*From #1 New York Times bestselling author Karen Kingsbury comes a “heart tugging and emotional” story in the Baxter Family collection that will “touch readers deeply” (RT Book Reviews) featuring two people who lost their parents in the same national tragedy—two people desperate to find each other and the connection they shared for a single day...that changed everything. Brady Bradshaw was a child when the Oklahoma City bombing killed his mother. Every year, Brady visits the memorial site on the anniversary to remember her. Eleven years ago on that day, he met Jenna Phillips, who was also a child when her parents were killed in the attack. Brady and Jenna shared a deep heart connection and a single beautiful day together at the memorial. But after that, Brady never saw Jenna again. Every year when he returns, he leaves a note for her in hopes that he might find her again. This year, Ashley Baxter Blake and her sister Kari Baxter Taylor and their families take a spring break trip that includes a visit to the site to see the memorial’s famous Survivor Tree. While there, Ashley spots a young man, alone and troubled. That man is Brady Bradshaw. A chance moment leads Ashley to help Brady find Jenna, the girl he can’t forget. Ashley’s family is skeptical, but she pushes them to support her efforts to find the girl and bring them together. But will it work? Will her husband, Landon, understand her intentions? And is a shared heartache enough reason to fall in love? With *To The Moon and Back* “Kingsbury skillfully weaves a tale of divine love” (Publishers Weekly, starred review) in an unlikely love story about healing, redemption, hope, and the belief that sometimes a new tomorrow can grow from the ashes of a shattered yesterday. “Kingsbury writes with seemingly effortless poetic elegance, capturing the tender, intimate moments of daily family life as well as heart-wrenching flashbacks to fatal tragedy. A moving story of survival, of faith, and of beauty from the ashes” (Booklist).*

Get Well, Eva: A Branches Book (Owl Diaries #16)

The Long War by Terry Pratchett and Stephen Baxter follows the adventures and travails of heroes Joshua Valiente and Lobsang in an exciting continuation of the extraordinary science fiction journey begun in their New York Times bestseller The Long Earth. A generation after the events of The Long Earth, humankind has spread across the new worlds opened up by "stepping." A new "America" "Valhalla" is emerging more than a million steps from Datum "our Earth. Thanks to a bountiful environment, the Valhallan

society mirrors the core values and behaviors of colonial America. And Valhalla is growing restless under the controlling long arm of the Datum government. Soon Joshua, now a married man, is summoned by Lobsang to deal with a building crisis that threatens to plunge the Long Earth into a war unlike any humankind has waged before.

Stephen Baxter's highly acclaimed first novel and the beginning of his stunning Xeelee Sequence finally enters the SF Masterwork series! A spaceship from Earth accidentally crossed through a hole in space-time to a universe where the force of gravity is one billion times as strong as the gravity we know. Somehow the crew survived, aided by the fact that they emerged into a cloud of gas surrounding a black hole, which provided a breathable atmosphere. Five hundred years later, their descendants still struggle for existence, divided into two main groups. The Miners live on the Belt, a ramshackle ring of dwellings orbiting the core of a dead star, which they excavate for raw materials. These can be traded for food from the Raft, a structure built from the wreckage of the ship, on which a small group of scientists preserve the ancient knowledge which makes survival possible. Rees is a Miner whose curiosity about his world makes him stow away on a flying tree - just one of the many strange local lifeforms - carrying trade between the Belt and the Raft. And what he finds will change his world...

The book extends established technologies used in the study of discrete Bayesian Networks so that they apply in a much more general setting. As the first book on Chain Event Graphs, this monograph is expected to become a landmark work on the use of event trees and coloured probability trees in statistics, and to lead to the increased use of such tree models to describe hypotheses about how events might unfold. Features: introduces a new and exciting discrete graphical model based on an event tree focusses on illustrating inferential techniques, making its methodology accessible to a very broad audience and, most importantly, to practitioners illustrated by a wide range of examples, encompassing important present and future applications includes exercises to test comprehension and can easily be used as a course book introduces relevant software packages

This contextualised study illuminates the oft-misunderstood aspects of Richard Baxter's ecclesiology: purity, unity, and liberty. In doing so, it sheds further light on the nature of seventeenth-century English Puritanism, and the quest for the true church and the corresponding conflicts between the Laudians and Puritans.
