Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in Millionaire by Thirty, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

In Ezra's first book, he learned about baseball, girls, cars, drinking, and a lot of hard physical labor, not necessarily in that order. America had not yet been pulled into the war in Europe, and we didn't yet know much about that strange little country across the Pacific, known as Japan.As we pick up the story in book two, Ezra is now in his early 20's, working hard for meager pay, and a long way from his family in Illinois and Indiana. He has been to a handful of states, now he thinks he would like to see the world. He enlists in the military and asks to go to the Philippines. He talks about baseball, girls, cars, and drinking, not necessarily in that order. He gets married on Independence Day, and soon after, his country also goes to war. He was on a troopship heading for the Philippines when news came over the radio about Pearl Harbor. It said, "This is not one of those Orson Wells stories like we had on Halloween a couple years before." It said, "This is the real thing." The ship was ordered back to San Francisco.He eventually does get his wish, to go to the Philippines.Come with Ezra as he becomes the wanderer, the man with Government Issue Gypsy blood. With more than 165 pictures, some in color. THIS VERSION OF THE BOOK IS BLACK AND WHITE
