research described in this monograph aims to explore precisely these issues from a Human Factors perspective.

Evolution or revolution ... this was the dilemma Honda faced in creating the new fifth generation Gold Wing. Consumers were happy with the near-perfect GL1500 Gold Wing, but sales were declining and owners ageing.In 1996 Honda's designers and engineers decided the only way forward for the Gold Wing was a revolutionary approach. Given a brief by management to incorporate more 'Fun Factor' and make a large luxury touring motorcycle perform like a sports orientated machine, their target market was the younger rider.The GL1800 Gold Wing launched as a 2001 model and was updated in 2006 with the world's first and only motorcycle airbag system. Surviving a production return to Japan it had a second face-lift for 2012 and from that, two other variants emerged, a 'Bagger' and 'Power Cruiser', the F6B and Valkyrie/F6C.The GL1800 was destined to become the longest running Gold Wing series, but over its 17 years of production Honda faced stiff competition.Peter Rakestrow examines the GL1800's history from 1996 to the end of production in 2017, looking at model improvements through the years of this legendary marque, creating a point of reference for owners, buyers and restorers alike.

The standard mode of transportation for decades in Europe, motor scooter was a cult "fun" vehicle in the USA until the past two years. With oil prices soaring and the 20-to-40 set looking for alternative means of commuter (and weekend cruising) travel, motor scooter have exploded across the United States. In 2001, less than 30,000 scooters cruised U.S. roadways. In 2005, over 100,000 are road-bound, and the number is growing by double digits each year. Beginning at \$1,000 and ranging up over \$5,000, dozens of models of scooters are available, as are thousands of accessories. And scooter clubs meet from San Diego to Bangor, Maine. Every year, the largest gathering of motor scooters takes place in Indianapolis, speed capital of the world. The Complete Idiot's Guide to Motor Scootersis the perfect introduction to the wonderful world of motor scooting.

An insider's view of how the cruising business operates Selling the Sea offers a complete picture of the cruise line industry along with step-by-step coverage of how to effectively market the cruising experience. This updated Second Edition features new coverage of how technology has impacted the industry, new niche markets in cruising, and expanded material on shipbuilding and design. It also includes insightful interviews with today's captains, social directors, food and beverage managers, and cruise line executives who have hands-on experience at the day-to-day workings of a cruise ship.

This casebook demonstrates that the future of global business lies in how well the multinational landscape is charted and how the importance of Asian market leaders is deeply embedded in it. It offers international management students and researchers an extensive guide to the business history, strategy development, and foreign market entry modes used by emerging Asian multinationals. The cases focus on well-known companies such as Lenovo, Alibaba, Infays, Huawei, Panasonic, and Rakuten. These companies, all of which generate huge revenues in their own countries (e.g. in China, India, South Korea, Taiwan, Vietnam), are now becoming increasingly sophisticated and striving to become global brands, while also enjoying the active support of their governments in terms of their international business. Readers will learn about the current multinational landscape in Asia, the management challenges, and the future implications for traditional western companies seeking to retain their market share. Chapters on corporate entrepreneurship, human resource management and intercultural competence, and current branding trends in Asia will provide a cutting-edge update on international business strategy for students and practitioners alike.

This richly illustrated book explores the fascinating and ubiquitous occurrence of spirals and vortices in human culture and in nature. Spiral forms have been used as elements in the arts for thousands of years, whereas their role in nature and science – from DNA and sea shells to galaxies – is still a topic of investigation in numerous fields. Cultural history of spiral forms, the book presents contributions from leading experts, who describe the origins, mechanisms and dynamics of spirals and vortices in their special fields. As a whole the book provides a valuable source of information, while also taking the reader on an aesthetic and scientific journey through the world of spirals. In the aftermath of a federal judge's murder, homicide inspector Devin Juhle discovers that the victim had powerful enemies, a mistress, and unsettling ties to a woman with whom Devin's best friend, private investigator Wyatt Hunt, has fallen in love. Analysis of political advertising tends to give music short shrift—which flies in the face of what we know about the power of music to set a mood, affect feelings, and influence our perceptions. This book is the first to offer a detailed exploration of the role of music in US presidential campaign advertising, from Eisenhower to the present,

Isn't simply one element in the presentation of an ad's message--it's the dominant factor, more important than images, words, or narration.

What a Man's Gotta Do

Listening to Western Music

The Assyrian chronology of the first millennium BCE is well established, especially for the period 912-609 BCE, but it is difficult to determine whether there were overlapping reigns due to possible co-regencies. Assyriologists have assumed that there were no co-regencies among the Assyrian reigns. Based on this assumption, Edwin R. Thiele, in his thesis published in 1951, established a chronology of the Hebrew kings, relying on the numerous synchronisms with the Assyrian kings, but several of the required synchronisms exhibited gaps ranging from 10 to 45 years. He solved this problem by assuming the existence of nine co-regencies among the Hebrew reigns. Despite this choice, which destroys the chronological coherence of the Hebrew reigns, Thiele's chronology still serves as a reference for scholars. However, a careful examination of these synchronisms shows that there were several co-regencies between the Assyrian reigns, which they have been correctly dated in the biblical chronology, such as those of Sennacherib and Tiglath-Pileser III. These kings played a crucial role in Israel's history during their co-regencies, such as Sennacherib's campaign in Judah (his 3rd) with the siege of Lachish and Jerusalem, which took place in 712 BCE during the 10th campaign of Sargon II (722-705)

with whom he was co-regent (715-705). This agrees exactly with the biblical account stating that all these events occurred during the 14th year of Judean King Hezekiah (726-697) also dated 712 BCE. Similarly, the Israelite king Menahem (771-760) had to pay a tribute (in 765 BCE) to an Assyrian king Pul (2Ki 15:19-20). The Assyrian word pulu, from apil/aplu, means "the heir (i.e., crown prince)". King Pul(asi) reigned 36 years, according to Josephus (Jewish Antiquities IX: 283-287), which corresponds exactly to the Assyrian king Pulu (co-regent) known by his Aramaic name Bar-Ga'yah "Son of the Majesty" who reigned from 782 to 746 BCE.

Best in Show is a collection of photographs of well-groomed and award-winning dogs by New York City-based photographer Dolly Faibyshev. The images from the Westminster Kennel Club Dog Show and beyond focus on the unique—and often humorous—relationship between each dog and their handler. Dolly Faibyshev focuses on kitsch, irony, and the larger than life human and canine characters that make up Best in Show. The result is a colorful, vibrant, campy, and satirical take on this specific slice of Americana. • The colorful, closely cropped juxtapositions of each coiffed canine constant and their dedicated human are both humorous and charming. • Sure to delight fans of all breeds of dogs • A universal and ideal book for all canine lovers with a sense of humor Best in Show captures a specific subculture of dog devotees primarily from the infamous Westminster Kennel Club Dog Show at Madison Square Garden in New York. • A perfect book for anyone who is completely and totally obsessed with dogs and the Westminster Kennel Club Dog Show • Photographers and contemporary art lovers will also love this celebration of Dolly Faibyshev's work • Great for fans of The Dogist: Photographic Encounters with 1,000 Dogs by Elias Weiss Friedman, Dogs by Lewis Blackwell and Tim Flach, and Underwater Dogs by Seth Castiel

Foundations of Strategy, Canadian Edition is a concise text aimed at both undergraduate and MBA students. With the needs of these students in mind, the authors made sure that the text was written in an accessible style, with a clear, comprehensive approach and sound theoretical depth. An excellent set of current and in-depth Canadian and global cases will show students how to apply the strategy concepts in real-world scenarios.

Today's strategy modules are delivered in a wide variety of different formats to a wide range of audiences. Instructors frequently find themselves faced with the challenge of delivering their modules in relatively short time frames to students groups with very diverse educational and employment backgrounds. This text is designed to assist instructors in meeting this challenge by covering the core aspects of strategy as concisely as possible without losing academic depth.

This book addresses key questions about the materials used for the wind instruments of classical symphony orchestra such as flutes, clarinets, saxophones, oboes, bassoons and pipe organs. The content of this book is structured into four parts. Part 1- Description of materials for wind instruments deals with wood species and materials for reeds used for making clarinet, oboe and bassoon- and, with metallic materials and alloys for - horn, trumpet, trombone, etc. Auxiliary materials associated with the manufacturing of wind instruments are felt, cork, leather and parchment. Part 2- Basic acoustics of wind instruments, in which are presented succinctly, some pertinent aspects related to the physics of the resonant air column. An important aspect discussed is related to the effect of wall material on the vibration modes of the walls of wind instruments. The methods for measuring the acoustical properties of wind instruments are presented. Part 3- Manufacturing of wind instruments, describes the technology used in manufacturing metallic tubes and pipes made of wood. Part 4 - The durability and degradation of materials addresses data about methods for cleaning wind instruments, studies factors producing degradation of organ pipes, describes methods of conservation and restoration of brass instruments and of historical pipe organs. Finally, the properties of marble are described, being the only nondegradable and sustainable material used for pipes for organs.

Mai come nell'ultimo periodo il mercato delle quattro e delle due ruote è stato tanto in fermento da determinare una vera e propria metamorfosi delle reti distributive. Calo vertiginoso della domanda, inasprimento della concorrenza, aumento degli standard quantitativi e qualitativi richiesti dalle Case produttrici, maggiore ricorso a fonti di finanziamento esterne, diminuzione della redditività, sono solo alcuni dei tanti nuovi mostri sperimentalati da chi vende e ripara auto e moto. Questa evoluzione rende necessaria la conoscenza di tecniche di gestione tipiche di un settore in cui la passione non può più pilotare il destino delle aziende. Questo primo manuale di Dealership Management italiano, dedicato al settore automotive, spiega a fondo tutti gli aspetti del mercato e dell'organizzazione aziendale. Attraverso esempi concreti e dalla viva voce dei top manager delle più importanti Case italiane di auto e moto, offre importanti soluzioni a molti dei problemi emersi negli ultimi anni e le mosse per anticipare la ripresa. La prefazione del libro è un'intervista a Giuseppe Volpato (professore ordinario di Economia e gestione delle imprese presso l'Università Ca' Foscari di Venezia, membro dello Steering Committee del Groupe d'Étude et Recherche Permanent dans l'Industrie et les Salariés de l'Automobile di Parigi e Senior Adviser dell'International Car Distribution Programme di Birmingham), che ci aiuta a decifrare con rigore scientifico l'evoluzione in atto nel business model della distribuzione automotive.

In Kenya, cultural and natural heritage has a particular value. Its pre-historic heritage not only tells the story of man's origin and evolution but has also contributed to the understanding of the earth's history: fossils and artefacts spanning over 27 million years have been discovered and conserved by the National Museums of Kenya (NMK). Alongside this, the steady rise in the market value of African art has also affected Kenya. Demand for African tribal art has surpassed that for antiquities of Roman, Byzantine, and Egyptian origin, and in African countries currently experiencing conflicts, this activity invariably attracts booters, traffickers and criminal networks. This book brings together essays by heritage experts from different backgrounds, including conservation, heritage management, museum studies, archaeology, environment and social sciences, architecture and landscape, geography, philosophy and economics to explore three key themes: the underlying ethics, practices and legal issues of heritage conservation; the exploration of architectural and urban heritage of Nairobi; and the natural heritage, landscapes and sacred sites in relation to local Kenyan communities and tourism. It thus provides an overview of conservation practices in Kenya from 2000 to 2015 and highlights the role of natural and cultural heritage as a key factor of social-economic development, and as a potential instrument for conflict resolution

La 4e de couverture indique : "Although images of women in the mass media have been widely discussed in recent years, there is no equivalent analysis of men. Once again masculinity seems to have succeeded in passing itself off as universal and invisible. In this book, Antony Easthope argues that, far from being universal, the main tradition of masculinity in the West is both specific and peculiar. What is masculinity? Drawing up psychoanalysis and an understanding of ideology, Easthope shows how the masculine will forces men to try to be masculine and only masculine, denying their feminine side. In an original contribution to the understanding of gender he analyzes masculinity as it is represented in a wide range of mass media—films, television, newspapers, pop music, and pulp novels. Why are two men in a John Wayne western more concerned with each other than with the women in their lives? Is aggressive male banter a sign that men hate or love each other? Why does a jealous man always have to see his rival? Written in lively, witty, and accessible style, this book is certain to become controversial but essential reading for a wide range of courses in popular culture, mass media, and cultural studies, as well as those in film study, literature, and sociology
