We are all digital humans now. What does this mean for how we live and how we work? How do digital humans thrive in a connected world? In this provocative and insightful book, Paul Ashcroft and Garrick Jones shine a light on how to activate organizations so that they can transform themselves. In quest'epoca di globalizzazione, può l'endiadi democrazia/solidarietà nel presente saggio risultare via maestro per educare ad una società di corresponsabili? Il percorso delineato nel presente saggio intende stimolare la riflessione su questo "nodo" della vita sociale, verificando se "il modello democratico" sia il più idoneo a rendere effettivo ed efficace il principio di solidarietà, per un mondo più vivibile. Secondo uno stile ormai consolidato nel Cenacolo Sinderesi, la prima parte del volume offre tre tracce ideali per riflettere sul rapporto solidarietà e democrazia nell'orizzonte della Dottrina Sociale della Chiesa e nelle sue conseguenze politiche ed economiche. In seguito vengono invece suggerite alcune forme concrete in cui detto responsabilizzante binomio si possa realizzare con efficacia per il bene comune: nelle istituzioni politiche (forma partito) e culturali (i centri), nel mondo del lavoro (nuovo modello di relazioni industriali) e dell'impresa (la cooperazione), dentro il nostro contesto europeo (di obiettivi convergenti a diverse velocità attuative).

Vittorio Morfino draws out the implications of the dynamic Spinoza-Machiavelli encounter by focusing on the concepts of causality, temporality and politics. This allows him to think through the relationship between ontology and politics, leading to an understanding of history as a complex and plural interweaving of different rhythms.

Fiction. Short Stories. Translated from the Italian by Barbara De Marco. In SARACEN TALES, Italian-born Giuseppe Bonaviri brings a wild newness to the tale of the life of Jesus. In this succession of stories, Bonaviri explores all manners of the known and unknown, the archetypal, the mythological, the symbolic--the life of Jesus is both his material and his point of departure. Part surrealism, part folklore, readers will be amazed at the originality and creativity with which a long-familiar tale is presented. "Bonaviri is a myth-maker, looking simultaneously to the historical past and to the future, to arrive at the a-historical, at cosmic universality"--Franco Zangrilli. Giuseppe Bonaviri was born in 1924 in Sicily. He

began writing when he was ten and continued through high school, college, and in his professional life as a doctor, health official, and cardiologist. His work has been widely translated.

Elsa Morante has long been recognized internationally as one of the most significant, innovative, and important writers of the 20th century Italy.

Nonetheless, there has, to date, been no full-length study in English dedicated to her work. Critical perspectives on Morante's literary achievement have shifted dramatically in recent years, and while this volume proposes to offer the first comprehensive evaluation of Morante to appear outside Italy, it also aims to take into account modern critical and theoretical developments. The authors' aim is to underline Morante's centrality in a broader context which goes beyond Italian national frontiers and deserves critical attention across a range of transcultural disciplines, departing from the traditional realm of philological analysis to encompass approaches informed by cultural and interdisciplinary studies. This volume gives a comprehensive insight into current thinking on and understanding of Elsa Morante's work. This book places her work in a much wider context of

European culture, and traces her influence on a younger generation of writers.

«Ho cominciato a lavorare come se l'università fosse un'azienda che doveva funzionare al meglio, credendo che la sua missione fosse meno quella di distribuire lauree che perseguire il compito di formare persone in grado di saper navigare bene nella vita. Che stramba idea quella di prendersi cura degli studenti, come se non bastasse occuparsi di insegnare materie, di fare esami, di pubblicare qualcosa, così, per farsi citare da qualche parte. Davvero non stavo capendo niente. C'è anche qualcosa di peggio, però. Il potere accademico non tollera poteri paralleli che non rientrano tra i suoi codici. Ed è esattamente quello che avviene, nella sua percezione, se qualcuno apre percorsi complementari, nella presunzione che la conoscenza impartita richieda contesti e azioni e progetti che possano integrarla per una formazione compiuta. Ora lo so; ora che è troppo tardi. Mi hanno condotto fuori senza colpo ferire. Senza guardare negli occhi e senza sprecare parole. Da veri professionisti di circuiti paralleli. Eppure, continuo a pensare che stiano sbagliando». Dopo una lunga esperienza in università come direttore generale attento alle esigenze

di formazione a 360 gradi in un mondo che cambia, Pier Luigi Celli tira le somme e rilancia le sue proposte per un'università nuova, al passo con i tempi, capace davvero di formare il futuro della società. Posizioni inattaccabili, rigide gerarchie, formazione statica e inadeguata ai tempi che cambiano e all'inserimento nell'impresa e nella società, scarsa conoscenza dei giovani, insegnamento di una "cultura perdente" sono i mali della nostra università. Ma un modo per superarli esiste, e questo libro spiega qual è. Pier Luigi Celli mostra luci e ombre del sistema universitario italiano e propone l'alternativa possibile. Racconti ironici e pungenti accompagnano i capitoli di riflessione sul tema. Pier Luigi Celli (1942) è stato direttore generale dell'Università Luiss Guido Carli di Roma, attualmente è presidente dell'Enit. È membro dei consigli di amministrazione di Illy, Unipol e Bat. Laureato in Sociologia all'Università di Trento, è stato responsabile della gestione, organizzazione e formazione delle risorse umane in grandi gruppi quali Eni, Rai, Omnitel, Olivetti ed Enel. Tra il 1998 e il 2001 è stato direttore generale della Rai. Ad oggi è in Unipol come Senior Advisor Corporate Identity, Comunicazione

e Relazioni istituzionali. All'attivo ha oltre trenta libri, tra cui Altri esercizi di pentimento (2008), Coraggio, Don Abbondio (2009), Come si maneggia il mondo (2009), I Capi (2011) e L'impresa vista dai perdenti (2011). Per Imprimatur editore ha pubblicato La felicità necessaria (2012)

The 'fatal charm of Italy' has held Lord Byron – and millions of tourists ever since – in its spell. Yet, beneath 'the brilliant and vivacious surface', what are the realities of Italian life? Few writers have ever painted a portrait of their compatriots as crisp, frank and fearless as Luigi Barzini's. Cutting through the familiar clichés, he instructs us with a cascade of anecdotes and provides a marvellous guided tour through centuries of history. He examines Machiavelli and Mussolini, popes, pilgrims and prostitutes, cliques and conspiracies, Casanova and the crippling power of the Church. Yet alongside the Baroque exuberance and spectacular display, the love of life and the

life of love, he also shows us a divided nation, injustice, ignorance, poverty and fear. All this is Italy, a country of dazzling achievement and an uncanny aptitude for getting round problems; both its virtues and its vices are celebrated in this sparkling book

Fjaka: the sublime state of aspiring to do absolutely nothing. Warmduscher: a 'warm showerer', meaning a bit of a wimp. Tener mano izquierda: literally 'to have a left hand'; to be skilfully persuasive. For all the richness of the English language there are some nuances that other languages capture much better, whether it's a phrase that beautifully articulates a feeling, a wonderfully understated insult that just hits the spot, or a curious idiom. From the melancholic to the funny to the downright peculiar, From Amourette to Żal takes us on a fascinating journey around Europe in twelve languages, celebrating our cultural similarities and differences along the way.

Giacomo Leopardi (Recanati June 29, 1798 - Naples June 14, 1837) was an Italian poet, essayist, philosopher, and philologist. He is considered one of the greatest poets of the 19th century. Even if he lived in a secluded town in the ultra-conservative Papal States, he came in touch with the main

thoughts of the Enlightenment, and, by his own literary evolution, created a remarkable, renowned and pessimist poetic work, related to the Romantic era.

Exiles in the City: Hannah Arendt and Edward W. Said in Counterpoint, by William V. Spanos, explores the affiliative relationship between Arendt's and Said's thought, not simply their mutual emphasis on the importance of the exilic consciousness in an age characterized by the decline of the nation-state and the rise of globalization, but also on the oppositional politics that a displaced consciousness enables. The pairing of these two extraordinary intellectuals is unusual and controversial because of their ethnic identities. In radically secularizing their comportment towards being, their exilic condition enabled them to undertake inaugural critiques of the culture of the nation-state system of Western modernity. As variations on the theme of exile, the five chapters of this book constitute reflections on what is foundational and abiding in both Arendt's and Said's work. They not only document the heretofore unnoticed affiliation between the two thinkers. They also shed light on Arendt's and Said's proleptic activist explorations of the urgent "question of Palestine," especially on the fraught present situation, which bears increasing witness to the irony that the Israeli nation-state's "solution" has, from the beginning, systematically repeated the degradations the Jewish people suffered at the hands of German nationalism.

Poetry. Translated from the Italian by Michael Palma. "Cucchi's poetry is notable for its even tone, its avoidance of stylistic excess and rhetorical extravagance... His preference is to let descriptions, and their juxtapositions, speak for themselves, without preaching or hectoring, without pointing a moral or adorning a tale. [Like Eliot's *The Waste Land*], Cucchi's work includes such characteristics as historical references, literary allusions and quotations, and the intermingling of these elements with disturbing personal experiences. Another central point of contact is each poet's procedure through an accretion of fragments, creating a kaleidoscope of scenes and incidents and a medley of shifting voices."—from the Introduction by translator Michael Palma "Cucchi's poetry posed and poses the problem of the friction between autobiography and impersonality, between concealment and exposure, between lyrical writing and narrative modes, between realism and oneiric vision, between a renunciative and nihilistic inclination and a positive and ethical vocation, between, better still, a private and solitary numbness and an epical

Artists, art historians, and critics look at the legacies of feminism and critical theory in the work of women artists, more than thirty years after the beginning of the modern women's movement and Linda Nochlin's landmark essay "Why Have There Been No Great Women Artists?" More than thirty years after the birth of the modern women's movement and the beginnings of feminist art-making and art history, the time is ripe to examine the legacies of those revolutions. In *Women Artists at the Millennium*, artists, art historians, and critics examine the differences that

Online Library Alma Matrigna: L'università Del Disincanto (Saggi)

feminist art practice and critical theory have made in late twentieth-century art and the discourses surrounding it. In 1971, when Linda Nochlin published her essay "Why Have There Been No Great Women Artists?" in a special issue of Art News, there were no women's studies, no feminist theory, no such thing as feminist art criticism; there was instead a focus on the mythic figure of the great (male) artist through history. Since then, the "woman artist" has not simply been assimilated into the canon of "greatness" but has expanded art-making into a multiplicity of practices with new parameters and perspectives. In Women Artists at the Millennium artists including Martha Rosler and Yvonne Rainer reflect upon their own varied practices and art historians discuss the innovative work of such figures as Louise Bourgeois, Lygia Clark, Mona Hatoum, and Carrie Mae Weems. And Linda Nochlin considers changes since her landmark essay and looks to the future, writing, "We will need all our wit and courage to make sure that women's voices are heard, their work seen and written about." Every Third Thought

Poems in the Neapolitan Dialect (1990-1997)

Until the modern period, the reproduction of written texts required manual transcription from earlier versions. This cumbersome process inevitably created errors and made it increasingly difficult to identify the original readings among multiple copies. Lachmann's method—associated with German classicist Karl Lachmann (1793-1851)—aimed to provide scholars with a scientific, systematic procedure to standardize the transmission of ancient texts. Although these guidelines for analysis were frequently challenged, they retained a paradigmatic

Online Library Alma Matrigna: L'università Del Disincanto (Saggi)

value in philology for many years. In 1963, Italian philologist Sebastiano Timpanaro became the first to analyze in depth the history and limits of Lachmann's widely established theory with his publication, *La genesi del metodo del Lachmann*. This important work, which brought Timpanaro international repute, now appears in its first English translation. *The Genesis of Lachmann's Method* examines the origin, development, and validity of Lachmann's model as well as its association with Lachmann himself. It remains a fundamental work on the history and methods of philology, and Glenn W. Most's translation makes this seminal study available to an English-speaking audience. Revealing Timpanaro's extraordinary talent as a textual critic and world-class scholar, this book will be indispensable to classicists, textual critics, biblical scholars, historians of science, and literary theorists.
