Drawing on rich classroom observations of educators teaching in China and the U.S., this book details an innovative and effective approach to teaching algebra at the elementary level, namely,

## Online Library 3rd Grade Teacher Sample Paper

"teaching through example-based problem solving" (TEPS).

Recognizing young children's particular cognitive and developmental capabilities, this book powerfully argues for the importance of infusing algebraic

thinking into early grade mathematics teaching and illustrates how this has been achieved by teachers in U.S. and Chinese contexts. Documenting best practice and students' responses to example-based

## Online Library 3rd Grade Teacher Sample Paper

instruction, the text demonstrates that this TEPS approach – which involves the use of worked examples, representations, and deep questions – helps students learn and master fundamental mathematical ideas, making it
