

## Bridge Rel:Buddhas Birthday Cas (Bridges To Religions)

Letters from Bhikshus Heng Sure and Heng Chau to Venerable Master Hua written while on their bowing pilgrimage in 1977. During the 2 1/2 years pilgrimage the monks traveled from Los Angeles to the City of Ten Thousand Buddhas, Talmage, bowing once every three steps.

This is the story of LSD told by a concerned yet hopeful father, organic chemist Albert Hofmann. He traces LSDs path from a promising psychiatric research medicine to a recreational drug sparking hysteria and prohibition. We follow Dr. Hofmanns trek across Mexico to discover sacred plants related to LSD, and listen in as he corresponds with other notable figures about his remarkable discovery. Underlying it all is Dr. Hofmanns powerful conclusion that mystical experience may be our planets best hope for survival. Whether induced by LSD, meditation, or arising spontaneously, such experiences help us to comprehend the wonder, the mystery of the divine in the microcosm of the atom, in the macrocosm of the spiral nebula, in the seeds of plants, in the body and soul of people. Now, more than sixty years after the birth of Albert Hofmanns problem child, his vision of its true potential is more relevant, and more needed, than ever.

"Pollan keeps you turning the pages . . . cleareyed and assured." –New York Times A #1 New York Times Bestseller, New York Times Book Review 10 Best Books of 2018, and New York Times Notable Book A brilliant and brave investigation into the medical and scientific revolution taking place around psychedelic drugs--and the spellbinding story of his own life-changing psychedelic experiences When Michael Pollan set out to research how LSD and psilocybin (the active ingredient in magic mushrooms) are being used to provide relief to people suffering from difficult-to-treat conditions such as depression, addiction and anxiety, he did not intend to write what is undoubtedly his most personal book. But upon discovering how these remarkable substances are improving the lives not only of the mentally ill but also of healthy people coming to grips with the challenges of everyday life, he decided to explore the landscape of the mind in the first person as well as the third. Thus began a singular adventure into various altered states of consciousness, along with a dive deep into both the latest brain science and the thriving underground community of psychedelic therapists. Pollan sifts the historical record to separate the truth about these mysterious drugs from the myths that have surrounded them since the 1960s, when a handful of psychedelic evangelists inadvertently catalyzed a powerful backlash against what was then a promising field of research. A unique and elegant blend of science, memoir, travel writing, history, and medicine, How to Change Your Mind is a triumph of participatory journalism. By turns dazzling and edifying, it is the gripping account of a journey to an exciting and unexpected new frontier in our understanding of the mind, the self, and our place in the world. The true subject of Pollan's "mental travelogue" is not just psychedelic drugs but also the eternal puzzle of human consciousness and how, in a world that offers us both suffering and joy, we can do our best to be fully present and find meaning in our lives.

"Korean art is often considered to be subordinate to Chinese art or a bridge between China and Japan. Moreover, as most Korean art history is known through the work of Japanese and Euro-American scholars, there is room for misunderstanding on the subject. But while Korean Buddhist sculpture, one of the fields representing the essence of Korean art, was certainly influenced by and is similar to Chinese sculpture at first glance, it went beyond such influence to develop many unique characteristics. The seven essays in this book investigate in-depth three examples that show this aspect of Korean sculpture--pensive images, Seokguram cave temple, and the Divine Bell of King Seongdeok, which were produced during the period between the 6th and 8th centuries. When we stand before a wonderful work of art we feel a sense of delight and experience catharsis because the artwork represents the oneness of truth and beauty. The works discussed in this book are those that show that truth is beauty and beauty is truth. Indeed, it is impossible to express absolute truth in formative language without achieving absolute beauty, and through the formative arts the author has endeavored to understand the zeitgeist that gave birth to such works. These seven essays deal not only with the iconographical and stylistic aspects, but also the philosophical side of these works of art, and thus attempt to demonstrate that there is an inseparable relationship between religious truth and artistic style." -- Publisher's description

The Interpretation of Cultures

The Dude and the Zen Master

Art and Truth

Family in Six Tones

Research of Martial Arts

I Am a Strange Loop

The perfect gift for fans of The Big Lebowski, Jeff Bridges's "The Dude", and anyone who could use more Zen in their lives. Zen Master Bernie Glassman compares Jeff Bridges's iconic role in The Big Lebowski to a Lamed-Vavnik: one of the men in Jewish mysticism who are "simple and unassuming," and "so good that on account of them God lets the world go on." Jeff puts it another way. "The wonderful thing about the Dude is that he'd always rather hug it out than slug it out." For more than a decade, Academy Award-winning actor Jeff Bridges and his Buddhist teacher, renowned Roshi Bernie Glassman, have been close friends. Inspiring and often hilarious, The Dude and the Zen Master captures their freewheeling dialogue and remarkable humanism in a book that reminds us of the importance of doing good in a difficult world.

An original, endlessly thought-provoking, and controversial look at the nature of consciousness and identity argues that the key to understanding selves and consciousness is the "strange loop," a special kind of abstract feedback loop inhabiting our brains.

The Pulitzer Prize-winning, New York Times-bestselling novel about a peasant farmer and his family in early twentieth-century China. The Good Earth is Buck's classic story of Wang Lung, a Chinese peasant farmer, and his wife, O-lan, a former slave. With luck and hard work, the couple's fortunes improve over the years: They are blessed with sons, and save steadily until one day they can afford to buy property in the House of Wang--the very house in which O-lan used to work. But success brings with it a new set of problems. Wang soon finds himself the target of jealousy, and as good harvests come and go, so does the social order. Will Wang's family cherish the estate after he's gone? And can his material success, the bedrock of his life, guarantee anything about his soul? Winner of the Pulitzer Prize and the William Dean Howells Award, The Good Earth was an Oprah's Book Club choice in 2004. A readers' favorite for generations, this powerful and beautifully written fable resonates with universal themes of hope and family unity. This ebook features an illustrated biography of Pearl S. Buck including rare images from the author's estate.

David Crystal's classic English as a Global Language considers the history, present status and future of the English language, focusing on its role as

the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

Out of the Ordinary

Prehistory to the Space Age

*The dramatic arc of Saigo Takamori's life, from his humble origins as a lowly samurai, to national leadership, to his death as a rebel leader, has captivated generations of Japanese readers and now Americans as well - his life is the inspiration for a major Hollywood film, The Last Samurai, starring Tom Cruise and Ken Watanabe. In this vibrant new biography, Mark Ravina, professor of history and Director of East Asian Studies at Emory University, explores the facts behind Hollywood storytelling and Japanese legends, and explains the passion and poignancy of Saigo's life. Known both for his scholarly research and his appearances on The History Channel, Ravina recreates the world in which Saigo lived and died, the last days of the samurai. The Last Samurai traces Saigo's life from his early days as a tax clerk in far southwestern Japan, through his rise to national prominence as a fierce imperial loyalist. Saigo was twice exiled for his political activities -- sent to Japan's remote southwestern islands where he fully expected to die. But exile only increased his reputation for loyalty, and in 1864 he was brought back to the capital to help his lord fight for the restoration of the emperor. In 1868, Saigo commanded his lord's forces in the battles which toppled the shogunate and he became and leader in the emperor Meiji's new government. But Saigo found only anguish in national leadership. He understood the need for a modern conscript army but longed for the days of the traditional warrior. Saigo hoped to die in service to the emperor. In 1873, he sought appointment as envoy to Korea, where he planned to demand that the Korean king show deference to the Japanese emperor, drawing his sword, if necessary, to defend imperial honor. Denied this chance to show his courage and loyalty, he retreated to his homeland and spent his last years as a schoolteacher, training samurai boys in frugality, honesty, and courage. In 1876, when the government stripped samurai of their swords, Saigo's followers rose in rebellion and Saigo became their reluctant leader. His insurrection became the bloodiest war Japan had seen in centuries, killing over 12,000 men on both sides and nearly bankrupting the new imperial government. The imperial government denounced Saigo as a rebel and a traitor, but their propaganda could not overcome his fame and in 1889, twelve years after his death, the government relented, pardoned Saigo of all crimes, and posthumously restored him to imperial court rank. In THE LAST SAMURAI, Saigo is as compelling a character as Robert E. Lee was to Americans—a great and noble warrior who followed the dictates of honor and loyalty, even though it meant civil war in a country to which he'd devoted his life. Saigo's life is a fascinating look into Japanese feudal society and a history of a country as it struggled between its long traditions and the dictates of a modern future.*

*Originally published in 1928, The Secret Teachings of All Ages is Manly P. Hall's celebrated 20th century tome, where readers delight in discussions about ancient symbolism, rituals, and mythology. Manly P. Hall was a Canadian Author of over 150 published works, the best known of which are Initiates of the Flame, The Story of Healing, The Divine Art, Aliens Magic and Sorcery The Secret Teachings of All Ages, and An Encyclopedic Outline of Masonic, Hermetic, Qabbalistic Rosicrucian Symbolical Philosophy. Symbolism is the language of the Mysteries; in fact it is the language not only of mysticism and philosophy but of all Nature, for every law and power active in universal procedure is manifested to the limited sense perceptions of man through the medium of symbol. Every form existing in the diversified sphere of being is symbolic of the divine activity by which it is produced. By symbols men have ever sought to communicate to each other those thoughts which transcend the limitations of language. This book is often hailed as an encyclopedia for all things hidden, ancient, and arcane, and it explores a vast array of topics, from secret societies and the Zodiac to Mystic Christianity and William Shakespeare's identity. Despite some of the outdated and controversial ideas it poses now in the 21st century, it continues to fascinate students of the cryptic and mysterious. Now available for the first time—more than 50 years after it was written—is the memoir of Michael Dillon/Lobzang Jivaka (1915–62), the British doctor and Buddhist monastic novice chiefly known to scholars of sex, gender, and sexuality for his pioneering transition from female to male between 1939 and 1949, and for his groundbreaking 1946 book Self: A Study in Ethics and Endocrinology. Here at last is Dillon/Jivaka's extraordinary life story told in his own words. Out of the Ordinary captures Dillon/Jivaka's various journeys—to Oxford, into medicine, across the world by ship—within the major narratives of his gender and religious journeys. Moving chronologically, Dillon/Jivaka*

*begins with his childhood in Folkestone, England, where he was raised by his spinster aunts, and tells of his days at Oxford immersed in theology, classics, and rowing. He recounts his hormonal transition while working as an auto mechanic and fire watcher during World War II and his surgical transition under Sir Harold Gillies while Dillon himself attended medical school. He details his worldwide travel as a ship's surgeon in the British Merchant Navy with extensive commentary on his interactions with colonial and postcolonial subjects, followed by his "outing" by the British press while he was serving aboard The City of Bath. Out of the Ordinary is not only a salient record of an early sex transition but also a unique account of religious conversion in the mid-twentieth century. Dillon/Jivaka chronicles his gradual shift from Anglican Christianity to the esoteric spiritual systems of George Gurdjieff and Peter Ouspensky to Theravada and finally Mahayana Buddhism. He concludes his memoir with the contested circumstances of his Buddhist monastic ordination in India and Tibet. Ultimately, while Dillon/Jivaka died before becoming a monk, his novice ordination was significant: It made him the first white European man to be ordained in the Tibetan Buddhist tradition. Out of the Ordinary is a landmark publication that sets free a distinct voice from the history of the transgender movement.*

*This is the fourth volume in an operational and chronological series covering the U.S. Marine Corps' participation in the Vietnam War. This volume details the change in focus of the III Marine Amphibious Force (III MAF), which fought in South Vietnam's northernmost corps area, I Corps. This volume, like its predecessors, concentrates on the ground war in I Corps and III MAF's perspective of the Vietnam War as an entity. It also covers the Marine Corps participation in the advisory effort, the operations of the two Special Landing Forces of the U.S. Navy's Seventh Fleet, and the services of Marines with the staff of the U.S. Military Assistance Command, Vietnam. There are additional chapters on supporting arms and logistics, and a discussion of the Marine role in Vietnam in relation to the overall American effort.*

"This well-informed book provides a comprehensive survey of a variety of Buddhist traditions in the contemporary U.S. . . . [its] strength, apart from being a mine of information, is Seager's insistence on taking a historically informed and comparative perspective." - Religious Studies Review.

"A brilliant duet and a moving exploration of the American immigrant experience."--Ruth Ozeki, author of *A Tale for the Time Being* A dual first-person memoir by the acclaimed Vietnamese-American novelist and her thoroughly American teenage daughter In 1975, thirteen-year-old Lan Cao boarded an airplane in Saigon and got off in a world where she faced hosts she had not met before, a language she didn't speak, and food she didn't recognize, with the faint hope that she would be able to go home soon. Lan fought her way through confusion, and racism, to become a successful lawyer and novelist. Four decades later, she faced the biggest challenge in her life: raising her daughter Harlan--half Vietnamese by birth and 100 percent American teenager by inclination. In their lyrical joint memoir, told in alternating voices, mother and daughter cross ages and ethnicities to tackle the hardest questions about assimilation, aspiration, and family. Lan wrestles with her identities as not merely an immigrant but a refugee from an unpopular war. She has bigoted teachers who undermine her in the classroom and tormenting inner demons, but she does achieve--either despite or because of the work ethic and tight support of a traditional Vietnamese family struggling to get by in a small American town. Lan has ambitions, for herself, and for her daughter, but even as an adult feels tentative about her place in her adoptive country, and ventures through motherhood as if it is a foreign landscape. Reflecting and refracting her mother's narrative, Harlan fiercely describes the rites of passage of childhood and adolescence, filtered through the aftereffects of her family's history of war, tragedy, and migration. Harlan's struggle to make friends in high school challenges her mother to step back and let her daughter find her own way. *Family in Six Tones* speaks both to the unique struggles of refugees and to the universal tug-of-war between mothers and daughters. The journey of an immigrant--away from war and loss toward peace and a new life--and the journey of a mother raising a child to be secure and happy are both steep paths filled with detours and stumbling blocks. Through explosive fights and painful setbacks, mother and daughter search for a way to accept the past and face the future together.

Hakuin Ekaku Zenji (1686-1769) was one of the greatest Zen masters ever to live. Originator of the famous koan "What is the sound of a single hand?" he is credited with reviving the Rinzai sect of Zen in Japan, and today all masters of that sect trace their lineage back to him.

Through his numerous descendants, his influence is now felt worldwide, with his "Song of Zazen" chanted daily in temples around the globe.

Norman Waddell has spent decades reading and translating Hakuin's vast writings. He has published several previous selections, all leading to his work on this monumental gathering, the Keiso Dokuzui, little known in Japan and never before translated into any foreign language.

Interpreting such a text requires immersion in the material in its original language, as well as complete mastery of the available commentary. Probably no one alive is as fully prepared for this important and difficult task as Dr. Waddell. For this collection, Hakuin gathered together an enormous number and variety of pieces—commentaries, memorials, poems, koans, teisho (lectures), letters, and more. Having presented many of them live to the throng of students residing in and around his temple as well as to other audiences around the country,

Every day, billions of photographs, news stories, songs, X-rays, TV shows, phone calls, and emails are being scattered around the world as sequences of zeroes and ones: bits. We can't escape this explosion of digital information and few of us want to—the benefits are too seductive. The technology has enabled unprecedented innovation, collaboration, entertainment, and democratic participation. But the same engineering marvels are shattering centuries-old assumptions about privacy, identity, free expression, and personal control as more and more details of our lives are captured as digital data. Can you control who sees all that personal information about you? Can email be truly confidential, when nothing seems to be private? Shouldn't the Internet be censored the way radio and TV are? Is it really a federal crime to download music? When you use Google or Yahoo! to search for something, how do they decide which sites to show you? Do you still have free speech in the digital world? Do you have a voice in shaping government or corporate policies about any of this? *Blown to Bits* offers provocative answers to these questions and tells intriguing real-life stories. This book is a wake-up call to the human consequences of the digital explosion.

The ancient region of Gandhara, with its prominent Buddhist heritage, has long fascinated scholars of art history, archaeology, and textual studies. Discoveries of inscript fragments, sites, and artworks in the last decade have redefined how we understand the region and its cultural complexity. The essays in this volume reassess Gandhara light of these findings, utilizing a multidisciplinary approach that illuminates the complex historical and cultural dynamics of the region. By integrating archaeology, art his numismatics, epigraphy, and textual sources, the contributors articulate the nature of Gandharan Buddhism, its practices, and the significance of the relic tradition.

**Jonathan Bluestein's Research of Martial Arts is a book about the true essence of martial arts. It includes neither instruction on deadly killing techniques, nor mystical tales of so called super-human masters. Rather, it is a vast compilation of seriously thought-out observations made on the subject by the author, as well as many other martial artists and scientists, with a slight touch of history and humour. The goal of this project had from the start been to surpass the current standard in the martial arts literary market, and offer readers worldwide something which they have never seen before. In essence, a book in which are found countless answers for martial arts practitioners which they cannot be read elsewhere, which address commonly discussed martially-related topics with breadth and depth unparalleled in other works to this day (in any language). It holds among its pages no less than 220,000 words, containing knowledge which would be coveted by many. The aim of this book is to present the reader a coherent, clear-cut, and in-depth view of some of the most perplexing and controversial subjects in the world of martial arts, as well as providing a healthy dose of philosophical outlook on these subjects (from various individuals). At its core is the author's aspiration to build a stronger theoretical foundation for the discussion of martial arts, while addressing matters in innovative ways, which I have come to believe, would help people to better grasp the nature of these arts. There are books by authors who will tell you that some aspects of the martial arts are too complex for concrete, coherent and defined explanations. Others have used ambiguous terminology to explain what they could not pronounce otherwise. This is no such book. This book was written to provide you with the solid, applicable answers and ideas that you could actually understand, and take away with you. This book is mainly comprised of three parts: | Part I: From the Inside Out - External and Internal Gong Fu | This is essentially mostly a very long & thorough discussion of martial arts theory and practice. Traditional and modern concepts and methods are discussed through the mediums of Physiology, Biology, Anatomy, Psychology, Philosophy (Western and Oriental alike), sports science, and the author's personal experiences. The Internal Martial Arts of China receive a special, lengthier treatment in this part of the book. | Part II: Contemplations on Controlled Violence | This one is of a Philosophical and Psychological nature, and contains the author's thoughts on the martial arts and their manifestation in our daily lives, with guest-articles by various martial arts teachers. | Part III: The Wisdom of Martial Spirits: Teachers, and the Things They Hold Dear | This part includes various interesting and comprehensive interviews with distinguished**

*martial arts masters, spanning dozens of pages each. Every one of the interviewees is a person whose views and ideas are thought provoking and well-worth reading. The teachers interviewed in this book are: Master Chen Zhonghua (Chen Taiji Quan) Master Yang Hai (Xing Yi Quan, Bagua Zhang and Chen Taiji Quan) Shifu Strider Clark (Tongbei Quan, Wu style Taiji, Shuai Jiao and more) Shifu Neil Ripski (Traditional Drunken Fist and many others) Sifu James Cama (Buddha Hand Wing Chun and Southern Praying Mantis) Itzik Cohen Sensei (Shito-ryu Karate) No matter the age, rank, status or experience - this book was written for everyone who see themselves part of the martial arts community. It is my sincere hope that any person who reads this book will benefit from the time he or she had spent doing so. May this work encourage others to continue intelligent writing and research in the field, as I was pushed forth and built upon the knowledge others have shared before me. May you have a pleasant reading experience! =]*

**EIR RELEASES ROAD-MAP TO THE NEW WORLD ECONOMIC ORDER: THE NEW SILK ROAD BECOMES THE WORLD LAND-BRIDGE** EIR's comprehensive study of the progress of the Eurasian Land-Bridge project which Lyndon and Helga LaRouche have championed for over 20 years, has finally been completed. The official release date is Dec. 1. The 374-page report, entitled *The New Silk Road Becomes the World Land-Bridge*, "is nothing less than a conceptual, and often physical, road-map" to a New World Economic Order. This path is currently being charted by the nations of the BRICS (Brazil, Russia, India, China, and South Africa), who are leading a dynamic of global optimism toward real economic development, complete with new credit institutions and major high-technology projects for uplifting all mankind. After an introduction by Helga Zepp-LaRouche, the report lays out the "Metrics of Progress," based on the economic scientific principles developed by renowned physical economist Lyndon LaRouche. It then proceeds region by region, beginning with China and Russia, to present the stunning progress, and plans, which have been made toward the Eurasian Land-Bridge design that the Chinese government laid out in 1996, and other nations have begun to rally behind in recent years. The report, complete with many full-color maps of its featured development corridors, is available in paperback for \$50 and hard cover bound for \$75.

**The Secret Teachings of All Ages**

*The story of a former Evangelical Christian turned openly gay atheist who now works to bridge the divide between atheists and the religious The stunning popularity of the "New Atheist" movement—whose most famous spokesmen include Richard Dawkins, Sam Harris, and the late Christopher Hitchens—speaks to both the growing ranks of atheists and the widespread, vehement disdain for religion among many of them. In *Faithist*, Chris Stedman tells his own story to challenge the orthodoxies of this movement and make a passionate argument that atheists should engage religious diversity respectfully. Becoming aware of injustice, and craving community, Stedman*

*became a “born-again” Christian in late childhood. The idea of a community bound by God’s love—a love that was undeserved, unending, and guaranteed—captivated him. It was, he writes, a place to belong and a framework for making sense of suffering. But Stedman’s religious community did not embody this idea of God’s love: they were staunchly homophobic at a time when he was slowly coming to realize that he was gay. The great suffering this caused him might have turned Stedman into a life-long New Atheist. But over time he came to know more open-minded Christians, and his interest in service work brought him into contact with people from a wide variety of religious backgrounds. His own religious beliefs might have fallen away, but his desire to change the world for the better remained. Disdain and hostility toward religion was holding him back from engaging in meaningful work with people of faith. And it was keeping him from full relationships with them—the kinds of relationships that break down intolerance and improve the world. In *Faitheist*, Stedman draws on his work organizing interfaith and secular communities, his academic study of religion, and his own experiences to argue for the necessity of bridging the growing chasm between atheists and the religious. As someone who has stood on both sides of the divide, Stedman is uniquely positioned to present a way for atheists and the religious to find common ground and work together to make this world—the one world we can all agree on—a better place.*
