Lose yourself in the creative process with 35 meditative makes. In today's busy world, it can be difficult to find time to slow down and make time for the simple joy of making, so Clare Youngs has designed a wide range of beautiful and tempting projects to help you experience the pleasure and satisfaction that making something with your own hands can bring. The best thing about practicing mindfulness through craft is that you have something tangible to show at the end, and you can start small with the coral reef-inspired embroidery hoops, or just by making pompoms and tassels to be added to the edge of a pillow or blanket. You can learn techniques such as block printing, punch needling, shibori dyeing, weaving, macramé, and quilting, all of which encourage a mindful approach, and a way to experience a feeling of "flow". Make unique things for yourself and your home, using natural materials such as wool, cotton, linen, and leather. Clare is a believer in making new things from old, using what you have, and adapting old fabrics to counteract a throwaway society, and all her designs have a Scandinavian-inspired, modern esthetic.

Enter an enchanting world, inspired by nature, through coloring in these stunning artworks by Clare Youngs. Here you'll see magnificent collages by leading artists who show you—in step-by-step demonstrations—how to begin, how to design, how to apply collage techniques in exciting ways. Plus you'll get your chance to use those techniques with nearly fifty projects that challenge you to do your most creative work.

*Discover how to make creative, personal collages with advice, techniques, and projects from craft author and graphic designer Clare Youngs. We are all born with an inner desire to express ourselves. Making collages, especially in the form of art journals, gives you an opportunity to express thoughts, feelings, and wishes and to capture memories. It is a way of collating and putting thoughts in order. You can look back at filled pages with a real sense of accomplishment. Most of all it is fun! In *Creative Collage*, Clare Youngs reveals the secrets of collaging, one of her favorite crafts. Learn about the kinds of paper you can use, such as maps, tickets, photographs, typography, and magazine pages, and how to add texture, use layering, and make use of geometric designs. Some of Clare's amazing collages are included for inspiration, and she explains how she chose the materials and composition for each one. Clare then presents a collection of projects that offer unique ways to display your collages and even make 3-D collages, such as a decoupage chest of drawers and a family photo wooden block house. Along with helpful prompts to give you ideas for collages, such as “something you saw on a walk” or “a happy memory,” this book provides all you need to get started with this personal, expressive craft.*

Art Workshop for Children is not just another book of straightforward art projects. The book's unique child-led approach provides a framework for cultivating creative thinking and encourages the wonder that comes when children are allowed to freely explore the creative process and their materials. As children work through these open-ended workshops, adults are guided on how to be facilitators who provide questions, encourage deep thinking, and help spark an excitement for discovery. Children explore basic materials and workshops that use minimal supplies, and then gradually add new materials to fill the art cabinets as well as new skills and more complex workshops. Most workshops are suitable to preschool-aged children, and each contains ideas for explorations and new twists to engage older or more experienced artists. Interspersed throughout are sidebar essays that introduce perspectives on mess-making, imperfection, the role of adult, collaborative art, and
