Caterhams are a new take on the classic Lotus Sevens and are found on racetracks and twisty roads around the world. Caterham Sevens is the story of a former Lotus dealer, Graham Nearn, who saw the potential of a hand-built sports car which its creator, Lotus founder Colin Chapman, was about to discard. Nearn bought manufacturing rights from Colin Chapman, and by developing ever more powerful versions for more than 30 years, turned Caterham into one of the world's most prolific and affordable sports-racing cars. Widely recognized as the standard work on the history of Caterham and its cars from the original Lotus Seven of 1957 and its Caterham

derivative of 1973 to the latest Cosworth-powered Caterham CSR of 2005. This edition is updated with 64 pages of additional material. 2nd ed.

Hans Ledwinka's innovative Tatra cars were models of design excellence, and were highly influential in shaping modern car design concepts and the development of the Volkswagen. This book places Ledwinka in his well-deserved place amongst the great car designers. This enlarged 2nd edition contains updated material and additional illustrations.

The Definitive History 1997 to 2005 (Updated and Enlarged Edition)

The Autocar

Why build a Seven? Putting a sports car on the road, a personal record.

The original Lotus Seven was the product of pure engineering genius. Forty years on, it continues to encapsulate the Lotus founder's ideals for an affordable sports racer: it makes few compromises, yet is equally at home on the road as on the track and it can be built by a mechanical novice. This book chronicles the saga of the Lotus Seven including the Series 2 and 3 during the 1960s - when it won fame in The Prisoner TV series. Caterham continues to build the Super Seven and John Tipler shows how the various structural components of the car are manufactured, and interviews key figures in the Seven's evolution.

Ever been forced to build your own car?THE SEVEN, the legendary Lotus sports car that first appeared in 1957 is still in

production, as a kit. If you want one you must build it. The author sets out to build a Caterham Seven without first acquiring the needed skills. The fingertip ease of the digital age is replaced by unheated garages, fumes and typed instructions obscured by oily fingerprints. Between chapters a running history, illustrated with cartoons, tells the Seven's 50 year story using quotes from the many articles, test drives and books on the car. For anyone who has ever wanted to build something with their own hands - despite skill, aptitude and experience. Why build A Seven? Putting a sportscar on the road.

SM: Citroen's Maserati-Engined Supercar

The Official Story of a Unique British Sportscar from Conception to CSR

Parliamentary Papers

1973 to 2013

This is the fascinating story of how the Citroen SM came into being, with company politics and Maserati's involvement covered in detail. The text and pictures then follow the car's progress from its world premier at the 1970 Geneva Show until the final production models were built in July 1975. With 200 mainly color photos, full coverage of production models and a buyers guide this book is the complete Citroen SM resource.

In *Build Your Own Kit Car*, renowned kit car expert Steve Hole presents a comprehensive guide to planning, managing and executing a kit car build. The first part of the book covers the history of kit cars; detailing the innovations the kit car industry has made in car building technology, and how companies like Westfield and Caterham have become household names. The second half of the book takes you through a full build project, from chassis, brakes, suspension and engine through to trimming and interiors. Other topics include: Types of kit cars, including the differences between kits, replicas and one-off builds; Choosing the right car for you; Budgeting for your build; Setting up your workspace, tools needed and workshop safety; Building techniques; List of useful contacts to help find the best resources for your kit car build. Whether you are planning on building a blisteringly quick trackday car, classic roadster or eccentric road car, *Build Your Own Kit Car* has all the resources and information you need to build and enjoy your own unique automotive creation. A comprehensive and instructional guide to planning, managing and executing a kit car build, superbly illustrated with 300 colour photographs. Steve Hole is one of the UK's leading authorities on the world of kit cars and is editor of tkc magazine.

Caterham Sevens

Unfair Competition by Misrepresentation

Updated & Enlarged Collector's Edition of 1500 copies

From the first motor cars and classic cars to today's supercars and Formula 1, this is the ultimate book about the history of the car. Packed with stunning photography, and featuring more than 2,000 cars, Car shows you how cars have evolved around the world over the the last 130 years, and their impact on society as objects of curiosity, symbols of status and luxury, and items of necessity. Extensive catalogues showcase the most important marques and models, organized in categories such as sports cars, convertibles, and city compacts. The book also features virtual photographic tours of some of the most iconic cars from each era

such as the Rolls Royce Silver Ghost, Ford Model T, Lamborghini Countach, and Ferrari F40, while cross-sections of key engines explore the driving force behind them. Lavishly illustrated feature spreads detail the stories of the men, machines, and magic that helped create the car world's most famous marques and made brands such as Porsche, Mercedes-Benz, Aston Martin, and Cadillac household names. If you love cars, then you'll love Car. It is simply a must-have title for all car enthusiasts.
