

Carrera Panamericana: the Mexican Road Race. In its day it was the longest, fastest and likely wildest international automobile race ever staged. A World Championship event along with Le Mans, the Mille Miglia, Nüburgring and the Tourist Trophy, most drivers considered it the best-and the worst-of them all.From 1950 to 1954, it was witnessed by ten million spectators along a nearly 2,000-mile course that featured deserts where the faster cars could reach 180 mph and 10,000-foot mountain passes requiring first-gear operation. Carrera Panamericana influenced engineering and marketing from Michigan to Modena. Ferrari designed and named a model specifically for the race. Lincoln emerged as a high-performance sedan and Porsche's Carrera was named in honor of its wins.The Pan-Am was so unconventional and fascinating that it came to hold the world's attention for a full week each year. It was one of the last of the great open road events and the first in which European and American cars could be compared and marked the return of US factory support to racing in America.

**Seminar paper from the year 2006 in the subject American Studies - Culture and Applied Geography, grade: 2.0, University of Potsdam (Philosophisches Institut), course: Proseminar, 9 entries in the bibliography, language: English, abstract: ...and for three years it was the most talked-about, written-about and shocked-about venue in the universe. Everyone wanted to go to Studio 54 (Jones/ Kantonen 1999: 246)". "A lot of people thought that at the door was a better show than inside...people would try anything to get in ("Shane" in Studio 54)". When Steve Rubell and Ian Schrager in the late April 1976 started their nightclub Studio 54, a legend came to life. On the floors of this unique party shangri-la, celebrities like Andy Warhol, Liza Minelli, Bianca and Mick Jagger, Brooke Shields and Truman Capote mingled with business people, politicians, soap opera starlets, drag queens and chosen few from the "grey people", as nightlife guru Rubell called the normal people. Never before, a discothèque had caused such a public stir. Paparazzi jostled beyond the velvet ropes to illustrate their gossip columns with pictures of the socialites – it was the "first time ever that celebrity photos would appear on the front page of the tabloids for no other reasons than they were there (Jones/ Kantonen 1999: 249)". But by far not everybody came to know the true promise of the club – door policy at Studio 54 was probably one of the toughest in the history of nightlife. Rubell himself was eager to make sure that of the many different groups that made up the audience of 54, none should dominate the other, a type of "social engineering he called "tossing the salad"" (Shapiro 2005: 201). He himself supported his**

**doorman Marc Benecke selecting the people who could pass the velvet ropes, whilst scores of people shouted Rubell's name begging him to be admitted into the club. On one hand, there were certain criteria, but on the other hand, there was enough leeway for arbitrariness, indeed, it was a highly undemocratic procedure that precisely reflected its place, its period and social circumstances. Disco in the 'uncanny 1970s' not only served to escape reality but also epitomised an increasing drive towards individualism that replaced the ideas of participation and community of the sixties. The doors at 54 were instruments to form a new world with new social ladders and in their radicalism marked a peak in this development.**

**This study aims to explore the behaviours and relations of posts, prices and profits during the fluctuations of business activity and arrives at some dependable findings on cyclical interrelationships.**

**Fifty Four**

**The Advances in Chemical Physics series provides the chemical physics and physical chemistry fields with a forum for critical, authoritative evaluations of advances in every area of the discipline. Filled with cutting-edge research reported in a cohesive manner not found elsewhere in the literature, each volume of the Advances in Chemical Physics series serves as the perfect supplement to any advanced graduate class devoted to the study of chemical physics.**

**The Soviet T-54/55 is probably the best-known tank of the Cold War, and it was produced in greater numbers than any other tank in history. It first went into service just after the Second World War and over 70,000 were made, and its design was so successful that it even outlasted its successor the T-62. For a generation it formed the backbone of the armored forces of the Warsaw Pact and it was exported all over the world, remaining in the front-line until the 1990s. This photographic history in the Images of War series by Anthony Tucker-Jones is the ideal introduction to it. In over 150 archive photographs and a detailed analytical text, he traces the design and development of the T-54/55 and records its operational history. He describes how it was conceived as a main battle tank, an all-rounder, contrasting with the light, medium and heavy tanks produced in the past, and it proved to be extraordinarily effective. It was as adaptable as it was long-lasting, different versions being produced by China, Czechoslovakia, Poland and Romania. Its relatively simple design also meant it was easy to maintain even in difficult conditions and it was used by**

**armies across the Third World, in particular in wars in Angola, Ethiopia, Mozambique and Somalia. Anthony Tucker-Jones's history of this remarkable armored vehicle will be absorbing reading for tank enthusiasts and a valuable source for modelers.**

From the authors of the bizarre and extraordinaryComes this equally bizarre and powerful thriller. Set in the former Yugoslavia in the 1950s, the new novel by the members of the Luther Blissett Project, now calling themselves the Wu Ming Foundation, tells a story of the intrigue, spying and paranoia around the hiring of Cary Grant to play the lead role in a Yugoslav propaganda film. Truly bizarre. truly culty.

During the Vietnam War, both the United States and the Soviet Union supplied all manner of weapon systems to the opposing sides, including tanks and armoured vehicles. Two tanks in particular took momentary prominence in the later years of the conflict. On the South Vietnamese side, it was the US M41 Walker Bulldog; for the communist North Vietnamese, the Soviet-supplied T-54 main battle tank was the core of their armoured power. In their first major engagement, during Operation Lam Son 719 (February-March 1971), it was the Walker Bulldog in the ascendant, but in later battles the T-54s inflicted heavy losses on their lighter opponents, taking the advantage through their superior manoeuvrability and gunnery. Illustrated with full-colour artwork as well as rare and revealing photographs from both sides, this book studies these two iconic tanks in Vietnamese service, examining how their differing designs and fighting doctrines affected their performance in this unique theatre of combat.

54 Rabbits Tell Their Favorite Stories

The states of Indochina had been French colonies or protectorates since the 19th century. However, in March 1945 the Japanese interned all French troops and officials, and turned over all civil government to local authorities. The power vacuum caused by the Japanese surrender allowed the Viet Minh, a strong revolutionary organisation, to be established throughout Vietnam. When the French returned to the north, incidents between French and VM troops were inevitable, negotiations collapsed and the French opted for a military solution. This book examines the history of the conflict and the forces of both sides.

There has never been--and will never be--another nightclub to rival the sheer glamour, energy, and wild creativity that was Studio 54. This catalog accompanies an exhibition at the Brooklyn Museum exploring how Studio 54 was a unique zeitgeist of an era. From the moment it opened in 1977, Studio 54 celebrated spectacle and promised a never-ending parade of anything goes. Although it existed for only three years, it served as a catalyst that brought together some of the most famous, creative, and strangest people in the world. It quickly became known for its all-ages celebrity guest list and its uniquely chic clientele of superstars and freaks of all races and sexual preferences who would often show up half-dressed or in costume. From the cutting-edge lighting displays and sound system to its elaborate sets that would change on a whim, altering the environment and ambiance, it was the beginning of nightclub as performance art. Now, the Brooklyn Museum is staging the first exhibition featuring the nightclub as a bellwether of New York City cultural life. More than 650 objects--spanning fashion, photography, drawings, film, and music--as well as video, film, and soundtrack, create an immersive experience, with an exhibition design inspired by the club's original lighting and atmosphere. Highlights include never-before-published costume sketches by artist Antonio Lopez and newly discovered set designs, as well as ephemera salvaged by the original club staff and interviews with the cultural luminaries who were there. Telling the story of this legendary club, as well as serving as a companion to the exhibition, Studio 54: Night Magic serves as a document of the era, depicting the wild energy and provocative creativity of this seminal cultural moment.

Three Times Chai

Australian Official Journal of Patents

Contributions of the American Entomological Institute

*For Jews everywhere, the number 18 resonates deeply; it signifies life, as does every multiple of 18. And the Hebrew word for life is Chai. In three Times Chai, 54 rabbis introduce us to favorite stories that exemplify for them a Jewish ideal or principle: a triple helping of life's blessings in one unusual anthology. Here you will find stories that inspire, teach or simply amuse, each accompanied by a note discussing the lessons that can be drawn from it and why it is a particular rabbi's favorite. Perfect for reading aloud or alone, Three Times Chai makes a wonderful gift, a valuable resource for sermons, and a singular tool for promoting thoughtful conversation in the classroom.*

*There has never been—and will never be—another nightclub to rival the sheer glamour, energy, and wild creativity that was Studio 54. Now, in the first official book on the legendary club, co-owner Ian Schrager presents a spectacular volume brimming with star-studded photographs and personal stories from the greatest party of all time. From the moment it opened in 1977, Studio 54 celebrated spectacle and promised a never-ending parade of anything goes. Although it existed for only three years, it served as a catalyst that brought together some of the most famous and creative people in the world. It quickly became known for its celebrity guest list and uniquely chic clientele. From the cutting-edge lighting displays to its elaborate sets, it was the beginning of nightclub as performance art. Now, Studio 54 explores this cultural zeitgeist and gives us Schrager's personal firsthand account of what it was like to create and run the most famous nightclub of our age. With hundreds of photographs, many of which have never been seen before, of the celebrities and beautiful people and engaging stories and quotes from such cultural luminaries as Liza Minelli, David Geffen, Brooke Shields, Pat Cleveland, and Diane von Furstenberg, this exciting volume depicts the wild energy and glittering creativity of the era. One of the most important cultural landmarks of the twentieth century, Studio 54 continues to inspire with its legendary glamour. This exhilarating volume is a must-have for style and fashion aficionados today.*
