What does it take to have fearless schools? It starts with psychological safaty-students, teachers, and leaders who know that mistakes are the source of learning, not shame or embarrassment. In order for great learning to take place, we first must build the trust and resilience needed to produce fearless students, teachers, and leaders-and ultimately create fearless schools. "If we are truly going to make schools inviting places for all students to come to and flourish, then the status quo, the 'normal,' is not good enough. To build the trust, the collegiality, the aspirational expectations among educators for this to happen-we need to be fearless. Doug Reeves outlines the conditions for such fearlessness: not tolerating mediocrity, confronting reality over wishful thinking, listening and candor, and resilience and learning together from errors. Written with passion, this book invites you to develop the courage to create schools that are fearless such that all (educators and students) are improving, aspiring, and are part of a learning organization." -John Hattie, Emeritus Laureate Professor, Melbourne Graduate School of Education; Chair, Board of the Australian Institute for Teaching and School Leadership "In Fearless Schools, Dr. Reeves tackles an urgent issue facing our children and the staff members who work with them. Fear of the virus, fear of change, and even fear of interacting with others will create a critical need to address these fears, reduce anxiety, and generally tend to the social and emotional health of children and staff." -Chris Lee Nicastro, PhD, former Commissioner of Education, State of Missouri

“Success is the point where your most authentic talents, passion, values, and experiences intersect with the chance to contribute to some greater good.” --Bill Strickland
According to MacArthur Fellowship “genius” award winner Bill Strickland, a successful life is not something you simply pursue, it is something that you create, moment by moment. It is a realization Strickland first came to when, as a poor kid growing up in a rough neighborhood of Pittsburgh, he encountered a high school ceramics teacher who took him under his wing and went on to transform his life. Over the past thirty years, Bill Strickland has been transforming the lives of thousands of people through the creation of Manchester Bidwell, a jobs training center and community arts program. Working with corporations, community leaders, and schools, he and his staff strive to give disadvantaged kids and adults the opportunities and tools they need to envision and build a better, brighter future. Strickland believes that every one of us has the potential for remarkable achievement. Every one of us can accomplish the impossible in our lives if given the right inspiration and motivation to do so. We all make ourselves “poor” in one way or another when we accept that we are not smart enough, experienced enough, or talented enough to accomplish something. Bill Strickland works with the least advantaged among us, and if he can help them achieve the impossible in their lives, think what each of us can do. Among Bill Strickland’s beliefs: People are born into this world as assets, not liabilities. It’s all in the way we treat people (and ourselves) that determines a person’s outcome The sand in the hourglass flows only one way. Stop going through the motions of living--savor each and every day. Life is here and now, not something waiting for you in the future. You don’t have to travel far to change the life you’re living. Bill grew up in the Pittsburgh ghetto, four blocks from where he came to build one of the foremost job training centers in the world. He now speaks before CEOs and political leaders, church congregations and civic leaders. You only need to change your thinking to remake your world. Through lessons from his own life experiences, and those of countless others who have overcome their circumstances and turned their lives around, Make the Impossible Possible shows how all of us can build on our passions and strengths, dream bigger and set the bar higher, achieve meaningful success and help mentor and inspire the lives of others.

An Indie Next Pick! Avie Reveare has the normal life of a privileged teen growing up in L.A., at least as normal as any girl's life is these days. After a synthetic hormone in beef killed fifty million American women ten years ago, only young girls, old women, men, and boys are left to pick up the pieces. The death threat is past, but fathers still fear for their daughters' safety, and the Paternalist Movement, begun to "protect" young women, is taking over the choices they make. Like all her friends, Avie still mourns the loss of her mother, but she's also dreaming about college and love and what she'll make of her life. When her dad "contracts" her to marry a rich, older man to raise money to save his struggling company, her life suddenly narrows to two choices: Be trapped in a marriage with a controlling politician, or run. Her lifelong friend, student revolutionary Yates, urges her to run to freedom across the border to Canada. As their friendship turns to passion, the decision to leave becomes harder and harder. Running away is incredibly dangerous, and it's possible Avie will never see Yates again. But staying could mean death.From Catherine Linka comes this romantic, thought-provoking, and frighteningly real story, A Girl Called Fearless, about fighting for the most important things in life—freedom and love.

Psychotherapist Jonathan Alpert wants readers to know one thing: you can face your fear and create your ultimate life--and you can do it quickly. You can find your dream job. You can end that dead end relationship and get the love you want and deserve. You can overcome perfectionism, procrastination, panic, worry, rejection, failure, excuses and even the people in your life who keep telling you that you can't. You can turn your dreams into reality. You can find happiness, success and love. And you don't need years of therapy or even medications to do it. BE FEARLESS is a 5 step plan that is guaranteed to transform the fearful into fearless. Be Fearless is researched-based call to action for those seeking to live extraordinary lives and bring about transformational change. LOS ANGELES TIMES BESTSELLER * NATIONAL BESTSELLER Weaving together storytelling, practical tips and inspiration, the book will teach you how to put the five fearless principles to work so that you too can spark the sorts of remarkable breakthroughs that can impact the world. Philanthropist, investor, and technology pioneer Jean Case brings to life the five Be Fearless principles common to the people and organizations that bring about transformational change. When National Geographic Chairman Jean Case set out to investigate the core qualities of great change makers, past and present, from inventors to revolutionaries, she found five surprising traits they all had in common. These weren’t wealth, privilege, or even genius. What all of these exceptional men and women shared was that they had chosen to make a “big bet,” take bold risks, learn from their failures, reach beyond their bubbles, and let urgency conquer fear. Throughout Be Fearless, Jean vividly illustrates these principles through storytelling—from her own transformational life experiences, to Jane Goodall’s remarkable breakthroughs in understanding and protecting chimpanzees, to celebrity chef José Andrés’ decision to be a “first responder” and take his kitchen to the sites of devastating hurricanes to feed the hungry, to Madame C.J. Walker’s vision to build a hair care empire that would employ thousands across the country, and more. She shares new insights to stories you might think you know—like Airbnb’s tale of starting from scratch to transform the hospitality industry, to John F. Kennedy’s history-making moonshot—and gems from changemakers you’ve never heard of. Be Fearless features a compelling foreword from Jane Goodall saying “there is no time in history when it has been more important to Be Fearless” and a new afterword with stories of people inspired to take action after reading the book.

Leah Guy believes that disconnection is the root of all fear, and the attempt at letting go causes more problems than it solves. Debunking the myth of detachment and other popular New Age ideologies, she emphasizes that there's no escapism in emotional healing. Rather, the process is about putting the personal pieces of your heart, mind, and soul back together again. The Fearless Path offers a radical approach that will heal trauma, fear, heartache, and mental and physical health. Overcoming anxiety, sexual abuse, eating disorders, and addiction using the principles in this book, Leah has spent her life helping others find relief and freedom from personal afflictions. In The Fearless Path, you will learn: Why "letting go" is the worst advice for healing, and how to really move on. How to understand the stories your energy system tells about your mind, body, and spirit--and how to rewrite the script. How to transform fear and anxiety into love and inner peace. Why the law of attraction isn't all it's cracked up to be. Find strength and serenity in the midst of a personal storm.

An award-winning documentary photographer delivers a stunning visual history of the Silicon Valley technology boom, in which he was witness to key moments in the careers of Steve Jobs and more than seventy other leading innovators as they created today's digital world. An eye-opening chronicle of the Silicon Valley technology boom, capturing key moments in the careers of Steve Jobs and more than seventy other leading innovators as they created today's digital world In the spring of 1985, a technological revolution was under way in Silicon Valley, and documentary photographer Doug Menez was there in search of a story—something big. At the same time, Steve Jobs was being forced out of his beloved Apple and starting over with a new company, NeXT Computer. His goal was to build a supercomputer with the power to transform education. Menez had found his story: he proposed to photograph Jobs and his extraordinary team as they built this new computer, from conception to product launch. In an amazing act of trust, Jobs granted Menez unlimited access to the company, and, for the next three years, Menez was able to get on film the spirit and substance of innovation through the day-to-day actions of the world's top technology guru. From there, the project expanded to include the most trailblazing companies in Silicon Valley, all of which granted Menez the same complete access that Jobs had. Menez photographed behind the scenes with John Warnock at Adobe, John Sculley at Apple, Bill Gates at Microsoft, John Doerr at Kleiner Perkins, Bill Joy at Sun Microsystems, Gordon Moore and Andy Grove at Intel, Marc Andreessen at Netscape, and more than seventy other leading companies and innovators. It would be fifteen years before Menez stopped taking pictures, just as the dotcom bubble burst. An extraordinary era was coming to its close. With his singular behind-the-scenes access to these notoriously insular companies, Menez was present for moments of heartbreaking failure and unexpected success, moments that made history, and moments that revealed the everyday lives of the individuals who made it happen. This period of rapid, radical change would affect almost every aspect of our culture and our lives in ways both large and small and would also create more jobs and wealth than any other time in human history. And Doug Menez was there, a witness to a revolution. In more than a hundred photographs and accompanying commentary, Fearless Genius captures the human face of innovation and shows what it takes to transform powerful ideas into reality.
