*How to build a culture of high performance within your organization The U.S. military in general, and its many elite organizations in particular, possesses a culture of high performance. Courage to Execute outlines the six basic principles that operate at the foundation of high performance, which include leadership, organization, communication, knowledge, experience, and discipline, known together as LOCKED. When all are practiced effectively, teamwork emerges. But the most elusive quality that exists at the heart of all elite military teams, the element that organizations and businesses deeply desire to perform more efficiently and effectively, is trust. Trust is easily spent, but hard won. Author James Murphy, an employer of approximately fifty senior military officers that have served in elite units such as the U.S. Navy Blue Angels, U.S. Navy SEALs, and U.S. Army Rangers, shares a multitude of personal leadership stories that illustrates the principles of LOCKED. Shares compelling anecdotes from leaders in elite units of the U.S. Military Written by James D. Murphy, founder and CEO of Afterburner, Inc., which has trained over 1.5 million executives, sales professionals, and business people from every industry in Afterburner's Flawless Execution Model, and its unique, high-energy programs Courage to Execute will help you develop effective leadership skills and build high-performance teams that out-compete your rivals every time.*

**NATIONAL BESTSELLER** *“Defiantly populated with living women . . . beautifully drawn, dense with detail and specificity . . . Notes on an Execution is nuanced, ambitious and compelling.”* —Katie Kitamura, **NEW YORK TIMES BOOK REVIEW (Editors' Choice)** *“A searing portrait of the complicated women caught in the orbit of a serial killer. . . . Compassionate and thought-provoking.”* —BRIT BENNETT, #1 New York Times bestselling author of *The Vanishing Half* Recommended by New York Times Book Review • Los Angeles Times • Washington Post • Entertainment Weekly • Esquire • Good Housekeeping • USA Today • BuzzFeed • Goodreads • Real Simple • Marie Claire • Rolling Stone • Business Insider • Bustle • PopSugar • The Millions • The Guardian • and many more! In the tradition of *Long Bright River* and *The Mars Room*, a gripping and atmospheric work of literary suspense that deconstructs the story of a serial killer on death row, told primarily through the eyes of the women in his life—from the bestselling author of *Girl in Snow*. Ansel Packer is scheduled to die in twelve hours. He knows what he’s done, and now awaits execution, the same chilling fate he forced on those girls, years ago. But Ansel doesn’t want to die; he wants to be celebrated, understood. Through a kaleidoscope of women—a mother, a sister, a homicide detective—we learn the story of Ansel’s life. We meet his mother, Lavender, a seventeen-year-old girl pushed to desperation; Hazel, twin sister to Ansel’s wife, inseparable since birth, forced to watch helplessly as her sister’s relationship threatens to devour them all; and finally, Saffy, the detective hot on his trail, who has devoted herself to bringing bad men to justice but struggles to see her own life clearly. As the clock ticks down, these three women sift through the choices that culminate in tragedy, exploring the rippling fissures that such destruction inevitably leaves in its wake. Blending breathtaking suspense with astonishing empathy, *Notes on an Execution* presents a chilling portrait of womanhood as it simultaneously unravels the familiar narrative of the American serial killer, interrogating our system of justice and our cultural obsession with crime stories, asking readers to consider the false promise of looking for meaning in the psyches of violent men. *“Poetic and mesmerizing . . . Powerful, important, intensely human, and filled with a unique examination of tragedy, one where the reader is left with a curious emotion: hope.”* —USA TODAY *“A profound and staggering experience of empathy that challenges us to confront what it means to be human in our darkest moments. . . . I relished every page of this brilliant and gripping masterpiece.”*—ASHLEY AUDRAIN, New York Times bestselling author of *The Push*

**INNOVATION IN ACTION** *The Innovation Book* is your roadmap to creating powerful innovations that deliver success in a competitive world. ***The explosive conclusion to the New York Times bestselling series. In Dalton Fury's Execute Authority, Kolt "Racer" Raynor and his Delta Force squadron are in Greece, providing VIP security for the newly elected—and deeply controversial—American president on his desperate mission to hold the NATO alliance together. Then, the unimaginable happens. Just as the president is arriving, an assassin's bullet takes the life of the Greek prime minister. The president is safe, but Raynor recognizes the killer—Rasim Miric—by his grisly signature: a bullet through his target's left eye. The hunt for the assassin ends when Miric, to all appearances, blows himself up in an explosion that levels an apartment block, but Raynor refuses to accept that the sniper is really dead. Miric's grudge is with America, and one American in particular—the Delta Force operator who cost him an eye, Kolt Raynor. Raynor believes that Miric's killing spree is only just beginning, and his suspicions are proved true when Miric is photographed crossing the border into the United States. Forbidden by law from operating on American soil, Raynor will have to bend the rules until they break, risking everything in order to run the assassin down before he can strike again. But what Raynor doesn't realize is that Rasim Miric is also hunting him.***

Intelligent readers who want to build their own embedded computer systems-- installed in everything from cell phones to cars to handheld organizers to refrigerators-- will find this book to be the most in-depth, practical, and up-to-date guide on the market. Designing Embedded Hardware carefully steers between the practical and philosophical aspects, so developers can both create their own devices and gadgets and customize and extend off-the-shelf systems. There are hundreds of books to choose from if you need to learn programming, but only a

few are available if you want to learn to create hardware. Designing Embedded Hardware provides software and hardware engineers with no prior experience in embedded systems with the necessary conceptual and design building blocks to understand the architectures of embedded systems. Written to provide the depth of coverage and real-world examples developers need, Designing Embedded Hardware also provides a road-map to the pitfalls and traps to avoid in designing embedded systems. Designing Embedded Hardware covers such essential topics as: The principles of developing computer hardware Core hardware designs Assembly language concepts Parallel I/O Analog-digital conversion Timers (internal and external) UART Serial Peripheral Interface Inter-Integrated Circuit Bus Controller Area Network (CAN) Data Converter Interface (DCI) Low-power operation This invaluable and eminently useful book gives you the practical tools and skills to develop, build, and program your own application-specific computers.

Over seven years, 45 of the world's top investors were given between \$25 and \$150m to invest by fund manager Lee Freeman-Shor. His instructions were simple. There was only one rule. They could only invest in their ten best ideas to make money. It seemed like a foolproof plan to make a lot of money. What could possibly go wrong? These were some of the greatest minds at work in the markets today - from top European hedge fund managers to Wall Street legends. But most of the investors' great ideas actually lost money. Shockingly, a toss of a coin would have been a better method of choosing whether or not to invest in a stock. Nevertheless, despite being wrong most of the time, many of these investors still ended up making a lot of money. How could they be wrong most of the time and still be profitable? The answer lay in their hidden habits of execution, which until now have only been guessed at from the outside world. This book lays bare those secret habits for the first time, explaining them with real-life data, case studies and stories taken from Freeman-Shor's unique position of managing these investors on a day-to-day basis. A riveting read for investors of every level, this book shows you exactly what to do and what not to do when your big idea is losing or winning - and demonstrates conclusively why the most important thing about investing is always the art of execution.

The principles, maxims and precepts of Commercial Law are eternal, unchanging and unchangeable. They are expressed in the Bible, both in the Old Testament and in the New. The law of commerce -- unchanged for thousands of years -- forms the underlying foundation of all law on this planet; and for governments around the world. It is the law of nations, and of everything that human civilization is built upon. This is why Commercial Law is so powerful. When you operate at the level of Commercial Law, by these precepts, nothing that is of inferior statute can overturn or change it, or abrogate it, or meddle with it. It is the fundamental

**The guide to shortening your execution cycle down from one year to twelve weeks  
Most organizations and individuals work in the context of annual goals and plans; a twelve-month execution cycle. Instead, The 12 Week Year avoids the pitfalls and low productivity of annualized thinking. This book redefines your "year" to be 12 weeks long. In 12 weeks, there just isn't enough time to get complacent, and urgency increases and intensifies. The 12 Week Year creates focus and clarity on what matters most and a sense of urgency to do it now. In the end more of the important stuff gets done and the impact on results is profound. Explains how to leverage the power of a 12 week year to drive improved results in any area of your life Offers a how-to book for both individuals and organizations seeking to improve their execution effectiveness Authors are leading experts on execution and implementation Turn your organization's idea of a year on its head, and speed your journey to success.**

**Hailed by The New York Times as "a compelling dystopian look at paranoia from one of the most unique and perceptive writers of our time," this brief, captivating novel offers a cautionary tale. The story unfolds within a society in which all traces of individualism have been eliminated from every aspect of life — use of the word "I" is a capital offense. The hero, a rebel who discovers that man's greatest moral duty is the pursuit of his own happiness, embodies the values the author embraced in her personal philosophy of objectivism: reason, ethics, volition, and individualism. Anthem anticipates the themes Ayn Rand explored in her later masterpieces, The Fountainhead and Atlas Shrugged. Publisher's Weekly acclaimed it as "a diamond in the rough, often dwarfed by the superstar company it keeps with the author's more popular work, but every bit as gripping, daring, and powerful." Anthem is a dystopian fiction novella by Ayn Rand, written in 1937 and first published in 1938 in England. It takes place at some unspecified future date when mankind has entered another dark age characterized by irrationality, collectivism, and socialistic thinking and economics. Technological advancement is now carefully planned (when it is allowed to occur at all) and the concept of individuality has been eliminated.**

**Execute 90 is a revolutionary model that has been hidden in plain sight for centuries. Execute 90 is the embodiment of some of the most famous industry, business, and economic thought leaders, including Stephen Covey, J. Paul Ghetty, Henry Ford, Sam Walton, Bill Gates, and Jeff Bezos. Each in their own right have created billions of dollars of wealth using what is now contained in the Execute 90 model by focusing on the #1 difference maker - precision execution of a simple - mentor approved plan. When individuals and teams implement the Execute 90 models they invariably double their volume every 90 days! During the last decade, Terry Johal and Clay Stevens have developed the framework, principles, procedures, systems, structures, and matrix contained in Execute 90. And the proven results are spectacular. Execute 90 is not on trial and it is not just an improvement on existing ideas; rather, Execute 90 shifts the industry-accepted duplication mantra to a TRIPLICATION model that doubles volumes in 90-day periods. This creates an industry wide ability to increase the success rate of all network marketers tenfold-by taking the promise of the industry to the next level.**

From the co-author of the New York Times bestseller Team of Teams, a practical guide for leaders looking to make their organizations more interconnected and unified in the midst of sudden change. Too often, companies end up with teams stuck in their own silos, pursuing goals and metrics in isolation. Their traditional autocratic structures create stability, scalability, and predictability -- but in a world that demands rapid adaptation to a new reality, this traditional model simply doesn't work. In Team of Teams, retired four-star General Stanley McChrystal and former Navy SEAL Chris Fussell made the case for a new organizational model combining the agility, adaptability, and cohesion of a small team with the power and resources of a giant organization. Now, in One Mission, Fussell channels all his experiences, both military and corporate, into powerful strategies for unifying isolated and distrustful teams. This practical guide will help leaders in any field implement the Team of Teams approach to tear down their silos, improve collaboration, and avoid turf wars. By committing to one higher mission, organizations can develop an overall capability that far exceeds the sum of their parts. From Silicon Valley software giant Intuit to a government agency on the plains of Oklahoma, organizations have used Fussell's methods to unite their people around a single compelling vision, resulting in superior performance. One Mission will help you follow their example to a more agile and resilient future.

Robert Meeropol was six years old in 1953 when his parents, Ethel and Julius Rosenberg, were executed after being convicted of Conspiracy to Commit Espionage on behalf of the Soviet Union at the height of the McCarthy era. Just before they were put to death, the Rosenbergs wrote a letter to their two sons saying they were "secure in the knowledge that others would carry on for them." The Rosenbergs left their young sons a legacy that was both a burden and a gift, as well as an aching emotional void. Robert Meeropol grew up torn between the need to pursue his political values and his intense fear that personal exposure might subject him and his family to violence or even death. An Execution in the Family details Robert Meeropol's political odyssey from being

Rosenbergs' son to becoming a prominent political activist in his own right, and it chronicles a very personal journey of self-discovery. This is the story of how he tried to balance a strong desire to live a normal life and raise a family with a growing need to create something useful out of his childhood nightmare. It is also a poignant account of how, at age forty-three, he finally found a way to honor his parents and be true to himself.

#1 NEW YORK TIMES BESTSELLER • More than two million copies in print! The premier resource for how to deliver results in an uncertain world, whether you're running an entire company or in your first management job. "A must-read for anyone who cares about business."—The New York Times When Execution was first published, it changed the way we do our jobs by focusing on the critical importance of "the discipline of execution": the ability to make the final leap to success by actually getting things done. Larry Bossidy and Ram Charan now reframe their empowering message for a world in which the old rules have been shattered, rapid change is becoming routine, and the ability to execute is more important than ever. Now and in the foreseeable future:

- Growth will be slower. But the company that executes well will have the confidence, speed, and resources to move fast as new opportunities emerge.
- Competition will be fiercer, with companies searching for any possible advantage in every area from products and technologies to location and management.
- Governments will take on new roles in their national economies, some as partners to business, others imposing constraints. Companies that execute well will be more attractive to government entities as partners and suppliers and better prepared to adapt to a new wave of regulation.
- Risk management will become a top priority for every leader. Execution gives you an edge in detecting new internal and external threats and in weathering crises that can never be fully predicted. Execution shows how to link together people, strategy, and operations, the three core processes of every business. Leading these processes is the real job of running a business, not formulating a "vision" and leaving the work of carrying it out to others. Bossidy and Charan show the importance of being deeply and passionately engaged in an organization and why robust dialogues about people, strategy, and operations result in a business based on intellectual honesty and realism. With paradigmatic case histories from the real world—including examples like the diverging paths taken by Jamie Dimon at JPMorgan Chase and Charles Prince at Citigroup—Execution provides the realistic and hard-nosed approach to business success that could come only from authors as accomplished and insightful as Bossidy and Charan. Move yourself, your organization and your people forward by turning all those lengthy discussions, those great ideas and plans into reality...by taking action.

The Execution Factor: The One Skill that Drives Success

**Strategy execution is one of the most important and exciting topics in management. Implementing strategy in today's complex organizations is an enormous challenge but one that all leaders must tackle. This lively book is an essential guide to strategy execution for practicing managers and those in advanced management education. It combines the rigour of advanced research with the accessibility of practical experience and application to lead readers through the subject. Drawing together existing knowledge and reporting findings from his own research, Andrew MacLennan brings this often neglected topic sharply into focus. After introducing and defining**

strategy execution, the book presents a series of systematic frameworks to help managers and leaders: identify common strategy execution barriers and diagnose performance problems in particular situations translate conceptual strategies into concrete activities align emergent activities and projects with strategic objectives support critical activities by aligning organizational designs and systems Strategy Execution is an insightful, engaging and practical book. The models are supplemented throughout with real world examples, summaries of key issues and signposts to further readings. It is a comprehensive, easy to use book offering students and practitioners a systematic approach to strategy implementation.

**BUSINESS STRATEGY. "The 4 Disciplines of Execution "**offers the what but also how effective execution is achieved. They share numerous examples of companies that have done just that, not once, but over and over again. This is a book that every leader should read! (Clayton Christensen, Professor, Harvard Business School, and author of "The Innovator s Dilemma)." Do you remember the last major initiative you watched die in your organization? Did it go down with a loud crash? Or was it slowly and quietly suffocated by other competing priorities? By the time it finally disappeared, it s likely no one even noticed. What happened? The whirlwind of urgent activity required to keep things running day-to-day devoured all the time and energy you needed to invest in executing your strategy for tomorrow. "The 4 Disciplines of Execution" can change all that forever.

William Watkins was executed in 1951 for the murder of his infant child. John Pugh, then a solicitor's clerk, was in court when the death sentence was announced and Pugh has never forgotten that experience. In Execution, Pugh undertook prodigious research to create this account of legal, political and public intrigue, and of indifference to the fate of a deaf bus driver. He goes on to argue that Watkins should not have been hanged and paints a picture of appalling injustice and policing. He also explains how the authorities have consistently refused to release the papers on this case.

CLUE AWARD FINALIST • "[A] haunting memoir, which also unfolds as a gripping true-crime narrative . . . This is a powerful, unsettling story, told with bracing honesty and skill."**—The Washington Post **A New York Times Book Review Editors' Choice • One of Marie Claire's Ten Best True Crime Books of the Year** Ellen McGarrahán was a young journalist for The Miami Herald in 1990 when she witnessed the botched execution of convicted killer Jesse Tafero: flames and smoke and three jolts of the electric chair. When evidence later emerged casting doubt on Tafero's guilt, McGarrahán found herself haunted by his fiery death. Had she witnessed the execution of an innocent man? Decades later, McGarrahán, now a successful private investigator, is still gripped by the mystery and infamy of the Tafero case, and decides she must investigate it herself. Her quest will take her around the world and deep into the harrowing heart of

obsession, and as questions of guilt and innocence become more complex, McGarrahan discovers she is not alone in her need for closure. For whenever a human life is taken by violence, the reckoning is long and difficult for all. A rare and vivid account of a private investigator's real life and a classic true-crime tale, *Two Truths and a Lie* is ultimately a profound meditation on truth, grief, complicity, and justice.

Dreams and visions are amazing gifts from God. They are at the heart of God's plan for our lives. Anyone can have an idea, but not everyone will experience that vision come to fruition. This book explores how to turn visions into reality in a fast-moving world that is changing at an exponential rate. A lot of books have been written the past few decades on how to lead in a rapidly changing world. So why should you read another one? That question deserves an answer. This book focuses on the obstacles that keep most leaders from turning their visions into reality. In consulting with over 700 churches in the past 25 years, one problem clearly stands out above all the rest. Pastors find it hard to execute a vision. Ideas aren't hard to come by; making them happen is another thing altogether. This book will note how the Church missed out on prime opportunities during the middle of the 20th century in the United States when our culture went through a significant transition. Pastors, especially those who are younger, would do well to learn from these past lessons and apply that to a similar moment of transition in our contemporary society. As you read, you will find Reflection Points. They will help the you apply the concepts to your situation.

Your guide to mobilizing your whole organization to take your business forward, this practical book identifies the chronic challenges that keep organizations from decisively executing strategy, and gives you a practical game plan for breaking through. --

Winter 1963: two children have disappeared off the streets of Manchester; the murderous careers of Myra Hindley and Ian Brady have begun. On a freezing day in December, another child goes missing: thirteen-year-old Alison Carter vanishes from her town, an insular community that distrusts the outside world. For the young George Bennett, a newly promoted inspector, it is the beginning of his most difficult and harrowing case: a murder with no body, an investigation with more dead ends and closed faces than he'd have found in the anonymity of the inner city, and an outcome which reverberates through the years. Decades later he finally

tells his story to journalist Catherine Heathcote, but just when the book is poised for publication, Bennett unaccountably tries to pull the plug. He has new information which he refuses to divulge, new information that threatens the very foundations of his existence. Catherine is forced to re-investigate the past, with results that turn the world upside down. A Greek tragedy in modern England, Val McDermid's *A Place of Execution* is a taut psychological thriller that explores, exposes and explodes the border between reality and illusion in a multi-layered narrative that turns expectations on their head and reminds us that what we know is what we do not know. *A Place of Execution* is winner of the 2000 Los Angeles Times Book Prize and a 2001 Edgar Award Nominee for Best Novel.

Ari Meisel and Nick Sonnenberg recently launched a profitable Virtual Assistant (VA) business in just one day - challenging the startup mentality that every new venture requires months of planning and a large investment of capital. Their VA business was born from scribbled notes on a cocktail napkin during dinner and was an up-and-running less than 24 hours later. By following their 3 step process: Optimize, Automate, Outsource, they leveraged free, readily available digital tools and apps with no outlay of cash whatsoever. Meisel and Sonnenberg reveal tactics for building a scalable business in today's world. This fascinating and informative book chronicles their first year in business together. An essential read for any entrepreneur. It follows their journey from idea to execution, detailing a bold new approach to 21st century business based on a fearless ingenuity and a willingness to rewrite the rules.

Presumptions? or Facts!The State operates on presumptions. Courts operate on presumptions. But what binds me to their presumptions?Where's the contract? What obligations in the contract am I allegedly bound to perform? Did I agree to it? Was the contract valid? Was mutual consideration exchanged? What type of consideration was exchanged? What is in the contract that I am supposed to perform? Was I aware of the contract? Was the contract fully disclosed? Did I sign the contract with my autograph in ink?Statutory laws are public servant codes for society's slaves; for agents of government. You think you have a winning strategy. But do you? Executives are bombarded with bestselling ideas and best practices for achieving competitive advantage, but many of these ideas and practices contradict each other. Should you aim to be big or fast? Should you create a blue ocean, be adaptive, play to win—or forget about a sustainable competitive advantage altogether? In a business environment that is changing faster and becoming more uncertain and complex almost by the day, it's never been more important—or more difficult—to choose the right approach to strategy. In this book, The Boston Consulting Group's Martin Reeves, Knut Haanæs, and Janmejaya Sinha offer a proven method to determine the strategy approach that is best for your company. They start by helping you assess your business environment—how unpredictable it is, how much power you have to change it, and how harsh it is—a critical component of getting strategy right. They show how existing strategy approaches sort into five categories—Be Big, Be Fast, Be First, Be the Orchestrator, or simply Be Viable—depending on the extent of predictability, malleability, and harshness. In-depth explanations of each of these approaches will provide critical insight to help you match your approach to strategy to your environment, determine when and how to execute each one, and avoid a potentially fatal mismatch. Addressing your most pressing strategic challenges, you'll be able to answer questions such as: •What replaces planning when the annual cycle is

*obsolete? • When can we—and when should we—shape the game to our advantage? • How do we simultaneously implement different strategic approaches for different business units? • How do we manage the inherent contradictions in formulating and executing different strategies across multiple businesses and geographies? Until now, no book brings it all together and offers a practical tool for understanding which strategic approach to apply. Get started today.*

Embrace strategies for improving your business and reaching your organization's goals "I wholeheartedly agree with Patrick Stroh: Good leaders understand strategy and good strategists need to be good leaders. Make this book a strategic tool for improving your business strategy." — Harvey Mackay, author of the #1 New York Times bestseller *Swim With The Sharks Without Being Eaten Alive* In today's fast-moving and competitive business environment, strong leadership, insightful strategy, and effective innovation are critical links to staying ahead of your

competition. Getting your business house in order can often be complicated, but does it really have to be? How do you take MBA 101 lessons, great models, and exceptional concepts and put them into play in the real world? Business Strategy: Plan, Execute, Win! strives to answer these questions in an educational and entertaining format. Working as a Fortune 20 practitioner with C-level executives, author Patrick Stroh has a keen understanding of the role played by current day strategists. With 5 chapters following the format of "All I Ever Needed to Learn About Business Strategy I Learned..." At the Movies, On the Farm, On Shark Tank, On Hell's Kitchen, and From the Bible, readers will gain valuable strategic insight regardless of industry, business maturity, or current business turbulence and how to apply these insights based on the factors impacting their own business. Each chapter ends with a One Chapter Conclusion, Two Gold Nuggets the reader is to write down and Three Additional Resources/Tools for more information, offering a practical roadmap to simplifying your success.

THE MILLION COPY INTERNATIONAL BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power.

(From the Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In The 48 Laws of Power, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, Volume Three, was wack. People set higher standards for me, and I love it.

Six Disciplines Execution Revolution

The Discipline of Getting Things Done

**How to close the gap between strategy and execution Two-thirds of executives say their organizations don't have the capabilities to support their strategy. In Strategy That Works, Paul Leinwand and Cesare Mainardi explain why. They identify conventional business practices that unintentionally create a gap between strategy and execution. And they show how some of the best companies in the world consistently leap ahead of their competitors. Based on new research, the authors reveal five practices for connecting strategy and execution used by highly successful enterprises such as IKEA, Natura, Danaher, Haier, and Lego. These companies:**

- Commit to what they do best instead of chasing multiple opportunities
- Build their own unique winning capabilities instead of copying others
- Put their culture to work instead of struggling to change it
- Invest where it matters instead of going lean across the board
- Shape the future instead of reacting to it

**Packed with tools you can use for building these five practices into your organization and supported by in-depth profiles of companies that are known for making their strategy work, this is your guide for reconnecting strategy to execution.**

**Describes the trial and execution of the three men charged with the murder of Marion Miley, a professional golfer, and explains how the case convinced Warden Jesse Buchanan of the Kentucky State Penitentiary to change his position on capital punishment**

**Be the One To Execute Your Trust**

**In 1989, Texas executed Carlos DeLuna, a poor Hispanic man with childlike intelligence, for the murder of Wanda Lopez, a convenience store clerk. His execution passed unnoticed for years until a team of Columbia Law School faculty and students almost accidentally chose to investigate his case and found that DeLuna almost certainly was innocent. They discovered that no one had cared enough about either the defendant or the victim to make sure the real perpetrator was found. Everything that could go wrong in a criminal case did. This book documents DeLuna's conviction, which was based on a single, nighttime, cross-ethnic eyewitness identification with no corroborating forensic evidence. At his trial, DeLuna's defense, that another man named Carlos had committed the crime, was not taken seriously. The lead prosecutor told the jury that the other Carlos, Carlos Hernandez, was a "phantom" of DeLuna's imagination. In upholding the death penalty on appeal, both the state and federal courts concluded the same thing: Carlos Hernandez did not exist. The evidence the Columbia team uncovered reveals that Hernandez not only existed but was well known to the police and prosecutors. He had a long history of violent crimes similar to the one for which DeLuna was executed. Families of both Carloses mistook photos of each for the other, and Hernandez's violence continued after DeLuna was put to death. This book and its website ([thewrongcarlos.net](http://thewrongcarlos.net)) reproduce law-enforcement, crime lab, lawyer, court, social service, media, and witness records, as well as court transcripts, photographs, radio traffic, and audio and videotaped interviews, documenting one of the most comprehensive**

**investigations into a criminal case in U.S. history. The result is eye-opening yet may not be unusual. Faulty eyewitness testimony, shoddy legal representation, and prosecutorial misfeasance continue to put innocent people at risk of execution. The principal investigators conclude with novel suggestions for improving accuracy among the police, prosecutors, forensic scientists, and judges.**
