Popular Mechanics

Boating Life

An authoritative guide to modern equipment found in merchant ships focusing on 'motor' propulsion for marine engineers.

Boating

Motor Engineering Knowledge for Marine Engineers

As the "Boat Doctor" in Boating magazine, Allen Berrien helped two generations of readers keep their boats alive and well. Now his practical know-how and wisdom is collected in Powerboat Care and Repair, the only book that focuses on do-it-yourself maintenance and repair of small powerboats. Berrien provides tips on how to avoid and solve a host of common problems, such as electrolysis, pitted gelcoat, and battery failures. He also offers step-by-step guidance on spring commissioning and winterizing; inboard, outboard, and stern drive engine troubleshooting; exterior maintenance; emergency preparedness; and much more.

How to Keep Your Outboard, Sterndrive, Or Gas-Inboard Boat Alive and Well

Pacific Marine Review

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

Marine and Offshore Pumping and Piping System covers the history, application, installation, maintenance, and safety of different pumping and piping systems. The book covers topics such as pumping arrangements, especially in machinery spaces; water ballast, oil fuel, feed, and cooling water systems; and piping systems for oil and chemical tankers. Also covered are topics such as the arrangements in liquefied gas carriers and fuel gas and coal burning; the required arrangements and systems for specialized ships and its related regulations; the automation of control systems; piping designs, and offshore services. The text is recommended for marine engineers who would like to know more about the pumping and piping systems on ships and offshore services, as well as their arrangements.
