his life is in grave danger, but his missing father may be able to help.

their life with a feline friend (or vice versa)."

While the mystery of the cat can never ultimately be defined, Michaels comes as close as possible to revealing its essence.

A cat is content to be a cat. A cat is not owned by anybody. A

cat imagines things about you, nothing you can know for sure. A cat reminds us that much in this world remains unknown. In his novels, stories, and essays, Leonard Michaels proved himself to be one of the most incisive observers of human behavior, but few

know that he was
every bit as
perspicacious a
chronicler of
America ' s favorite pet:
the domestic cat.
Elusive, elegant, and

humorous—much like
his subject—Michaels
gives us this
unfathomable animal
as we have never
quite seen it before,

and yet as we have always known it to be. Through a series of meditations, aphorisms, and anecdotes, along with original illustrations from Frances Lerner, A Cat is a both a compendium of feline behavior and a love letter to this marvelous creature.

How to Think
Like a Cat
The Trainable Cat

In this tender board
book, a kitten
practices the basics of

Get Free A Cat Is A Cat (Not A Dog!)

feline behavior over the course of a day. A single word of text per spread teaches readers "how to be a cat"--how to stretch, clean, pounce, feast--while the striking paper cuts illustrate the kitten's attempts to imitate an adult cat's mastery of each skill. At times, the kitten triumphantly

Get Free A Cat Is A Cat (Not A Dog!)

succeeds, and at other times the kitten struggles, in vignettes that range from whimsical to profound. A celebration of all things feline, *How to Be a Cat* also tells a universal story of mastering life skills, and of the loving relationship between

parent and child.

dawn of civilization, felines have prowled alongside mankind as they expanded their territory and spread the myth of human greatness. And today, cats are peddled on social media as silly creatures here to amuse humans with their antics. But this is an absurd, self-

centered fantasy. The true history of felines is one of heroism, love, tragedy, sacrifice, and gravitas. Not entirely convinced? Well, get ready, because Baba the Cat is here to set the record straight. Spanning almost every continent and thousands—yes,

Even people who

and have good

better insist
that cats are
aloof and

uninterested in relating to humans. Janet and Steven Alger contend that the anti-social cat is a myth; cats form close bonds with humans and with each other. In the potentially chaotic environment of a

shelter that houses dozens of uncaged cats, they reveal a sense of self and build a culture—a shared set of rules, roles, and expectations that organizes their world and assimilates newcomers. As

volunteers in a local cat shelter for eleven years, the Algiers came to realize that despite the frequency of new arrivals and adoptions, the social world of the shelter remained quite stable and

acific. They
saw even feral
cats adapt to
interaction with
humans and
develop
friendships with
other cats. They
saw established
residents take
roles as
welcomers and
rules enforcers.
That is, they

Watching movies every night at home with his

how frequently
cats turned up

their looks

film studies.

lighting, and editing.

Subsequent chapters examine the contexts in which films are made, exhibited, and viewed.

Miyao covers the major theoretical and methodological concepts of film studies—auteuris

fundamental
questions. Who
