Physical Pharmaceutics

A swashbuckling tale set in the Caribbean at the time of the French Revolution, *Explosion in a Cathedral* focuses on Victor Hugues, a historical figure who led the naval assault to take back the island of Guadeloupe from the English at the beginning of the nineteenth century. In Carpentier's telling, this piratical character walks into the lives of the wealthy orphans Esteban and Sofia and casts them abruptly into the midst of the immense changes sweeping the world outside their Havana mansion.

The Theory and Practice of Industrial Pharmacy

Martin's *Physical Pharmacy and Pharmaceutical Sciences* is considered the most comprehensive text available on the application of the physical, chemical and biological principles in the pharmaceutical sciences. It helps students, teachers, researchers, and industrial pharmaceutical scientists use elements of biology, physics, and chemistry in their work and study. Since the first edition was published in 1960, the text has been and continues to be a required text for the core courses of Pharmaceutics, Drug Delivery, and Physical Pharmacy. The Sixth Edition features expanded content on drug delivery, solid oral dosage forms, pharmaceutical polymers and pharmaceutical biotechnology, and updated sections to cover advances in nanotechnology.
