Earth Day celebrates our beautiful planet and calls us to act on its behalf. Some people spend the day planting flowers or trees. Others organize neighborhood clean-ups, go on nature walks, or make recycled crafts. Readers will discover how a shared holiday can have multiple traditions and be celebrated in all sorts of ways.

Derrick Hollis is a 7th grader at Zachary Taylor Middle School and an aspiring cartoonist, too shy to show his work to anybody but his best friend Doug. When his dog Max dies, Derrick is left devastated. But then Max returns from the other side and starts to give Derrick advice.

Derrick could use it, especially when it comes to affairs of the heart and standing up to bullies. When Derrick is too scared to ask his crush Kim to the Spring Fling, Max tells Derrick to "dog up!" and shake his tail on the dance floor. Will Dead Max be good for Derrick or lead him astray?

Mindefusement has been a passion project for me since 2016 when I wrote the first concept. I quickly realized this could become a book. I decided to do a short-story format for the book that interweaves the characters and the company behind it all, Mindefusement. Mindefusement is a secretive company that specializes in treating those with morbid fantasies and allowing them to visualize these fantasies in the form of a short film. Fantasies are called torture templates, and each client brings some morbid fantasy to life during the film production process. The book

Mindfusement contains the inner workings of the company and dives deeper into the client's various fantasies. Such cases could be torture, mutilation, murder, and a host of incredibly graphic and taboo topics. As a result, this book is intended for a mature audience. Mindfusement, the company, has its own internal problems, and these are highlighted in the book and provide a major plot point.

numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz -- rich cars, poor quality. There's only one Saturn you should buy. Toyota -- enough apologies: "when you mess up, 'fess up."

It was a runaway success, outselling every European sports car model in the lucrative North American market. The 280Z arrived in 1975 followed by the 280ZX in 1978 and sales of the 280ZX had reached over 446,000 units by the time production came to an end in 1983. 44 international articles include road, track and comparison tests, a service guide plus full technical and performance data.*

Yet there are also some problems, and these raise some questions. For instance, if longer levers and more cells really are behind increased risk of injuries and cancer, then how is it that giraffes get by? And why is it that society reveres tall stature but then compromises our safety with cramped cars and other things? And, as tall women might be pondering, where have all the tall, dark, and handsome men gone? Lastly, what can be done about all this? These questions and more will all be answered by a tall protagonist over eight chapters: Evolution, Scaling, Spine, Manufactured,**

***The evolution of the automotive transmission has changed rapidly in the last decade, partly due to the advantages of highly sophisticated electronic controls. This evolution has resulted in modern automatic transmissions that offer more control, stability, and convenience to the driver. Electronic Transmission Controls contains 68 technical papers from SAE and other international organizations written since 1995 on this rapidly growing area of automotive electronics. This book breaks down the topic into two sections. The section on Stepped Transmissions covers recent developments in regular and 4-wheel drive transmissions from major auto***

The Triumph 350cc and 500cc unit-construction twins were called the 'C' Series, and were made between 1957 and 1974. The range started with the 350cc 'Twenty-one' - a sedate touring bike with full enclosure in the form of the famous Triumph 'Bathtub' - went through such famous names as the Speed Twin, Tiger 100 and Trophy, and ended with the rip-roaring Daytona and the off-road Adventurer. This book deals with the whole range, giving the history of all the models, and also describes the restoration of a 1969 Trophy T100C.
