

A Matter Of Trust: A Christian Romance (BlackThorpe Security Book 3)

Make your school soar by escalating trust between teachers, students, and families Trust is an essential element in all healthy relationships, and the relationships that exist in your school are no different. How can your school leaders or teachers cultivate trust? How can your institution maintain trust once it is established? These are the questions addressed and answered in Trust Matters: Leadership for Successful Schools, 2nd Edition. The book delves into the helpful research that has been conducted on the topic of trust in school. Although rich with research data, Trust Matters also contains practical advice and strategies ready to be implemented. This second edition expands upon the role of trust between teachers and students, teachers and administrators, schools and families. Trust Matters: Leadership for Successful Schools also covers a range of sub-topics relevant to trust in school. All chapters in the text have questions for reflection and discussion. Engaging chapters such as "Teachers Trust One Another" and "Fostering Trust with Students" have thought-provoking trust-building questions and activities you can use in the classroom or in faculty meetings. This valuable resource: Examines ways to cultivate trust Shares techniques and practices to help maintain trust Advises leaders of ways to include families in the school's circle of trust Addresses the by-products of broken trust and how to restore it With suspicion being the new norm within schools today, Trust Matters is the book your school needs to help it rise above. It shows just how much trust matters in all school relationships—administrator to teacher; teacher to student; school to family—and in all successful institutions.

Stanford University is out of reach for most Colorado teens in 1939. The opportunity to gain an education there is beyond nine-year-old Dena Caulter's wildest rural dreams. Yet Uncle Walter, a professor at the prestigious university, extends an open door to his home as well as the Howard Hughes Aeronautics program, and Dena is more than willing to spread her wings. Upon arriving in California, Dena feels her rustic roots showing but easily adapts to a more sophisticated lifestyle alongside her cousins, Emily and Stuart. Life may be offering opportunities and fun Dena never thought existed, but her naive world is about to get a huge dose of reality. Uncle Walter is chosen to work with Howard Hughes in Virginia as part of an elite, top secret team working on NA technology, and the move threatens to break up the family with the mention of an unfathomable divorce. Talk of war also breaks up the previously pleasant conversations and laughter that once provided the soundtrack for gatherings between Dena and her friends. With opinions voiced, she worries that the boy she secretly has a crush on—Clay—will be whisked away before she gets a chance to truly know him. Even her beloved brother wants to join a war effort she has yet to understand. Studying blueprints no longer offers the intriguing escape it once held for Dena. Struggling to find balance in a life moving faster than one of Mr. Hughes' airplanes, Dena must hold on to the Christian values her mother always instilled in her youth, especially when the bright future for her friends and family begins to dim under the threat of war and A Matter of Trust.

This book is a sequel to Becky Barker's book, CHAMELEONS. After 22 years of nearly virtuous existence, Katlyn Sanders shocked herself and the entire community of Kingston by moving in with Jared King. The decision had been momentous for someone who'd never challenged the rules of small-town conservatism. All that changed when she fell in love with the town's wealthiest bad boy. The real fireworks began when she left him and moved home again. Jared was determined to have her back on his terms. She had her own terms. Neither of them thought a compromise was possible, but they soon learned there were things more important than independence and pride. "Ms. Barker has penned a fabulous romance that will touch your heart... a definite keeper." Coffeetime Romance Western romance, cowboy, sexy, contemporary, sensual

The Life of a confederate family during the Civil War and their struggle for survival. The raging Civil War has created a stage on which true character of heart will be tried and revealed. In this unfolding drama of conflict, the Hastings family struggles between life and death, loyalty and disloyalty, hope for a future and the dark knowledge that life will never be the same. These are days in which each decision will bring honor or dishonor, trust or distrust, truth or deception. Finally reunited, Salina and Jeremy find their relationship sorely tried by questionable loyalties, misplaced doubts, miscommunication, and deliberate lies as they weather the War Between the States. Trust in God and in one another is the only way their future together can withstand the turmoil of this encounter.

A MATTER OF TRUST: THE GUIDE TO GESTATIONAL SURROGACY by Gail Dutton. (Gestational surrogacy: Surrogate mother carries the genetic child of another couple). This is the only guidebook to gestational surrogacy. Learn how couples save time, money & their sanity. * Surrogacy programs: What they offer & how to choose one; * Surrogates: Questions to ask prospective surrogates; * Medical concerns: What to expect, side-effects & embryo cryopreservation; * Expenses: Detailed fees & how to save money; * Contracts: "Must-include" clauses; * Laws: U. S. state surrogacy laws & laws in 12 other nations; * Goodbye: Ending the surrogacy partnership. WHAT PEOPLE ARE SAYING: "A MATTER OF TRUST has insights & information that you won't find anywhere else. If you're thinking about building your family through gestational surrogacy, put it on your must-read list."--Shirley Zager, Director, the Organization of Parents Through Surrogacy. "It's a fantastic book! I would love for everyone going through surrogacy to read this."--Cristie Montgomery, Director, Surrogate Parenting Services. ISBN: 0-9655966-0-5. U. S. \$21.95. Internet: <http://www.clouds-publishing.com>. Available April 1997 from: Clouds Publishing, 5319 University Dr., #348, Irvine, CA 92612-2935. Phone: (714) 786-4606.

This study examines key issues related to trust, reason and reciprocity.

After his mother leaves the family, Brad involves his younger brother in a plan to get her to come home and deals with his feelings of rejection by taking care of a newborn kitten.

Since his wife was shot and killed, Max just goes through the motions of life, living for his daughter and his mother. Because God let his wife die, he no longer trusts Him. By chance, he bumps into a former college girlfriend whose faith is as strong as his faith is nonexistent. The more they become reacquainted, the more he realizes that their differences are too deep to ignore. During his dilemma, his daughter meets a doctor who is quite taken with her, and his mother becomes interested in an older gentleman. Is there anything that will make Max once again believe in God?

Trust Within Reason

"The Long Way Home is Robin Pilcher at his best. I devoured every word of this masterful storyteller."—Debbie Macomber, #1 New York Times bestselling author In the vein of Maeve Binchy, Rosamunde Pilcher, and Nicholas Sparks, New York Times bestselling author Robin Pilcher returns with his most enchanting novel yet, filled with captivating twists and turns of heart. When Claire Barclay receives news that her beloved stepfather has had a stroke, she's more than a little shaken. Leo is her last real relative, and his own children rarely check up on the old man. Claire and her husband, Art, leave New York and fly back to Scotland to care for him during the summer. Their visit makes clear that Leo is no longer capable of living on his own, but he is determined to stay in his beloved old house. Art comes up with the idea of turning the place into a conference center, thinking they could purchase the place from Leo and build him a cottage on the property. But the situation is much more complicated than it seems. Claire's old flame, Jonas Fairwether, has become Leo's caretaker and trusted confidant. Though Claire distrusts Jonas's motives, Leo chooses to take his advice to put the house up for public auction rather than sell directly to Art and Claire. Claire is immediately suspicious, and even more so when she finds out that another application has been submitted to develop the property. Does Jonas Fairwether want to knock down the Leo's house and build a development? It looks like whoever is behind the plan is being driven by financial gain, but there may be an even stronger motive. The Long Way Home will keep readers on the edge of their seats. This is a masterful novel from a master storyteller.

**Engaging Pride and Prejudice 'what-if' story with a hint of intrigue and a touch of romance ... A young bride he recently married to prevent a scandal. A mysterious, wayward aunt he never really knew. A woefully misguided sister he removed from harm's way. Undermining Darcy's relationships with the three women in his life is a most disturbing bombshell about his nemesis, George Wickham. **Scandal, Secrets, Deceptions ... From the marble trading floors of Wall Street to the dirt floor of a microfinance lender in rural Sumatra, finance touches everybody's lives. From small personal loans to collateralised debt obligations, it promises solutions for a better, more prosperous future. But not much in life is guaranteed, and financial outcomes may not match consumer expectations. When trust between practitioners and their clients is undermined it threatens the very fabric of our financial system. The result can be personal disappointment, but the financial crisis of 2007-08 highlighted how we can all be affected when economies are jeopardised by financial mismanagement. A Matter of Trust explores how the finance sector can stand as a true profession and provides a practical guide to make everyday business decisions in an ethically sound way.

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

India-US Relations from Truman to Trump

The Leap

Selling Ideas in a World of Skeptics

Why the social character of scientific knowledge makes it trustworthy Are doctors right when they tell us vaccines are safe? Should we take climate experts at their word when they warn us about the perils of global warming? Why should we trust science when so many of our political leaders don't? Naomi Oreskes offers a bold and compelling defense of science, revealing why the social character of scientific knowledge is its greatest strength—and the greatest reason we can trust it. Tracing the history and philosophy of science from the late nineteenth century to today, this timely and provocative book features a new preface by Oreskes and critical responses by climate experts Ottmar Edenhofer and Martin

Kowarsch, political scientist Jon Krosnick, philosopher of science Marc Lange, and science historian Susan Lindee, as well as a foreword by political theorist Stephen Macedo.

In this 2002 book, Onora O'Neill investigates sources of deception in our society and re-examines questions of press freedom.

A ground-breaking exploration of the changing nature of trust and how to bridge the gap from where you are to where you need to be. Trust is the most powerful force underlying the success of every business. Yet it can be shattered in an instant, with a devastating impact on a company's market cap and reputation. How to build and sustain trust requires fresh insight into why customers, employees, community members, and investors decide whether an organization can be trusted. Based on two decades of research and illustrated through vivid storytelling, Sandra J. Sucher and Shalene Gupta examine the economic impact of trust and the science behind it, and conclusively prove that trust is built from the inside out. Trust emerges from a company being the "real deal": creating products and services that work, having good intentions, treating people fairly, and taking responsibility for all the impacts an organization creates, whether intended or not. When trust is in the room, great things can happen. Sucher and Gupta's innovative foundation for executing the elements of trust—competence, motives, means, impact—explains how trust can be woven into the day-to-day and the long term. Most importantly, even when lost, trust can be regained, as illustrated through their accounts of companies across the globe that pull themselves out of scandal and corruption by rebuilding the vital elements of trust.

Have economists neglected trust? The economy is fundamentally a network of relationships built on mutual expectations. More than that, trust is the glue that holds civilization together. Every time we interact with another person—to make a purchase, work on a project, or share a living space—we rely on trust. Institutions and relationships function because people place confidence in them. Retailers seek to become trusted brands; employers put their trust in their employees; and democracy works only when we trust our government. Benjamin Ho reveals the surprising importance of trust to how we understand our day-to-day economic lives. Starting with the earliest societies and proceeding through the evolution of the modern economy, he explores its role across an astonishing range of institutions and practices. From contracts and banking to blockchain and the sharing economy to health care and climate change, Ho shows how trust shapes the workings of the world. He provides an accessible account of how economists have applied the mathematical tools of game theory and the experimental methods of behavioral economics to bring rigor to understanding trust. Bringing together insights from decades of research in an approachable format, Why Trust Matters shows how a concept that we rarely associate with the discipline of economics is central to the social systems that govern our lives.

The Power of Trust

A Mia Quinn Mystery

A Novel About Faith

Matter of Trust

A Matter of Trust Townsend Press

In 1950s London, Tom Knelston is charismatic, charming, with a passion for politics and reform. He is a man with ambition—and someone to watch. His wife Alice, a former nurse, shares his ideals. It seems they are the perfect match. Then, out of the blue, Tom meets an old childhood acquaintance, the beautiful and unhappily married Diana Southcott, a fashion model. In many ways, she is everything Tom fights against, but she is also irresistible and so, flirting with danger, they embark on an affair that is potentially damaging to both. And when his child becomes ill, Tom is forced to make decisions about his principles, his career, his marriage, and, most of all, his love for his child. A Question of Trust is a vintage Penny Vincenzi novel: rich in characterization, life-changing decisions, love, desire, and conflict.

Twelve years is a long time to hide a secret...or two. Forced from his self-imposed exile, Doctor Morgan Cavanaugh must face his demons and confront the girl he left behind. Becca Walters became a woman in that time with life-altering revelations of her own. Becca fought her way to respectability, but it came at a cost. With Morgan's return she must face the consequences of long-ago decisions, made without his knowledge. Together they have to face the past in order to make a future. A moving contemporary romance about facing past regrets and the search for belonging from a fabulous new talent. Perfect reading for anyone who loves Mandy Magro.

The third novel in the Bluford Series.

The Trust Revolution

Book One

A Matter of Trust

A Matter Of Trust

The SPEED of Trust

What to Say, How to Say It, Why It Matters If you're trying to sell something—whether it's a product, a service, or an idea—you are facing a new era of consumers who listen less and question more. The Language of Trust is for anyone who must sell ideas, products, services, or even themselves to a public that just doesn't want to hear it. Based on pioneering consumer research, The Language of Trust shows you how to regain the confidence of your clients and customers and communicate with them on their terms. You'll learn what words to use, what words to lose, and how to structure your message to overcome skepticism and build and keep the trust of your audience.

The difference between war and peace can be a matter of trust. States that trust each other can cooperate and remain at peace. States that mistrust each other enough can wage preventive wars, attacking now in fear that the other side will attack in the future. In this groundbreaking book, Andrew Kydd develops a theory of trust in international relations and applies it to the Cold War. Grounded in a realist tradition but arriving at conclusions very different from current realist approaches, this theory is the first systematic game theoretic approach to trust in international relations, and is also the first to explicitly consider how we as external observers should make inferences about the trustworthiness of states. Kydd makes three major claims. First, while trustworthy states may enter conflict, when we see conflict we should become more convinced that the states involved are untrustworthy. Second, strong states, traditionally thought to promote cooperation, can do so only if they are relatively trustworthy. Third, even states that strongly mistrust each other can reassure each other and cooperate provided they are trustworthy. The book's historical

chapters focus on the growing mistrust at the beginning of the Cold War. Contrary to the common view that both sides were willing to compromise but failed because of mistrust, Kydd argues that most of the mistrust in the Cold War was justified, because the Soviets were not trustworthy.

In a seedy restaurant in Brooklyn, Michael Adamson saves David Silver's life. They become fast friends and David introduces Michael to the world of Torah Judaism. Over time, the two friends stop seeing eye-to-eye on major issues and their friendship dissolves, but not without major repercussions... The years pass yet the seeds of anger and lack of trust were already sown. Independently, Michael and David enlist in the US army and find themselves in Iraq, fighting the war against terrorism. But whose side is David really on? Is he friend or foe? Once he finishes his army service, Michael answers that burning question and decides to take a stand. Meanwhile his sister Grace is busy grappling with a Silver of her own, David's sister and her supervisor, Mindy. And considering Mindy's traumatic past, that isn't an easy task. --

Trust changes everything. It may be the most powerful force in our lives. Every belief you hold close, every connection you make, every risk you are willing to take and every choice you make are all matters of trust. You think you are free to choose who you love, who you hate, what you believe and who you vote for? Think again. The only people and organizations that seem to understand the central importance of trust are in the fields of advertising, marketing, public relations and politics. And they are all in the business of manipulating your trust rather than nurturing it. For them it is a commodity; for the rest of us it should be gold. Unfortunately, very few seem to appreciate this reality. The promoters and marketers see trust as the reward; the rest of us see it as a byproduct of some other reward. In *It's a Matter of Trust*, Lewin takes us on a deeply personal journey as he cleverly unpacks this powerful subject. Using his Wall Street background, he leans on his investing experiences to help readers learn to better navigate risk, improve decision-making, and elevate their capacity to trust.

A Novel

Why Trust Science?

A Matter of Trust (Montana Rescue Book #3)

Connecting Teachers and Learners in the Early Childhood Classroom

It's a Matter of Trust

'I thought India was pretty jammed with poor people and cows wandering around the streets, witch doctors and people sitting on hot coals and bathing in the Ganges, but I did not realize that anybody thought it was important.' - PRESIDENT TRUMAN TO AMBASSADOR CHESTER BOWLES, 1951 From Truman's remark to now, it has been a long journey. India and the US, which share common values and should have been friends, found themselves caught in a dysfunctional cycle of resentment and mistrust for the first few decades following Indian independence. In *A Matter of Trust*, author Meenakshi Ahamed reveals the personal prejudices and insecurities of the leaders, and the political imperatives, that so often cast a shadow over their relationship. The cycle began with India's first prime minister, Jawaharlal Nehru, who viewed Americans as naive and insular, but it was under Indira Gandhi that India entered the darkest phase of its relations with the US. President Truman decided Nehru was a communist, and the White House tapes reveal Nixon's hatred towards Mrs Gandhi and Indians. It was only after India undertook major economic reforms in the 1990s that the relationship improved. The transformation occurred when President George W. Bush signed the historic nuclear deal in 2008 with Prime Minister Manmohan Singh. Meenakshi Ahamed draws on a unique trove of presidential papers, newly declassified documents, memoirs and interviews with officials directly involved in events on both sides to put together this illuminating account of their relationship that has far-reaching implications for the changing global political landscape.

'Meenakshi Ahamed has brought us a brilliant, important, sparkling and definitive study of a part of American history that is growing more crucial by the day. A Matter of Trust is essential reading at a moment when the United States and India are all the more central to each other, and when valiant democracies around the world are in danger.' -- Michael Beschloss, New York Times bestselling author and NBC News Presidential Historian *'Meenakshi Ahamed has, brilliantly, combined her talent as an accomplished journalist with her assiduous historical research to tell the tale of two great democracies. She brings to life the leaders in both countries, with their views and prejudices. A masterpiece.'* -- Strobe Talbott, Former Deputy Secretary of State and President of The Brookings Institution *'Meenakshi Ahamed has given us an authentic, thoughtful and accessible account of a relationship characterized by paradox and progress. She tells the tale of the highs and lows of that relationship in all its drama, with strong and idiosyncratic personalities on both sides. Today's transformed India-US relations could determine the future not only of one-fifth of humanity but of the Asian Century. This is a book with a serious message- one to read and savour.'* -- Shivshankar Menon, Former National Security Advisor, Ambassador to China and Foreign Secretary *'In this world of growing great power competition, the Indian-American relationship has become one of central, strategic importance to the two nations. In her history of the relationship, Meena Ahamed has given us a timely, lively and captivating account of the road India and the United States have travelled and a compelling insight into what lies ahead.'* -- Frank G. Wisner, Former United States Ambassador to India *'Meenakshi Ahamed's labour of love is a real tour de force covering the long tortuous history of the often-troubled relationship of the world's two largest democracies since India's independence. The book is at once scholarly, deeply researched and yet down to earth. It brings to life the prickly personalities on both sides, and their sensitivities, that often bedevilled the evolving bilateral relationship. As a new era of competitive geopolitics pits West versus East, what lies ahead for this*

unusual relationship? To prepare ourselves this book is a must-read.' -- Dr Rakesh Mohan, Former Deputy Governor Reserve Bank of India

The second novel in the Bluford Series.

This story continues the tale of the Wills family. Darcy learns that Hakeem, her first boyfriend, is moving out of the state. Then her grandmother's health declines and a mysterious new person comes into her life.

When she investigates the death of her best friend and coworker, Colleen, and its connections to the murder of another Seattle prosecutor four years earlier, Mia Quinn finds that many people could have wanted Colleen dead.

The BBC Reith Lectures 2002

The One Thing That Changes Everything

Why Trust Matters

The Science of Trust and Why It Matters

When life is murder, who can you trust? One minute Mia Quinn is in her basement, chatting on the phone with a colleague at the prosecutor's office. The next minute she hears a gunshot over the line, and Mia listens in horror as her colleague and friend Colleen bleeds to death. Mia's a natural for heading up the murder investigation, but these days it's all she can do to hold her life together. As a new widow with a pile of debts, a troubled teenaged son, and a four-year-old who wakes up screaming at night, she needs more time with her family, not less—and working Colleen's case will be especially demanding. But Colleen was her friend, and she needs to keep her job. So Mia reluctantly teams up with detective Charlie Carlson to investigate. But the deeper they dig, the more complications unfold—even the unsettling possibility that someone may be coming after her. Lis Wiehl's signature plot twists and relatable characters shine in this absorbing series debut . . . with an intriguing cameo from her best-selling Triple Threat series. "A stunning crime series debut . . . Smart, suspenseful, and full of twists that only an insider like Wiehl could pull off ." —Linda Fairstein, New York Times best-selling author

In this sexy and dramatic contemporary romance, A MATTER OF TRUST, if Ben Wilde is sure of one thing, it's that Carrie Richardson is trouble. (Guest appearance by Logan Wilde.) The name Ben Wilde means something in the oil and gas industry. Admired as one of the top ten bachelors in Idaho, he's a man who has it all...except when it comes to love. That is, until he meets Carrie Richardson: an environmentalist, a fiery blond beauty, and an absolute thorn in his side. After Ben arrives in her hometown to give a presentation on a pipeline project that will provide jobs and clean energy (with an innovative, safe approach), Carrie spits on him! She's not buying it, and Ben soon learns that she is none other than the spokesperson for the group that has aggravated him throughout the entire project. The advice about keeping your friends close and your enemies closer backfires on Ben and Carrie, though, because the fact is that they want each other badly. However, Carrie can't let her community down—and Ben has a job to do. Explains how trust is a key catalyst for personal and organizational success in the twenty-first century, in a guide for businesspeople that demonstrates how to inspire trust while overcoming bureaucratic obstacles.

Debra Latham followed her instructions closely when she was persuaded by her private detective sister to keep a watch on a suspicious client. But no instructions told her how to cope with an angry man who believed she was spying on him, or how to defend herself against his impassioned kisses. Marsh Graham turned out to be completely innocent and, embarrassingly for Debra, he was also her new boss. Not exactly the most auspicious of starts to a working relationship. But another form of a more personal relationship was what Marsh had made clear he wanted. They shared many common interests, after all, including a desire to help local children in need. But Debra had serious reasons for never wanting to get involved.... Originally published in 1992.

Leadership for Successful Schools

The TOOP Project

Champion backcountry snowboarder Gage Watson has left the limelight behind after the death of one of his fans. After being sued for negligence and stripped of his sponsorships, he's remade his life as a ski patrol in Montana's rugged mountains, as well as serving on the PEAK Rescue team. But he can't seem to find his footing--or forget the woman he loved, who betrayed him. Senator and former attorney Ella Blair spends much of her time in the limelight as the second-youngest senator in the country. But she has a secret--one that cost Gage his career. More than anything, she wants to atone for her betrayal of him in the courtroom and find a way to help him put his career back on track. When Ella's brother goes missing on one of Glacier National Park's most dangerous peaks, Gage and his team are called in for the rescue. But Gage isn't so sure he wants to help the woman who destroyed his life. More, when she insists on joining the search, he'll have to keep her safe while finding her reckless brother, a recipe for disaster when a snowstorm hits the mountain. But old sparks relight as they search for the missing snowboarder--and suddenly, they are faced with emotions neither can deny. But when Ella's secret is revealed, can they learn to trust each other--even when disaster happens again?

Explores the potential mutual benefits of prioritizing trust between the public and the institutions it relies on, documenting the author's visit to a corrupt Latin American city and his trust-related scientific experiments.

Nowhere Town, typical of all small towns on the earth realm, had its differences. Paranoia ran the town, especially with Big Brother Murphy controlling it. He delighted in painting with words chaos throughout

the town by banishing both the Bikers Guild and the Cosmos Underground while controlling the townspeople's food supply. Murphy, a nonhuman, had a knack for controlling the weather to meet his needs. It was eating dessert to him as he continued poking at the town's human frailty. His project was to create a clone town. Humans wouldn't care. He would make war clones. They loved fighting. The blueprint was there, and it was time to implement it. The day he chose, he believed nothing could stop him, until he caught sight of the two Sapphire Stars from an opposing realm—his archenemy. Would they bring destruction to Murphy? What about the humans living there? A town once filled with hate and greed now stood amid a blizzard. The sounds of songs wrote in the 1960s seemed to advance those of the Sapphire Stars' movement. How do they know that music, the music of love and peace? Love and peace, an echo from decades long past. The hippie movement and Woodstock—now a memory soon to fade completely, if Murphy wins. Would the humans join the fight for love and peace, or escape in the shadows of their life? A Question of Trust aptly points out [that] communications must follow meaningful actions' Richard Edelman, President and CEO, Edelman 'A timely and useful piece of work' Madan Bahal Why has communications become one of the core functions of an organization? How can a CEO use it to their company's best advantage? Gayatri Rath and Paarul Chand bring over fifty years of combined experience in corporate communications and the media industry to this essential CEO's handbook to answer these questions and more. A Question of Trust not only emphasizes why corporate communications is an integral part of any organization but also how it can be marshalled for trust-building and growing brand value, even in times of unprecedented crises such as the Covid-19 pandemic. Packed with data and valuable insights from global corporate communications leaders, this book is a go-to for CEOs and business leaders looking to consolidate their brands and cultivate trust.
