

Courage To Act: 5 Factors Of Courage To Transform Business: Five Factors Of Courage To Transform Business

What does it take for women to succeed in a male-dominated world? The Grit Factor. At age nineteen, Shannon Huffman Polson became the youngest woman ever to climb Denali, the highest mountain in North America. She went on to reach the summits of Mt. Rainier and Mt. Kilimanjaro and spent more than a decade traveling the world. Yet it was during her experience serving as one of the Army's first female attack helicopter pilots, and eventually leading an Apache flight platoon on deployment to Bosnia-Herzegovina, that she learned the lessons of leadership that forever changed her life. Where did these insights come from? From her own crucibles of experienceand from other women. In writing The Grit Factor, Polson made it her mission to connect with an elite pack of tough, impressive female iconoclasts who shared with her their candid stories of combat and career. This slate of decorated leaders includes Heather Penney, one of the first female F-16 pilots, who was put on a suicide mission for 9/11; General Ann Dunwoody, the first female four-star general in the Army; Amy McGrath, the first female Marine to fly the F/A-18 in combat and a 2020 candidate for the US Senateand dozens of other unstoppable women who got there first, including Polson herself. These women led at the highest levels in the most complicated, challenging, and male-dominated organization in the world. Now, in the post#MeToo era, when positive role models of women leading are needed as never before, Polson brings these voices together, sharing her own life lessons and theirs with storytelling flair, keen insight, and incisive analysis of current research. With its gripping narrative and relatable takeaways, The Grit Factor is both inspiring and pragmatic, a book that will energize and enlighten current and aspiring leaders everywherewhether male or female.

Helps nurse executives ethically navigate the unique challenges and moral dilemmas of healthcare This unique text is the first to introduce professional moral courage as an essential competency in nurse executive leadership. It provides a foundation and understanding of the role of professional moral courage in nursing practice, places it in the context of current healthcare challenges and dilemmas, and identifies the characteristics and qualities required to lead in such situations. Authored by a seasoned nurse executive, the text begins with an overview of the healthcare environment; roles, responsibilities, and challenges of the nurse executive; and ethical dimensions of nurse executive practice. It then introduces the construct of professional moral courage, establishes a supporting competency framework, delineates a measurement tool, and provides guidance on how a nurse executive can develop and nurture this vital competency. Chapters provide real-world scenarios that highlight professional moral courage in action and its related consequences. Key Features: Provides a foundation in professional moral courage and describes why it is important to the nurse executive role Examines the impact of current healthcare challenges, as well as moral and ethical dilemmas in nurse executive leadership Establishes professional moral courage as a critical leadership competency and provides a supporting framework and measurement tool Guides nurse executives in the development and cultivation of professional moral courage Purchase includes digital access for use on most mobile devices or computers

Turbulence doesn't make it easy to get your voice heard, advance your career or make a difference. But it doesn't have to be fatal. If you Make Courage Contagious and PowerUP your brilliance and the brilliance of the people around you, you can turn turbulence into an adventure and profit through turbulence. Klein and Klein are business psychologists with 20+ years of experience building courage in innovation leaders and teams that lead transformation, that fund and scale entrepreneurial ventures, that accelerate post-M+A integrations, that prepare high-potential leaders for bigger and broader enterprise assignments. Klein and Klein reduce Courage to a 5-part formula - the EnCourage Quotient (EnQ)? - that the most successful business leaders learn to lift themselves and others out of victim thinking and 11 other risk-averse traps. They show how courage can be cultivated and developed, and encoded into your instincts. They show how you can take people who rub you the wrong way or who come from diverse backgrounds and profit from the tension and abrasion they bring to your team, to sharpen up your thinking. When leaders PowerUP Brilliance, instead of getting stuck, they find opportunities that go beyond their first idea and they mitigate threats that seemed daunting. Churchill said,

"Success is never final and failure is never fatal. It's Courage that counts." This book shows you how to put that to work - and make it contagious.

In much of the world, religious traditions are seriously valued but, in the context of religious plurality, this sets educationalists an enormous challenge. This book provides a way forward in exploring religious life whilst showing how bridges might be built between diverse religious traditions. Teaching Virtue puts engagement with religious life - and virtue ethics - at the heart of religious education, encouraging 'learning from' religion rather than 'learning about' religion. The authors focus on eight key virtues, examining these for what they can offer of religious value to pupils and teachers. Individual chapters put the discussion into context by offering a vision of what religious education in the future could look like; the need for responsible religious education; a historical review of moral education and an introduction to virtue ethics. Lesson plans and examples demonstrate how the virtues may be approached in the classroom, making it an invaluable guide for all involved in teaching religious education.

A work exposing and exploring the phenomena of the dysfunctional workplace is long overdue. This fascinating book does just that, uncovering the subversiveness, counter-productive behaviour and unspoken issues that managers struggle with on a daily basis. This Companion not only explores organizational dysfunction as it concerns individuals, it also examines broader issues of dysfunction and its effects with regards teams, managers and organizational systems. Lively discussion encompasses the symptoms of distress, illness, absenteeism, and inefficiency that point towards behavioural disorders and system-wide malfunction. From personality disorders to wars over territory , the book chronicles and reveals the true nature of often hidden workplace problems including bullying, unethical behaviour, loss of trust, organizational deviance, cowardice, workaholism, negative humour and emotions, personality disorders, mismanagement, and malfunctioning performance and selection systems. So what can be done? Practical solutions to these dysfunctional phenomena are presented by international experts from a range of disciplinary backgrounds including management, psychology and economics. This fascinating, highly original book will be of enormous interest to students, researchers, academics and practitioners across all sectors of business and management, human resource management in particular.

Many Christian pundits agree, the world is at a historic precipice and the cusp of an unprecedented move of the Holy Spirit. It is Gods desire that, no church, Christian fellowship, group, team, ministry or association be left behind. However, both leaders and followers within Christianity tend to overlook a crucial factor that could undermine and upend the progress of trustworthiness reposed within those who work, serve, and worship alongside them, as they hunger and pursue the upcoming spiritual revival. More than three decades of working within church and leadership training outfits has taught the author, that measuring the fidelity within spiritual workers is as crucial as pursuing the vision of the organization itself. The marital problem, but is generally a corporate problem, affecting the attitudes of individuals towards: group goals, aspirations, dreams, visions and values. The potential for unfaithfulness hides within every corporate organization. Sometimes in the most unlikely places, such as churches, it can rear its ugly head. Confronting this issue is the responsibility of church grom members, who must expunge all forms of infidelity from their midst if their organizations are to survive, thrive and achieve lasting revival. Through using specific biblical principles, The Fidelity Factor tackles the subject of corporate church fidelity from a variety of angles, empowering the reader to identify this problem and thus contribute to building stronger organi God.

#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she’s showing us how to put those ideas into practice so we can step up and lead. Don’t miss the five-part HBO Max docuseries Brené Brown BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don’t pretend to have the right answers; we stay curious and ask the right questions. We don’t see power as infinite when we share it with others. We don’t avoid difficult conversations and situations; we lean into vulnerability when it’s necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we’re choosing not to invest in developing the skills we’re scrambling to figure out what we have to offer that machines and AI can’t do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with leaders to help them do it better. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and data from millions of readers have come to expect and love. Brown writes, “One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It’s learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because it’s not about being perfect. It’s about being brave. It’s about daring. It’s about showing up. It’s about being brave with our lives and our work. It’s why we’re here.” Whether you’ve read Daring Greatly and Rising Strong or you’re new to Brené Brown’s work, this book is for anyone who wants to step up and into brave leadership.

This is a book about Courage and Patriotism. It tells the dramatic stories of a number of American politicians of various political and regional allegiances whose one overriding loyalty was to the United States and to the right as God gave them to see it. They range from born aristocrats to self-made men. Some are well-known, some almost forgotten. But all of them, in the face of dreadful consequences, exhibited a special kind of greatness. These stories about them remind us sharply that there is, in addition to a courage with which men die, a courage by which men must live. —Print Ed.

The instant New York Times, Wall Street Journal, and USA Today Bestseller! Ryan Holiday's bestselling trilogy—The Obstacle Is the Way, Ego is the Enemy, and Stillness is the Key—captivated professional athletes, CEOs, politicians, and entrepreneurs and helped bring Stoicism to millions of readers. Now, in the first book of an exciting new series on the cardinal virtues of ancient philosophy, Holiday explores the most foundational virtue of all: Courage. Almost every religion, spiritual practice, philosophy and person grapples with fear. The most repeated phrase in the Bible is “Be not afraid.” The ancient Greeks spoke of phobos, panic and terror. It is natural to feel fear, the Stoics believed, but it cannot rule you. Courage, then, is the ability to rise above fear, to do what’s right, to do what’s needed, to do what is true. And so it rests at the heart of the works of Marcus Aurelius, Aristotle, and CS Lewis, alongside temperance, justice, and wisdom. In *Courage Is Calling*, Ryan Holiday breaks down the elements of fear, an expression of cowardice, the elements of courage, an expression of bravery, and lastly, the elements of heroism, an expression of valor. Through engaging stories about historic and contemporary leaders, including Charles De Gaulle, Florence Nightingale, and Dr. Martin Luther King Jr., Holiday shows you how to conquer fear and practice courage in your daily life. You'll also delve deep into the moral dilemmas and courageous acts of lesser-known, but equally as important, figures from ancient and modern history, such as Helvidius Priscus, a Roman Senator who stood his ground against emperor Vespasian, even in the face of death; Frank Serpico, a former New York City Police Department Detective who exposed police corruption; and Frederick Douglass and a slave named Nelly, whose fierce resistance against her captors inspired his own crusade to end slavery. In a world in which fear runs rampant—when people would rather stand on the sidelines than speak out against injustice, go along with convention than bet on themselves, and turn a blind eye to the ugly realities of modern life—we need courage more than ever. *We need the courage of*

whistleblowers and risk takers. We need the courage of activists and adventurers. We need the courage of writers who speak the truth—and the courage of leaders to listen. We need you to step into the arena and fight.

This edited volume, featuring five new chapters from invited authors, provides an updated and evidence-based explanation of leadership within a healthcare environment. The book discusses new insights garnered from recent research into the importance of leadership in health system redesign and highlights the practice of shared or distributed health care leadership. New chapters covering LEADS in a national, regional, Indigenous, health profession, and people-centred care context provide new insights into how LEADS is being put to work to transform health systems. The LEADS framework has been refreshed in relation to each of its different elements and tools, with an emphasis on providing real-life examples of how LEADS has been put to work. LEADS is also explained as a change leadership model and in relation to how it helps to level the playing field in terms of gender and diversity in health leadership. The book aims to inform the leadership needs of health reform and its emergent system wide challenges. The content is relevant to health care administrators and professionals working within the public service, academic institutions, and health care delivery organisations. This myth-busting book will alter your leadership perspectives and practices by providing cutting edge substance, compelling examples, and insightful tools. —Chip R. Bell, author of Inside Your Customer's Imagination All we know with absolute certainty is that we live in complex, uncertain, and rapidly changing times. Despite our best attempts to predict the future, we are often caught off-guard and surprised when it arrives. Whether a once-in-a-lifetime pandemic, global economic shifts, political upheaval, or technological evolution, as senior leaders we must navigate these tumultuous times and make tough decisions to guide our organizations to success. Champion leaders want to be truly exceptional regardless of the maelstrom of change they are experiencing. Not only do they want their organizations to succeed, but they also want to live fulfilling lives. They want the same for those in their organizations and personal lives as well. How do we effectively lead in times of constant, often dramatic change? And, equally important, how do we simultaneously create a satisfying, meaningful life? The C2 Factor – the synergistic application of curiosity and courage – offers a path to This book reveals that when leaders manifest both traits, they embrace the professional and personal opportunities the future brings. When the landscape is shifting beneath our feet the C2 Factor enables us to lead more effectively and helps us cultivate more fulfilling personal lives. While other books have looked at curiosity and courage separately, The C2 Factor for Leadership examines how, when combined, profound curiosity and relentless courage lead to remarkable outcomes. One enhances the other in a powerful alchemy that improves our outcomes, how we show up as leaders in our organizations and as human beings in our personal lives. Beginning with ourselves and expanding to our relationships, our teams, our organizations, and to the world, this book demonstrates how the C2 Factor can be applied for superior results.To be a truly exceptional leader, to live a satisfying life, we must have profound curiosity and relentless courage. We must exercise the C2 Factor. Without it, we run the risk of being leaders who are robotic, academic, or reckless. With the C2 Factor, we can be champions.

Using case studies and self-assessment tools culled from a variety of companies and institutions, the authors identify five factors that determine the success of a business.

This book claims that CSR is the Tao of sustainable enterprise development. It examines the intersection of practical wisdom of Taoism, CSR and Sustainability, looking at the theoretical and historical implications associated with a Taoist approach to CSR, sustainability and responsible leadership. Implications for sustainable enterprise development will be presented. The book analyzes perspectives found in Taoist classical texts and within the larger Chinese cultural context in order to delineate key issues found in the classical texts. Through these analyses, the book assesses the applicability of modern-day Taoism thought and practice in China and the West with respect to the contemporary sustainability situation. The book also explores the values, ideas and practices Taoism offers to inspire a new generation of leaders, and particularly business leaders to manage companies in a more social and sustainable way.

In industrialized societies, individuals are facing major challenges that mobilize many of their psychological and social resources. The world of work is changing constantly. Adults have to adapt their technical skills and knowledge continuously. For teenagers and young adults, choosing a vocation and constructing their future career paths is becoming increasingly difficult. The migration of people and the globalization of the workforce raise questions about social inclusion and the future of affected individuals. These examples highlight of the importance of the field of Career Counseling and Guidance to support citizens individually and collectively in building their future. The challenges our societies face demonstrate how crucial the development of research in this field is.

The European Doctoral Programme in Career Guidance and Counselling (ECADOC), funded by the European Commission from 2013-2016, has brought together PhD students working on burning issues in this field, using various theoretical references and methodologies. The four parts of this book present a selection of innovative research aiming to find answers to the named challenges.

Part 1 deals with key psychological processes involved in career construction of young adults. Part 2 presents research concerning transitions over the course of life. Part 3 covers research related to interventions of career guidance and counseling. Part 4 outlines perspectives for the future and proposes a European Research Agenda for our field of research. Perspectives on Current Research in Career Guidance and Counseling – Building Careers in Changing and Diverse Societies is dedicated to students, researchers and practitioners in the fields of education, career guidance, psychology, human resource management to inform them about very recent work and promote the development of innovative interventions and programmes.

Are you winning the battle but losing the war? Every leader has to deliver the goods—make budget, meet deadlines, and deftly manage people—to provide the inspirational fuel that keeps their business running day-in and day-out. But therein lies the danger of winning today's battle and losing the war—that is the long game of creating sustainable value in a volatile, uncertain world that is becoming ever-more complex and ambiguous. The greater purpose—today's number one business challenge—is winning the long game by being more strategic; developing the skills to look outside the four walls of the organization and see the world from the future back. Steven Krupp and Paul J. H. Schoemaker bridge the gap between what many see as the separate domains of strategy and leadership to show how to develop the discipline of strategic leadership in a world of growing uncertainty. While pragmatic to the core, Winning the Long Game creates vivid insights into the discipline of strategic leadership by applying it systemically through personal portraits of successful business leaders. The book profiles Elon Musk, Richard Branson, and Sara Blakely, as well as world-renowned figures like Pope Francis, Oprah Winfrey, and Nelson Mandela. What makes these strategic leaders successful is highlighted by contrasting them with others who are either mediocre or outright failures. Winning the Long Game is the must-have playbook for every leader and for any manager seeking to be become more strategic in today's topsy-turvy world.
