Three-time Olympic medalist shares behind-the-scenes insight into the beloved Canadian National Women's Hockey Team Men's hockey in Canada may hog the limelight, but interest in women's hockey has never been higher. The Role I Played is a memoir of Sami Jo Small's ten years with Canada's National Women's Hockey Team. Beginning with her experience as a rookie at the first-ever women's Olympic hockey tournament in Nagano in 1998 and culminating with Canada's third straight Olympic gold medal in Vancouver in 2010, the veteran goaltender gives the reader behind-the-scenes insight into one of the most successful teams in sports history. Small offers insider access, writing with unflinching honesty about the triumphs of her greatest games and the anguish of difficult times. This book honours the individuals who sacrificed so much of their lives to represent Canada on a world stage and celebrates their individual contributions to the team's glory. While bringing the personalities of her teammates to life, Small takes the reader into the dressing rooms and onto the ice for an up-close glimpse into the ups and downs of athletes pursuing a sport's highest achievement.

A New York Review Books Original Hav is like no place on earth. Rumored to be the site of Troy, captured during the crusades and recaptured by Saladin, visited by Tolstoy, Hitler, Grace Kelly, and Princess Diana, this Mediterranean city-state is home to several architectural marvels and an annual rooftop race that is a feat of athleticism and insanity. As Jan Morris guides us through the corridors and quarters of Hav, we hear the mingling of Italian, Russian, and Arabic in its markets, delight in its famous snow raspberries, and meet the denizens of its casinos and cafés. When Morris published Last Letters from Hav in 1985, it was short-listed for the Booker Prize. Here it is joined by Hav of the Myrmidons, a sequel that brings the story up-to-date. Twenty-first-century Hav is nearly unrecognizable. Sanitized and monetized, it is ruled by a group of fanatics who have rewritten its history to reflect their own blinkered view of the past. Morris's only novel is dazzlingly sui-generis, part erudite travel memoir, part speculative fiction, part cautionary political tale. It transports the reader to an extraordinary place that never was, but could well be.

ÔChina threat or China opportunity, like beauty, is in the eyes of the beholder. Western imaginations of China come under close scrutiny in this book, in a new, philosophical depth seldom attempted before. Dr Pan displays in full force his analytical skills and his mastery of knowledge, both East and West. Contrary to conventional approaches, he takes a step back to exercise a powerful reflective process to watch the China watchers, with illuminating results. Dr Pan's book deserves wide and careful reading.Õ ð Professor Gerald Chan, University of Auckland, New Zealand ÔThe rise of China is largely seen as either a threat or an opportunity. Chengxin Pan exposes both of these representations as expressions of Western fears and desires for certainty and predictability. His call for a more reflective and culturally sensitive understanding of China offers an important contribution to one of the big political debates of our time.Õ ð Professor Roland Bleiker, University of Queensland, Australia ÔThis is a brilliant and insightful treatment of Western representations of China, with a theoretical framework suggesting they come not only from China itself, but also the West. Although it is not the first treatment of this topic, it is innovative in considering the ÔChina threatÓ and ÔChina opportunityÓ: both aspects of the rise of China are of crucial importance for our times. With provocative conclusions, it is a truly path-breaking contribution to the literature. I recommend it highly!Õ ð Emeritus Professor Colin Mackerras, Griffith University, Australia ÔPan has produced a book which not only challenges some basic assumptions about the nature of China's ÔriseÓ, but more importantly forces us to rethink the very basic starting points of how we know what we know about China.Õ ð Professor Shaun Breslin, University of Warwick, UK How is the rise of China perceived in the West? Why is it often labelled as ÔthreatÕ and/or ÔopportunityÕ? What are the implications of these China imageries for global politics? Taking up these important questions, this groundbreaking book argues that the dominant Western perceptions of China's rise tell us less about China and more about Western self-imagination and its desire for certainty. Chengxin Pan expertly illustrates how this desire, masked as China ÔknowledgeÕ, is bound up with the political economy of fears and fantasies, thereby both informing and complicating foreign policy practice in Sino-Western relations. Insofar as this vital relationship is shaped not only by China's rise, but also by the way we conceptualise its rise, this book makes a compelling case for critical reflection on China watching. Knowledge, Desire and Power in Global Politics is the first systematic and deconstructive analysis of contemporary Western representation of China's rise. Setting itself apart from the mainstream empiricist literature, its critical interpretative approach and unconventional and innovative perspective will not only strongly appeal to academics, students and the broader reading public, but also likely spark debate in the field of Chinese international relations.
