Winner of the 1921 Pulitzer Prize, *The Age of Innocence* is an elegant, masterful portrait of desire and betrayal in old New York—now with a new introduction from acclaimed author Colm Tóibín for the novel’s centennial. With vivid power, Wharton evokes a time of gaslit streets, formal dances held in the ballrooms of stately brownstones, and society people “who dreaded scandal more than disease.” This is Newland Archer’s world as he prepares to marry the docile May Welland. Then, suddenly, the mysterious, intensely nonconformist Countess Ellen Olenska returns to New York after a long absence, turning Archer’s world upside down. This classic Wharton tale of thwarted love is an exuberantly comic and profoundly moving look at the passions of the human heart, as well as a literary achievement of the highest order.

Young Tristran Thorn will do anything to win the cold heart of beautiful Victoria—even fetch her the star they watch fall from the night sky. But to do so, he must enter the unexplored lands on the other side of the ancient wall that gives their tiny village its name. Beyond that old stone wall, Tristran learns, lies Faerie—where nothing, not even a fallen star, is what he imagined. From #1 New York Times bestselling author Neil Gaiman comes a remarkable quest into the dark and miraculous—in pursuit of love and the utterly impossible.

This Open Access book tracks the latest trends in the theory, research, and practice of entertainment-education, the field of communication that incorporates social change messaging into entertaining media. Sometimes called edutainment, social impact television, narrative persuasion, or cultural strategy, this approach to social and behavior change communication offers new opportunities including transmedia and digital formats.

However, making media can be a chaotic process. The realities of working in the field and the rigid structures of scholarly evaluation often act as barriers to honest accounts of entertainment-education practice. In this

collection of essays, experienced practitioners offer unique insight into how entertainment-education works and present a balanced view of its potential pitfalls. This book gives readers an opportunity to learn from the

successes and mistakes of the experts, taking a behind-the-scenes look at the business of making entertainment-education media.

From the bestselling author of the acclaimed Chaos and Genius comes a thoughtful and provocative exploration of the big ideas of the modern era: Information, communication, and information theory. Acclaimed science

writer James Gleick presents an eye-opening vision of how our relationship to information has transformed the very nature of human consciousness. A fascinating intellectual journey through the history of communication

and information, from the language of Africa’s talking drums to the invention of written alphabets; from the electronic transmission of code to the origins of information theory, into the new information age and the current

deluge of news, tweets, images, and blogs. Along the way, Gleick profiles key innovators, including Charles Babbage, Ada Lovelace, Samuel Morse, and Claude Shannon, and reveals how our understanding of information is

transforming not only how we look at the world, but how we live. A New York Times Notable Book A Los Angeles Times and Cleveland Plain Dealer Best Book of the Year Winner of the PEN/E. O. Wilson Literary Science

The Book of the Cat

This book is a compilation of the best tips submitted by readers of the Trailer Life magazine column "10-Minute Tech." These RVers have discovered simple, quick ways to solve small onboard problems; get things to run smoother, quieter, and better; personalize an RV with changes and upgrades; and make life on the road easier.

A runaway train is racing toward five men who are tied to the track. Unless the train is stopped, it will inevitably kill all five men. You are standing on a footbridge looking down on the unfolding disaster. However, a fat man, a stranger, is standing next to you: if you push him off the bridge, he will topple onto the line and, although he will die, his chunky body will stop the train, saving five lives. Would you kill the fat man? The question may seem bizarre. But it's one variation of a puzzle that has baffled moral philosophers for

almost half a century and that more recently has come to preoccupy neuroscientists, psychologists, and other thinkers as well. In this book, David Edmonds, coauthor of the best-selling Wittgenstein’s Poker, tells the riveting story of why and how philosophers have

struggled with this ethical dilemma, sometimes called the trolley problem. In the process, he provides an entertaining and informative tour through the history of moral philosophy. Most people feel it's wrong to kill the fat man. But why? After all, in taking one life

you could save five. As Edmonds shows, answering the question is far more complex--and important--than it first appears. In fact, how we answer it tells us a great deal about right and wrong.

A supplemental textbook for middle and high school students, Hoosiers and the American Story provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America’s westward expansion. As waves of

immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana’s stories illuminate the

history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare

initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the

stories shed light on what it means to be a Hoosier, today and in the past.

Containing close to 3,000 words and definitions, Dictionary of Artifacts is an indispensable reference for anyone working within the field of archaeology. Entries detail artifact’s

classification and typology; raw materials; methods and techniques of creation; principles and techniques of examination and identification; and instructions for the care and preservation of

specimens. Along with a headword and definition, pronunciations, synonyms, cross-references, and the category/categories also accompany each entry Drawings, photographs, and extensive

annotated bibliography are included for more complete comprehension

With more than 250 images, new information on international cinema—especially Polish, Chinese, Russian, Canadian, and Iranian filmmakers—an expanded section on African-American filmmakers,

updated discussions of new works by major American directors, and a new section on the rise of comic book movies and computer generated special effects, this is the most up to date resource

for film history courses in the twenty-first century.

The Rose-Garden Husband

The Age of Innocence

The great trees in Shenstone Park stood gaunt and bare, spreading wide arms over the sodden grass. All nature seemed waiting the first fall of winter's snow, which should hide its deadness and decay under a lovely pall of sparkling white, beneath which a promise of fresh life to come might gently move and stir; and, eventually, spring forth. The Mistress of Shenstone moved slowly up and down the terrace, wrapped in her long cloak, listening to the soft “drip, drip” of autumn all around; noting the silent fall of the last dead leaves; the steely grey of the lake beyond; the empty flower-garden; the deserted lawn. The large stone house had a desolate appearance, most of the rooms being, evidently, closed; but, in one or two, cheerful log-fires blazed, casting a ruddy glow upon the window-panes, and sending forth a tempting promise of warmth and cosiness within. A tiny white toy-poodle walked the terrace with his mistress—an agitated little bundle of white curls; sometimes running round and round her; then hurrying on before, or dropping behind, only to rush on, in unexpected haste, at the corners; almost tripping her up, as she turned. “Peter,” said Lady Ingleby, on one of these occasions, “I do wish you would behave in a more rational manner! Either come to heel and follow sedately, as a dog of your age should do; or trot on in front, in the gaily juvenile manner you assume when Michael takes you out for a walk; but, for goodness sake, don't be so fidgety; and don't run round and round me in this bewildering way, or I shall call for William, and send you in. I only wish Michael could see you!” The little animal looked up at her, pathetically, through his tumbled curls—a soft silky mass, which had earned for him his name of Shockheaded Peter. His eyes, red-rimmed from the cold wind, had that unseeing look, often noticeable in a very old dog. Yet there was in them, and in the whole pose of his tiny body, an anguish of anxiety, which could not have escaped a genuine dog-lover. Even Lady Ingleby became partially aware of it. She stooped and patted his head. “Poor little Peter,” she said, more kindly. “It is horrid, for us both, having Michael so far away at this tiresome war. But he will come home before long; and we shall forget all the anxiety and loneliness. It will be spring again. Michael will have you properly clipped, and we will go to Brighton, where you enjoy trotting about, and hearing people call you ‘The British Lion.’ I verily believe you consider yourself the size of the lions in Trafalgar Square! I cannot imagine why a great big man, such as Michael, is so devoted to a tiny scrap of a dog, such as you! Now, if you were a Great Dane, or a mighty St. Bernard—! However, Michael loves us both, and we both love Michael: so we must be nice to each other, little Peter, while he is away.”

Whether you're a first-time reader of the novel or someone returning to an old childhood favorite, you'll love the optimism and charm that Rebecca of Sunnybrook Farm epitomizes. Faced with a seemingly insurmountable array of trials and tribulations, the endlessly cheery title character confronts them all -- and ultimately triumphs -- with nothing more than a smile and relentless good will. Introduce it to a special child in your life, or re-read it whenever you need an uplifting dose of perspective.

Invading the Middle East

Recent research has demonstrated that, in the Roman, Late Antique, Early Islamic and Medieval worlds, glass was traded over long distances, from the Eastern Mediterranean, mainly Egypt and Israel, to Northern Africa, the Western Mediterranean and Northern Europe. Things that Travelled, a collaboration between the UCL Early Glass Technology Research Network, the Association for the History of Glass and the British Museum, aims to build on this knowledge. Covering all aspects of glass production, technology, distribution and trade in Roman, Byzantine and Early Medieval/Early Islamic times, including studies from Britain, Egypt, Cyprus, Italy and many others, the volume combines the strengths of the sciences and cultural studies to offer a new approach to research on ancient glass. By bringing together such a varied mix of contributors, specialising in a range of geographical areas and chronological time frames, this volume also offers a valuable contribution to broader discussions on glass within political, economic, cultural and historical arenas.
