

2013 Lighthouses Landmark Wall Calendar

As his ship rounded the high point off Point Loma, San Diego, in 1859, Richard Henry Dana wrote, "We were greeted by the cheering presence of a light-house." In reality, beams from San Diego's first lighthouse were repeatedly lost in cloud and fog, and all too soon came agitation for a more effective light at a lower elevation. By 1891, two new lighthouses were constructed to achieve what one could not--a major light on the low tip of Point Loma and a secondary light at Ballast Point. Although abandonment of the first lighthouse structure was nearly catastrophic, it still survives today to charm millions of visitors. Now, and long overdue, are new glimpses of the famous and lesser-known lighthouses of San Diego thanks to the memories and photographs belonging to families of the men who kept the lights burning.

What happens when UNESCO heritage conventions are ratified by a state? How do UNESCO's global efforts interact with preexisting local, regional and state efforts to conserve or promote culture? What new institutions emerge to address the mandate? The contributors to this volume focus on the work of translation and interpretation that ensues once heritage conventions are ratified and implemented. With seventeen case studies from Europe, Africa, the Caribbean and China, the volume provides comparative evidence for the divergent heritage regimes generated in states that differ in history and political organization. The cases illustrate how UNESCO's aspiration to honor and celebrate cultural diversity diversifies itself. The very effort to adopt a global heritage regime forces myriad adaptations to particular state and interstate modalities of building and managing heritage.

A history of the lighthouse which examines its technical development in the United States

World History: Cultures, States, and Societies to 1500 offers a comprehensive introduction to the history of humankind from prehistory to 1500. Authored by six USG faculty members with advance degrees in History, this textbook offers up-to-date original scholarship. It covers such cultures, states, and societies as Ancient Mesopotamia, Ancient Israel, Dynastic Egypt, India's Classical Age, the Dynasties of China, Archaic Greece, the Roman Empire, Islam, Medieval Africa, the Americas, and the Khanates of Central Asia. It includes 350 high-quality images and maps, chronologies, and learning questions to help guide student learning. Its digital nature allows students to follow links to applicable sources and videos, expanding their educational experience beyond the textbook. It provides a new and free alternative to traditional textbooks, making World History an invaluable resource in our modern age of technology and advancement.

Lighthouses were built on the Hudson River in New York between 1826 to 1921 to help guide freight and passenger traffic. One of the most famous was the iconic Statue of Liberty. This fascinating history with photos will bring the time of traffic along the river alive. Set against the backdrop of purple mountains, lush hillsides, and tidal wetlands, the lighthouses of the Hudson River were built between 1826 and 1921 to improve navigational safety on a river teeming with freight and passenger traffic. Unlike the towering beacons of the seacoasts, these river lighthouses were architecturally diverse, ranging from short conical towers to elaborate Victorian houses. Operated by men and women who at times risked and lost their lives in service of safe navigation, these beacons have overseen more than a century of extraordinary technological and social change. Of the dozens of historic lighthouses and beacons that once dotted the Hudson River, just eight remain, including the iconic Statue of Liberty, New York Harbor's great monument to freedom and immigration, which served as an official lighthouse between 1886 and 1902. Hudson River Lighthouses invites readers to explore these unique icons and their fascinating stories.

On September 14, 1716, Boston Light became the first lighthouse established in Colonial America. With many ships floundering in the treacherous waters of the Massachusetts harbor, there was a great need for navigational aid. At night and during storms, it was difficult to discern the entrance to the main shipping channel of Nantasket Roads, situated between the Brewster islands and the town of Hull. The ledges had become a graveyard for ships, resulting in great loss to human life and cargo—a deterrent to European colonization efforts. Ship captains and merchants petitioned the colonial government for a lighthouse to be erected on Little Brewster Island as a way of safe passage to the inner harbor.

Three hundred years later, Boston Light continues to serve its purpose. Today, the lighthouse is protected by an ever-present Coast Guard civilian keeper and a cadre of specially trained Coast Guard Auxiliary volunteer assistant keepers.

Children in today’s world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Meis that programme. It’s based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective Peoplet^o a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it’s never too early to teach someone how to live well.

Lost In Michigan Volume 3: History and Travel Stories From An Endless Road Trip

Retiring to a seaside cabin near San Francisco, Jack Duluo^z looks for tranquility, but finds only horror and despair.

Outlines recommendations for exploring the contemporary cultural scene in the Hudson Valley, in a tribute to the 400th anniversary of Hudson's voyage that features county-by-county profiles of more than five hundred performing-arts centers, museums, parks, and other venues of interest.

The Waugoshance Lighthouse was the first offshore lighthouse on the Great Lakes and it has been left abandoned for decades. This is the story of one man's fictional visit to this historic beacon to shine a light from the tower one last time before it crumbles into Lake Michigan. Through the challenges of living one more day in isolation at the forgotten lighthouse the history of Great Lakes Lighthouses comes to life. Woven throughout the story are true tales of the men and women who worked at these historic beacons keeping the light on to guide sailors. It also contains the history of lighthouse on the Great Lakes and how the light mechanism and fog signals worked long before electricity became available. If you love lighthouses, or a good adventure story, you will enjoy reading this book.

Indigenous Wisdom, Scientific Knowledge and the Teachings of Plants

In Cold Blood

Clear-eyed and spirited, Taylor Greer grew up poor in rural Kentucky with the goals of avoiding pregnancy and getting away. But when she heads west with high hopes and a barely functional car, she meets the human condition head-on. By the time Taylor arrives in Tucson, Arizona, she has acquired a completely unexpected child, a three-year-old American Indian girl named Turtle, and must somehow come to terms with both motherhood and the necessity for putting down roots. Hers is a story about love and friendship, abandonment and belonging, and the discovery of surprising resources in apparently empty places. Available for the first time in mass-market, this edition of Barbara Kingsolver's bestselling novel, The Bean Trees, will be in stores everywhere in September. With two different but equally handsome covers, this book is a fine addition to your Kingsolver library.

Curious about constructions? Inside this book, you'll come face-to-face with 50 incredible structures, including: a fire-breathing octopus sculpture; the skateboard ramp you'd need to jump the Great Wall of China; a whole community of tree houses in Costa Rica; and a lifesize X-Wing Starfighter built of Legos. These and many more fascinating accounts of constructions both fantastically useful and gloriously unnecessary await inquisitive readers, aspiring engineers, and anyone who ever looked at a skyscraper and thought, "Yeah, but what if it had a roller coaster on top?"

A thoroughly revised and updated edition of Thomas C. Foster's classic guide—a lively and entertaining introduction to literature and literary basics, including symbols, themes, and contexts—that shows you how to make your everyday reading experience more rewarding and enjoyable. While many books can be enjoyed for their basic stories, there are often deeper literary meanings interwoven in these texts. How to Read Literature Like a Professor helps us to discover those hidden truths by looking at literature with the eyes—and the literary codes—of the ultimate professional reader: the college professor. What does it mean when a literary hero travels along a dusty road? When he hands a drink to his companion? When he's drenched in a sudden rain shower? Ranging from major themes to literary models, narrative devices, and form, Thomas C. Foster provides us with a broad overview of literature—a world where a road leads to a quest, a shared meal may signify a communion, and rain, whether cleansing or destructive, is never just a shower—and shows us how to make our reading experience more enriching, satisfying, and fun. This revised edition includes new chapters, a new preface, and a new epilogue, and incorporates updated teaching points that Foster has developed over the past decade.

This is the New York State edition of the GIC's guide to evaluating and conserving green infrastructure (GI) across the landscape. It provides an historical background to GI, as well as practical steps for creating GI maps and plans for a community. It discusses issues around evaluating green assets, public involvement in the mapping process, and the practical steps in bringing together GIS information into a useful format. It draws from twelve field tests GIC has conducted over the past six years in a diversity of ecological and political conditions, at multiple scales, and in varied development patterns – from wildlands and rural areas to suburbs, cities and towns. This guide is intended to help people make land management decisions which recognize the interdependence of healthy people, strong economies and a vibrant, intact and biologically diverse landscape. Green infrastructure consists of our environmental assets – which GIC also calls ‘natural assets’ – and they should be included in planning processes. Planning to conserve or restore green infrastructure ensures that communities can be vibrant, healthful and resilient. Having clean air and water, as well as nature-based recreation, attractive views and abundant local food, depends upon considering our environmental assets as part of everyday planning. Available from GIC at www.gicinc.org.

The Essential Travel Guide to the Southern States

This e-book offers an insightful look into the way today's students think about and use technology in their academic and social lives. It will help institutional leaders help their students to become more successful and satisfied.

In 1941, a real estate developer in northwest Detroit faced a dilemma. He needed federal financing for white clients purchasing lots in a new subdivision abutting a community of mostly African Americans. When the banks deemed the development too risky because of potential racial tension, the developer proposed a novel solution. He built a six-foot-tall, one-foot-thick concrete barrier extending from Eight Mile Road south for three city blocks—the infamous Birwood Wall. It changed life in West Eight Mile forever. Gathering personal interviews, family histories, land records and other archival sources, author Gerald Van Dusen tells the story of this isolated black enclave that persevered through all manner of racial barriers and transformed a symbol of discrimination into an expression of hope and perseverance.

"TRB's Transit Cooperative Research Program (TCRP) Report 163: Strategy Guide to Enable and Promote the Use of Fixed-Route Transit by People with Disabilities is designed to help transit agencies fulfill the primary goals of the Americans with Disabilities Act of 1990 (ADA) by making mainstream fixed-route bus and rail systems accessible to and usable by individuals with disabilities. The focus of the Strategy Guide is to offer guidance on providing public services in the most integrated setting possible." - Publisher's note.

Memories of a Country Boy is a series of captivating, humorous, true stories involving a young boy growing up in a rural section of North Carolina during the 1950's.

This lively, practical text presents a fresh and comprehensive approach to doing qualitative research. The book offers a unique balance of theory and clear-cut choices for customizing every phase of a qualitative study. A scholarly mix of classic and contemporary studies from multiple disciplines provides compelling, field-based examples of the full range of qualitative approaches. Readers learn about adaptive ways of designing studies, collecting data, analyzing data, and reporting findings. Key aspects of the researcher's craft are addressed, such as fieldwork options, the five phases of data analysis (with and without using computer-based software), and how to incorporate the researcher's "declarative" and "reflective" selves into a final report. Ideal for graduate-level courses, the text includes:* Discussions of ethnography, grounded theory, phenomenology, feminist research, and other approaches.* Instructions for creating a study bank to get a new study started.* End-of-chapter exercises and a semester-long, field-based project.* Quick study boxes, research vignettes, sample studies, and a glossary.* Previews for sections within chapters, and chapter recaps.* Discussion of the place of qualitative research among other social science methods, including mixed methods research.

"Books geographically focused on the midwestern and eastern states dominate the study of Mennonites in America. The intriguing history of Mennonites in the American West remains untold. In From Digging Gold to Saving Souls, Brian Froese introduces readers for the first time to the California Mennonite experience. Although a few Mennonites did dig for gold in the 1850s, the real story of Mennonites in California begins in the 1890s with westward migrations for fertile soil and healthy sunshine. By the mid-twentieth century, the Mennonite story in California had developed into an interesting tale of religious conservatives--traditional agrarians--finding their way in an increasingly urban and religiously pluralistic California. Some California Mennonites negotiated new identities by endorsing conservative evangelicalism; some found them in reclamations of sixteenth-century Anabaptists. Still other Mennonites found meaningful religious experience by engaging in social action and justice even when these actions appeared in "secular" forms. These emerging identities--Evangelical, Anabaptist, and secular--covered a broad spectrum, yet represented a selective retaining and discarding of Mennonite religious practices and expressions. From Digging Gold to Saving Souls touches on such topics as migration, pluralism, race, gender, pacifism, institutional construction, education, and labor conflict, all of which defined the experience of Mennonites of California. Brian Froese shows how this experience was a rich, complex, and deliberate move into modern society. In From Digging Gold to Saving Souls, he introduces readers to a dynamic people who did not simply become modern, but who chose to modernize on their own terms"---

A revised new edition of the bestselling toolkit for creating, building, and maintaining a strong brand From research and analysis through brand strategy, design development through application design, and identity standards through launch and governance, *Designing Brand Identity, Fourth Edition* offers brand managers, marketers, and designers a proven, universal five-phase process for creating and implementing effective brand identity. Enriched by new case studies showcasing successful world-class brands, this Fourth Edition brings readers up to date with a detailed look at the latest trends in branding, including social networks, mobile devices, global markets, apps, video, and virtual brands. Features more than 30 all-new case studies showing best practices and world-class Updated to include more than 35 percent new material Offers a proven, universal five-phase process and methodology for creating and implementing effective brand identity

The third volume in the *Lost In Michigan* book series. Fun and informative stories that are off the beaten path throughout the "Mitten State" that are. Tales of tragic accidents, to historic places and inspirational people that showcases Michigan's unique history. If you have traveled to the popular tourist destinations in Michigan, and are looking for something a little different, you will enjoy reading this book. It's the perfect book to take on a road trip and get "Lost In Michigan."

As a botanist, Robin Wall Kimmerer has been trained to ask questions of nature with the tools of science. As a member of the Citizen Potawatomi Nation, she embraces the notion that plants and animals are our oldest teachers. In *Braiding Sweetgrass*, Kimmerer brings these two lenses of knowledge together to take us on “a journey that is every bit as mythic as it is scientific, as sacred as it is historical, as clever as it is wise” (Elizabeth Gilbert). Drawing on her life as an indigenous scientist, and as a woman, Kimmerer shows how other living beings—asters and goldenrod, strawberries and squash, salamanders, algae, and sweetgrass—offer us gifts and lessons, even if we've forgotten how to hear their voices. In reflections that range from the creation of Turtle Island to the forces that threaten its flourishing today, she circles toward a central argument: that the awakening of ecological consciousness requires the acknowledgment and celebration of our reciprocal relationship with the rest of the living world. For only when we can hear the languages of other beings will we be capable of understanding the generosity of the earth, and learn to give our own gifts in return.

A book not to be missed by those who like their history in lyrical and personal chunks.

"Tideflats to Tomorrow: The History of Seattle's SoDo" by Dan Raley, a local Seattle author and longtime Seattle P.I. reporter, is a four-color tribute to "Seattle's workplace," the city's rough-and-tumble industrial area south of downtown. The book outlines the evolution of how millions of yards of fill sloughed from the city's eastern hills covered Elliott Bay salty tideflats to form what is now called SoDo. It also covers such landmark eras as Hooverville spawned by the Great Depression; the role of the Alaskan Gold Rush in Seattle's emergence on the national map; the containerization of the city's waterfront; some of the most popular watering holes and eateries; the construction and implosion of the Kingdome, Qwest Field and Safeco Field; and the area's emerging future as one of the city's last great areas for growth and possible changes to its traditional use.

Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are Breakfast at Tiffany's and Other Voices, Other Rooms (in one volume), Portraits and Observations, and The Complete Stories Truman Capote's masterpiece, In Cold Blood, created a sensation when it was first published, serially, in The New Yorker in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the “new journalism.” Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. “I thought he was a very nice gentleman,” he says of Herb Clutter. “Soft-spoken. I thought so right up to the moment I cut his throat.” Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers’ flight, Capote’s account is so detailed that the reader comes to feel almost like a participant in the events.

You may think you know the South for its food, its people, its past, and its stories, but if there’s one thing that’s certain, it’s that the region tells far more than one tale. It is ever-evolving, open to interpretation, steeped in history and tradition, yet defined differently based on who you ask. This Is My South inspires the reader to explore the Southern States--Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Virginia--like never before. No other guide pulls together these states into one book in quite this way with a fresh perspective on can’t-miss landmarks, off the beaten path gems, tours for every interest, unique places to sleep, and classic restaurants. So come see for yourself and create your own experiences along the way!

During Mason's birthday sleepover at the natural history museum, friends enjoy a scavenger hunt but Mason has a hard time choosing the gallery in which they will sleep. Includes facts about museums and a list of notable museums that allow sleepovers.
