"The Motivation Manifesto is a poetic and powerful call to reclaim our lives and find our own personal freedom. It's a triumphant work that transcends the title, lifting the reader from mere motivation into a soaringly purposeful and meaningful life. I love this book." —Paulo Coelho The Motivation Manifesto is a pulsing, articulate, ferocious call to claim our personal World-renowned high performance trainer Brendon Burchard reveals that the main motive of humankind is the pursuit of greater Personal Freedom. We desire the grand liberties of choice—time freedom, emotional freedom, social freedom, financial freedom, spiritual freedom. Only two enemies stand in our way: an external enemy, defined as the social oppression of who we are by the mediocre masses, and an internal enemy, a sort of self-oppression caused by our own doubt and fear. The march to Personal Freedom, Burchard argues, can be won only by declaring our intent and independence, stepping into our personal power, and battling through self-doubt and the distractions of the day until full victory is won. Recalling the revolutionist voices of the past that chose freedom over tyranny, Burchard—at times poetic yet always fierce—motivates us to free ourselves from fear and take back our lives once and for all.

Through powerful practices, compelling stories and extensive research, The Mindful Millionaire meets you wherever you are in your money journey by exploring: *Where your current money habits come from and why you feel the way you do about money and success. *How to break the cycle of fear, grief, and shame that often surrounds your money habits. *How to write a new money story that inspires joy, satisfaction and prosperity. *Why wealth building isn’t just about positive thinking and “manifesting” things into reality. *How to stop financial self-sabotage and procrastination. *Where practical financial advice misses the mark. *The most effective tools for changing how you think and feel about money. *What true financial independence looks like and how to discover the millionaire within. “This book helps you realize your intrinsic value so your financial decisions reflect what matters most to you. This is the key to true financial freedom.”—Ivan R. Misner, Ph.D., Founder of BNI and New York Times bestselling author of Truth or Delusion? Busting Networking’s Biggest Myths “If you've read other finance books and still felt empty, this is the book you've been waiting for.”—Joe Saul-Sehy, Creator and Co-Host, Stacking Benjamins Podcast

For the first time, a Neuroscientist and Senior Lecturer at MIT reveals the surprising science that supports The Law of Attraction as an effective tool for self-discovery and offers a guide to discovering your authentic self to access your best life now. Self-help books like The Secret show us that if we can tap into "The Law of Attraction," we have the power to change our destiny simply by reshaping our mind. Millions of people have used the ancient systems of manifestation and visualization to find health, success, love, friendship, wealth, and more. But does the "Law of Attraction" actually work? And more important, is this kind of life-changing philosophy within reach for everyone, even the most skeptical among us? As Dr. Tara Swart, psychiatrist, neuroscientist, and Senior Lecturer at MIT shows us in The Source, if we can strip away our skepticism, these ancient tools of manifestation and visualization are fundamentally powerful and incredibly effective at freeing us of self-limiting behaviors and propelling us toward our truest, most authentic selves. Swart reveals how and why these systems actually work by offering the latest breakthroughs in neuroscience and behavioral psychology, including lessons in neuroplasticity, magnetism, emotional and logical thinking, and even hydration, self-care, and relaxation. Next, she describes her own journey from skeptic to believer, and guides readers through the scientific breakthroughs and personal revelations that changed her from an unhappy, close-minded, and disconnected woman wanting more from life, to a successful entrepreneur living with confidence, purpose, and joy. The truth is, most of the things we want--health, happiness, wealth, love--are governed by our ability to think, feel, and act--in other words, by our brain. Dr. Swart combines the insights and inspiration of The Secret with the practical lessons of The Master Key System to help a new generation fulfill their dreams. The Source is a rigorous, proven toolkit for unlocking our minds--and reaching our fullest potential.

There are a lot of gratitude books out there, but none quite like this, which comes with actual gifts: a sign, a totem, an answer, and a present from the natural world! Most of us believe we can think our way out of problems. We believe that if we just exert enough mental effort, we will pull up a solution to whatever ails us. And that has gotten us nowhere. So in this book, we're going to forget thinking . . . and start thanking. This playful but easy practice has the power to reconnect us with our true nature. When we observe the world from a place of gratitude, when we use our attention to spot beauty and gaze at wonder, we tune in to a frequency of magic. This joy channel is the most powerful on the planet and has the capability to radically change our lives. Brazen gratitude provides a portal—an entry point—straight into the heart of the field of infinite possibilities described in Pam Grout’s bestseller E-Squared. It enables you to align with the spaciousness of the cosmic energy field, the spaciousness that makes your life a love-shining prism. Thanking puts you on an energetic frequency—a vibration—that calls in miracles and will make you rich (in spirit), happy, and madly in love (with life). This book also offers a different perspective on abundance, which is not just financial capital. It shows readers how to grow and expand creative capital, social capital, rip-roaring good times capital, and much, much more!

Chicken Soup for the African American Woman's Soul is a rich collection of stories that truly celebrate the mountaintops and share the valleys of the African American woman's experience; highlighting her moments of strength, as well as her struggles.

Narrative of the Life of Frederick Douglass First published in 1845, Narrative of the Life of Frederick Douglass is an eye-opening depiction of American slavery. Part autobiography, part human-rights treatise, it describes the everyday horrors inflicted on captive laborers, as well as the strength and courage needed to survive. Narrative of the Life of Frederick Douglass Born into slavery on a Maryland plantation in 1818, Frederick Douglass spent years secretly teaching himself to read and write—a crime for which he risked life and limb. After two failed escapes, Douglass finally, blessedly boarded a train in 1838 that would eventually lead him to New York City and freedom. Narrative of the Life of Frederick Douglass Few books have done more to change America’s notion of African Americans than this seminal work. Beyond its historical and social relevancy, it is admired today for its gripping stories, the intensity of spirit, and heartfelt humanity. Narrative of the Life of Frederick Douglass This ebook has been professionally proofread to ensure accuracy and readability on all devices. Narrative of the Life of Frederick Douglass Born into a life of bondage, Frederick Douglass secretly taught himself to read and write. It was a crime punishable by death, but it resulted in one of the most eloquent indictments of slavery ever recorded. His gripping narrative takes us into the fields, cabins, and manors of pre-Civil War plantations in the South and reveals the daily terrors he suffered. Narrative of the Life of Frederick Douglass Written more than a century and a half ago by a Black man who went on to become a famous orator, U.S. minister to Haiti, and leader of his people, this timeless classic still speaks directly to our age. It is a record of savagery and inhumanity that goes far to explain why America still suffers from the great injustices of the past. Narrative of the Life of Frederick Douglass

As a botanist, Robin Wall Kimmerer has been trained to ask questions of nature with the tools of science. As a member of the Citizen Potawatomi Nation, she embraces the notion that plants and animals are our oldest teachers. In Braiding Sweetgrass, Kimmerer brings these two lenses of knowledge together to take us on “ a journey that is every bit as mythic as it is scientific, as sacred as it is historical, as clever as it is wise ” (Elizabeth Gilbert). Drawing on her life as an indigenous scientist, and as a woman, Kimmerer shows how other living beings—asters and goldenrod, strawberries and squash, salamanders, algae, and sweetgrass—offer us gifts and lessons, even if we’ve forgotten how to hear their voices. In reflections that range from the creation of Turtle Island to the forces that threaten its flourishing today, she circles toward a central argument: that the awakening of ecological consciousness requires the acknowledgment and celebration of our reciprocal relationship with the rest of the living world. For only when we can hear the languages of other beings will we be capable of understanding the generosity of the earth, and learn to give our own gifts in return.

Virgil weaves these fragments into a powerful myth about the founding of Rome in The Aeneid. Aeneas travels from his native Troy to Italy then wages victorious war upon the Latins.

No other time-honored spiritual practice is as immediate, raw, and engaged with Scripture as writing—responding to God—in the margins of the Bible. Composers like Bach to theologians like Barth, botanists and saints—all have written their thoughts directly in their Bibles. In doing so they engaged their fullest selves with our most significant text. Some people have lived with Scripture all their lives and yet feel estranged from it. This book inspires a new encounter with "the living Word"—and jump-starts a deep, creative, and hands-on approach to reading Scripture. As you sit, with pencil, pen, crayon, or marker in hand and Bible in lap, at whatever edges of life you are living within, now that invitation is yours. The creative practice of writing in the margins creates a divine conversation that transforms and guides. Meet God in the margins. Let God shape your character from the living interaction on the pages of your Bible. Writing in the Margins is a book about making connections on the pages of your Bible—and introduces a devotional and scriptural path of engagement that is life-changing.

In this pivotal book, the captivating and kinetic images of noted photographer Eric Waters are paired with a collection of insightful essays by preeminent authors and cultural leaders to offer the first complete look at the Social, Aid and Pleasure Club (SAPC) parade culture in New Or-leans. Ranging from ideological approaches to the contributions of musicians, development of specific rituals by various clubs, and parade accessories such as elaborately decorated fans and sashes, Freedom 's Dance provides an unparalleled photographic and textual overview of the SAPC Second Line, tracking its origins in African traditions and subsequent development in black New Orleans culture. Karen Celestan 's vibrant narrative is supplemented with interviews of longtime culture-bearers such as Oliver "Squirk" Hunter, Lois Andrews (mother of Troy "Trombone Shorty" Andrews and James Andrews), Fred Johnson, Gregory Davis, and Lionel Batiste, while interdisciplinary essays by leading scholars detail the rituals, historic perspective, and purpose of the Second Line. Freedom 's Dance defines this unique pub-lic-private phenomenon and captures every aspect of the Second Line, from SAPC members ' rollicking introductions at their annual parade to a funeral procession on its way to the crypt. Visually dazzling and critically important, Freedom 's Dance serves as both a celebration and a deep exploration of this understudied but immediately recognizable aspect of the African American tradition in the Big Easy.

10TH ANNIVERSARY EDITION Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as "The Slowlane" your plan for creating wealth? You know how it goes: it sounds a lil something like this: "Go to school, get a good job, save 10% of your paycheck, buy a used car, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, the stock market, and one day, when you are oh, say, 65 years old, you can retire rich." The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and unpredictable markets: the housing market, the stock market, and the job market, and one day, when you are oh, say, 65 years old, you can retire rich. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really have a plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to "settle-for-less" and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than a rocket. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a pious interest - is an impotent wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more poverty busting distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator. Hit the Fastlane, and live the life you want, now. Lifetime.

New York Times bestselling author, Personal Transformation guru, and life coach for the Steve Harvey Show and Today, Lisa Nichols shares her journey from scarcity to abundance, outlining steps everyone can take to create abundance in career, relationships, self, and finances—while creating a legacy for others to follow. Twenty years ago, Lisa Nichols was a single mom, struggling to make ends meet. Determined to break out of the defeatist mindset, negative behavior, and bad habits that were holding her back from success, she resolved to change her life. Today, she leads the life of her dreams. In Abundance Now, this icon in the field of personal transformation shares her secrets to creating a life that is rich in every way possible. Focusing on the 4 E's—Enrichment, Enchantment, Engagement, Endowment—Nichols identifies the framework upon which a fulfilled existence is built. Abundance Now offers provocative lessons, actionable plans and real-life case-studies, and makes clear what we must do every day to attract abundance, how to act as if we are already leading abundant lives, and how to open to abundance and in our view of ourselves.

How we raise young children is one of today's most highly personalized and sharply politicized issues, in part because each of us can claim some level of "expertise." The debate has intensified as discoveries about our development-in the womb and in the first months and years-have reached the popular media. How can we use our burgeoning knowledge to assure the best possible future for our children, for the sake of our nation? Drawing from new findings, this book presents important conclusions about nature-versus-nurture, the impact of being born into a working family, the effect of politics on programs for children, the costs and benefits of intervention, and other issues. The committee issues a series of challenges to decision makers regarding the quality of child care, early education, cognitive and emotional development, and more. Authoritative yet accessible, From Neurons to Neighborhoods presents the evidence about "brain wiring" and how kids learn to speak, think, and regulate their behavior. It examines the effect of the climate-family, child care, community-within which the child grows.
