The cards never lie...and this time, the truth is deadly. Four months into being a not-so-platonic couple, Selena Marx and Calvin Standingbear are getting into the spirit of Halloween in Globe, Arizona, complete with elaborate costumes. Selena's even agreed — a bit hesitantly — to do a limited number of Tarot readings for her best friend Josie's blowout Halloween bash. The party is going spookily well...until Selena's reading for high school principal Danny Ortega. The cards don't hold back about his less-than-savory dalliances, predicting that karma won't be kind. In fact, karma strikes back before the party's even over — as Danny drops dead. When Danny's ghost asks Selena to uncover who killed him, she has no choice but to dig

This novel, destined to be a libertarian classic on the level of Atlas Shrugged, challenges you to reconsider what youve always known. Evolution is an unchallengeable scientific fact, isnt it? Not in this noveland not in this

world, either. If evolution is a scientific fact, wouldn't we have lots of fossils of intermediate life forms by now? Take the classic idiocy we were all taught, that dolphins and whales are "mammals that returned to the sea." Really? If mammals "returned to the sea," wouldn't you expect to find at least one fossil of a creature half way between a whale and a land mammal? But try to picture what such a poor creature would look like, and you realize such a thing couldn't be viable. A horse with fins? A dolphin with legs? Whose kidding whom? Species don't change form gradually over time, as we were all taught, but suddenly and dramatically. This might happen some day, even to our own species. What if women the

world over started having babies who were different in appearance, in abilities and in the way they think? Would such a new species be mankind's salvation or mankind's destroyer? This is the world of the near future, a world in which a great Transfiguration—a complete change in life forms—has occurred. But before I tell you any more about the setting of the novel, consider where you learned about how the world works: the public schools. Did it ever strike you that, when children loathe school, when a five year old cries and screams at the prospect of leaving home and has to be literally dragged off to school like a lamb to the slaughter—that he may be trying to tell you something? It may be that

children understand the true nature of school much more profoundly than adults. For public schools, you see, are not so much centers of learning as centers of indoctrination. The lessons learned in public schools are obedience to authority and subservience to the group. Children, when they are young, resist this with all the rebellion they can muster. We, as adults, accept it. But suppose our new humanoid species called the Kethdont think the way most of us do? Suppose they resisted all the attempts to indoctrinate them? Oh, they pretend to go along with submission to authority, but at heart, they're rebels. They develop their abilities, they broaden their minds, and they wait. Like the Keth, the

Founding Fathers were rebels at heart. Unfortunately, their ingenious system for restraining tyrants constitutional law has been eroded over time. Today, we are only a crisis away from having full tyranny restored. Great thinkers like the founding fathers are rebels in the deepest sense. They are the states worst nightmare. That nightmare is one in which people understand things as they are, stand up, and say no. The usual reaction to free people saying no is total subjugation, as when the South tried to go its own way. But usually, the state tries to prevent such actions by using a thousand ingenious mind tricks. Like Patriotism: the unquestioning support for your rulers wishes. Or

Service to Country: the willingness to march off to far corners of the globe to be blown to bits in service to democracy. The Keth, being gifted in understanding, don't fall for such games. Not even the most common trick: believing you can be better off by accepting stolen loot from the government, like a dog panting for a few more scraps from his master. The Keth pretend to go along, waiting for their chance. Most people, of course, fall for these old games, but if you've read this far, you're probably one of the rare ones who don't. The story of Transfiguration is the story of breaking free. You will read how the Keth are rounded up and sent to specialized schools to make them

This potion book is completed with over 24 potions, complete with instructions, ingredients and spells. This isn't just another blank book to sit on your shelf but something you and your friends will want to read and study for years to come.
