*The only practical resource to focus solely on health issues specific to men. Written by and for APRNs and PAs in the primary care setting, this is the first clinical reference to focus solely on managing health concerns that are specific to men. Filling a significant gap in knowledge about this patient group, the user-friendly reference delivers evidence-based guidelines for the day-to-day management of male patients. Designed for ease of use and quick access to information, the resource is divided into three sections: general men's health, overview of special issues in men's health, and urology and preventive cardiology. In addition to addressing the full gamut of urological and cardiac issues, the book discusses the*

economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide.
