

2nd Amendment Essay Papers

At a time of renewed debate over guns in America, what does the Second Amendment mean? This book looks at history to provide some surprising, illuminating answers. The Amendment was written to calm public fear that the new national government would crush the state militias made up of all (white) adult men -- who were required to own a gun to serve. Waldman recounts the raucous public debate that has surrounded the amendment from its inception to the present. As the country spread to the Western frontier, violence spread too. But through it a

Read Online 2nd Amendment Essay Papers

gun control was abundant. In the 20th century, with Prohibition and gangsterism, the first federal control laws were passed. On all four occasions, the Supreme Court ruled against a constitutional right to own a gun. The present debate picked up in the 1970s -- part of a backlash to the liberal 1960s and a resurgence of libertarianism. A newly radicalized NRA entered the campaign to oppose gun control and elevate the status of an obscure constitutional provision. In 2008, in a case that reached the Court after a focused drive by conservative lawyers, the US Supreme Court ruled for the first time that the Constitution protects an individual

to gun ownership. Famous for his theory of "originalism" Justice Antonin Scalia twisted it in this instance to base his argument on contemporary conditions. Waldman shows that our view of the amendment is set, at each stage, not by a pristine constitutional text, but by the push and pull, the rough and tumble of political advocacy and public agitation.

terrorism, along with a renewed sense of religious conflict. Many people follow one or the other of these extremist ideologies on pure emotion, without ever questioning facts or sound logic. A Treatise on 2nd Amendment Rights in the 21st Century goes beyond the prevalent extremist bias and is a logic based pursuit of facts in a fair, balanced and yet often comical read that anyone can relate to. The scope of the Second Amendment right is evaluated from three intertwined perspectives; evolution of the right itself, the actual need to have the right as evaluated through changes in scope of the military and the military, and the people's perceptions of the right.

The Second Amendment

The Evolution of a Constitutional Right

The Founding Fathers and the Origins of Gun Control in America

Freedom, Fear, and the American Constitution

That Every Man be Armed

A Right to Bear Arms?

Few schisms in American life run as deep or as wide as the divide between gun rights and gun control advocates where the debate is largely defined by forceful rhetoric rather than substantive analysis. This text explores the gun-control options of the most heavily armed democracy in the world.

Antonin Scalia and American Constitutionalism is an in-depth study of Justice Antonin Scalia's jurisprudence, his work on the Supreme Court, and his

significance in the history of American constitutionalism. After tracing Scalia's rise to Associate Justice and his subsequent emergence as a hero of the Republican Party and the political right, this book reviews and criticizes his general jurisprudential theory, arguing that he failed to produce either the objective method he claimed or the correct constitutional results he promised. Focusing on his judicial performance over his thirty years on the Court, it examines his decisions and opinions on virtually all of the

constitutional issues he addressed from the fundamentals of structure (federalism, separation of powers, and the Article III judicial power) to specific interpretations of most major constitutional provisions involving governmental powers and the rights of individuals under the Bill of Rights and the Fourteenth Amendment. This book argues that Scalia applied his jurisprudential theories in inconsistent and contradictory ways and often ignored, distorted, or abandoned the interpretive methods he

Read Online 2nd Amendment Essay Papers

proclaimed to reach the results he sought, results that were aligned with and supported by the post-Reagan Republican coalition. Scalia was far more consistent in enforcing such ideologically compatible results than he was in following his proclaimed jurisprudential theories. Finally, assessing Scalia's historical significance, Antonin Scalia and American Constitutionalism argues that his jurisprudence and career are particularly illuminating because they exemplify--contrary to his persistent

claims--three paramount characteristics of American constitutionalism: the inherent inadequacy of originalism and other formal interpretive methodologies to produce consistent and correct answers to controverted constitutional questions; the close relationship that exists, particularly so in Scalia's case, between constitutional theories and interpretations on one hand and substantive political goals and values on the other; and the unavoidably living nature of American constitutionalism itself. All in all,

Scalia stands as a towering figure of irony because his judicial career deconstructed the central claims of his own jurisprudence. Rule of law and constitutionalist ideals are understood by many, if not most, as necessary to create a just political order. Defying the traditional division between normative and positive theoretical approaches, this book explores how political reality on the one hand, and constitutional ideals on the other, mutually inform and influence each other. Seventeen chapters

intentions behind the right to "bear arms". It traces its roots to the legacy of English law, leading directly to the Second Amendment.

Supreme Court Justice Antonin Scalia once remarked that the theory of an evolving, "living" Constitution effectively "rendered the Constitution useless." He wanted a "dead Constitution," he joked, arguing it must be interpreted as the framers originally understood it. In *The Living Constitution*, leading constitutional scholar David Strauss forcefully argues against the claims of Scalia, Clarence Thomas, Robert Bork, and other

"originalists," explaining in clear, jargon-free English how the Constitution can sensibly evolve, without falling into the anything-goes flexibility caricatured by opponents. The living Constitution is not an out-of-touch liberal theory, Strauss further shows, but a mainstream tradition of American jurisprudence--a common-law approach to the Constitution, rooted in the written document but also based on precedent. Each generation has contributed precedents that guide and confine judicial rulings, yet allow us to meet the demands of today, not force us to follow the commands of the long-dead Founders. Strauss

the questions, answers, and civics lessons read aloud is also included. For immigrants preparing to naturalize, the chance to learn more about the history and government of the United States will make their journey toward citizenship a more meaningful one.

Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton.

Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion.

"The Federalist", as it was previously known,

was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His

contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

The Second Amendment, by far the most controversial amendment to the US Constitution, will soon celebrate its 225th anniversary. Yet, despite the amount of ink spilled over this controversy, the debate continues on into the 21st century. Initially written with a view towards protecting the nascent nation from more powerful enemies and preventing the tyranny experienced during the final years of British rule, the Second

Amendment has since become central to discussions about the balance between security and freedom. It features in election contests and informs cultural discussions about race and gender. This book seeks to broaden the discussion. It situates discussion about gun controls within contemporary debates about citizenship, culture, philosophy and foreign policy as well as in the more familiar terrain of politics and history. It features experts on the Constitution as well as chapters discussing the symbolic importance of Annie Oakley, the role of firearms in race, and

filmic representations of armed Hispanic girl gangs. It asks about the morality of gun controls and of not imposing them. The collection presents a balanced view between those who favour more gun controls and those who would prefer fewer of them. It is infused with the belief that through honest and open debate the often bitter cultural divide on the Second Amendment can be overcome and real progress made. It contains a diverse range of perspectives including, uniquely, a European perspective on this most American of issues.

A Biography

For years proposals for gun control and the ownership of firearms have been among the most contentious issues in American politics. For public authorities to make reasonable decisions on these matters, they must take into account facts about the relationship between guns and violence as well as conflicting constitutional claims

and divided public opinion. In performing these tasks, legislators need adequate data and research to judge both the effects of firearms on violence and the effects of different violence control policies. Readers of the research literature on firearms may sometimes find themselves unable to distinguish scholarship from advocacy. Given the importance of this issue, there is a pressing need for a clear and unbiased assessment of the existing portfolio of data and research. Firearms and Violence uses conventional standards of science to examine three major themes - firearms and violence, the quality of research, and the quality of data available. The book assesses the strengths and limitations of current databases, examining current research studies on

firearm use and the efforts to reduce unjustified firearm use and suggests ways in which they can be improved. Come join 13-year-old Brenna Strong along with her mom, Bea, and her dad, Richard, as they spend a typical Saturday running errands and having fun together. What's not so typical is that Brenna's parents lawfully open carry handguns for self-defense. The Strongs join a growing number of families that are standing up for their 2nd Amendment rights by open carrying and bringing gun ownership out of the closet and into the mainstream. If you open carry and have a difficult time explaining why to your family and friends, or if you want to learn about the open carry of a handgun, or if you've wondered if open carry is right for you, then this book is what you

need. My Parents Open Carry was written in the hope of providing a basic overview of the right to keep and bear arms as well as the growing practice of the open carry of a handgun. We fear our children are being raised with a biased view of our constitution and especially in regards to the 2nd Amendment. Before writing this, we looked for pro-gun children's books and couldn't find any. Our goal was to provide a wholesome family book that reflects the views of the majority of the American people, i.e., that self-defense is a basic natural right and that firearms provide the most efficient means for that defense. We truly hope you will enjoy this book and read and discuss it with your children over and over again. As you read this book, you will learn about the growing practice of

open carry, the 2nd Amendment, and the right and responsibility of self-defense. Home School Teachers: This book is an excellent text to use as a starting point on the discussion of the 2nd Amendment.

A leading constitutional historian argues that the Founding Fathers viewed the right to bear arms as neither an individual nor a collective right, but rather an obligation a citizen owed to the government to arm themselves and participate in a well-regulated militia.
