College (Michigan) "Jay has written a unique and highly effective book combining motivational techniques with job search innovation." –Susan Leventhal, Manager, Professional Placement Network, Workforce One, Florida About the Book: In 101 Best Ways to Land a Job in Troubled Times, Jay Block helps you approach your job transition strategically—not as a one-time search, but as a campaign of discovery through which you'll achieve your career objectives. Follow his easy five-step process to: Manage fear and negative emotions that impede success Carefully define clear job and career goals Create effective and high-impact self-marketing tools that make job seekers STAND OUT professionally Develop strategic, structured action plans that will become the job seeker's GPS to their next job Take action and "enjoy the process" of landing a job in troubled times quickly and effectively Block's proven method is the only way to truly seize control of your future, land the job you want, and earn the pay you deserve.

Work is constantly reshaped by technological progress. New ways of production are adopted, markets expand, and societies evolve. But some changes provoke more attention than others, in part due to the vast uncertainty involved in making predictions about the future. The 2019 World Development Report will study how the nature of work is changing as a result of advances in technology today. Technological progress disrupts existing systems. A new social contract is needed to smooth the transition and guard against rising inequality. Significant investments in human capital throughout a person's lifecycle are vital to this effort. If workers are to stay competitive against machines they need to train or retool existing skills. A social protection system that includes a minimum basic level of protection for workers and citizens can complement new forms of employment. Improved private sector policies to encourage startup activity and competition can help countries compete in the digital age. Governments also need to ensure that firms pay their fair share of taxes, in part to fund this new social contract. The 2019 World Development Report presents an analysis of these issues based upon the available evidence.

*Don Keough—a former top executive at Coca-Cola and now chairman of the elite investment banking firm Allen & Company—has witnessed plenty of failures in his sixty-year career (including New Coke). He has also been friends with some of the most successful people in business history, including Warren Buffett, Bill Gates, Jack Welch, Rupert Murdoch, and Peter Drucker. Now this elder statesman reveals how great enterprises get into trouble. Even the smartest executives can fall into the trap of believing in their own infallibility. When that happens, more bad decisions are sure to follow. This light-hearted "how-not-to" book includes anecdotes from Keough's long career as well as other infamous failures. His commandments for failure include: Quit Taking Risks; Be Inflexible; Assume Infallibility; Put All Your Faith in Experts; Send Mixed Messages; and Be Afraid of the Future. As he writes, "After a lifetime in business I've never been able to develop a step-by-step formula that will guarantee success. What I could do, however, was talk about how to lose. I guarantee that anyone who follows my formula will be a highly successful loser."*
