Entertaining and empowering, What Men Really Want is the next best thing to a private appointment with the nation's premier matchmaker. The hardest part about dating is understanding the mysterious inner workings of a man's brain. How can women know what men are really looking for if men don't tell them? They can ask Janis. With over twenty years of experience as a professional matchmaker, Janis Spindel has a unique insider's perspective on contemporary dating culture. Her male clients tell her exactly what they want in a relationship, and here Janis offers women a step-by-step plan for winning a man's heart, such as: □ It's okay to ask a guy for his number, as long as you do it with confidence. □ Don't wear your work clothes on a date, ever! Freshen up before meeting a guy. □ Pay him a compliment! He's human. He'll love it. janisspindelmatchmaker.com

Modern romance is broken. It's time to flip the script. Apps have transformed dating into a mysterious maze and a daily chore. Young, single, college-educated women are sick and tired of competing for a shrinking supply of guys. And marriage-material men, long expected to take the lead when it comes to asking women out, are suddenly balking at making the first move, fearing they'll come across as creepy or inappropriate. Society is changing, which means it's time for dating to evolve. Millennial and Gen Z women are more than capable of seeking out what/and who/they want. They're standing in the classroom and champions on the playing fields. They're leaders in the workplace and trailblazers in city halls, state houses, and Congress. So why would it tell a generation of badass women that they're not allowed to be bold when it comes to finding love? Why should they have to sit back and wait (and wait and wait) for men to find them? In Make Your Move: The New Science of Dating and Why Women Are in Charge, Jon Birger, author of Date-onomics, offers women bold new strategies for finding the one. Backed by research showing that women can win at romance by making the first move with the men of their choice, Birger explains why: □ It's better to choose than to be chosen □ The "play hard to get" method is not only outdated but grounded in bad science □ The first move does not have to be a big move □ It's time to log off of dating apps and date men you actually know □ The workplace can be a terrific place to meet a long-term romantic partner □ ... and more! Make Your Move is a honest, solution-based guide to finding love that lasts. If you're tired of playing by old rules, look no further: Make your move and win.

Are You Single? Good! Professional dating coach and dating advice blogger, Lana Ojaya knows that you don't need a man. Your life is perfectly fine just the way it is. You have good friends. You have a good job. You're successful. And most importantly... You don't want a relationship just for the sake of having one. As a modern woman, you need a relationship for more than just the ability to get a credit card. You need a strong man who knows how to take the lead. To have someone take care of you rather than you always taking care of everyone else. But finding a man isn't really a problem for you. There are a lot of men who want to date you. Lots of messages from men on Tinder or Match.com. Weird men talking to you at the bar or hitting on you at the gym. They're everywhere! The problem isn't that you have trouble finding somebody... It's... That you're having trouble finding somebody good. Somebody who is worth your time. You want a man who is serious. A good communicator. A man who asks you out on a date, arranges the time and place and actually meets you there. And if you can't find him, who cares! You've got a good life going anyway... ..but it would be nice... So what's so hard about finding him? Well... Swiping on the apps is frustrating and disappointing. It takes up too much time and is emotionally draining. You feel your eyes drooping after reading bad profiles after bad profile. Shallow texting conversations take all the humanity and romance out of dating. You've come to expect the last-minute date cancellations and ghosting but when it happens, it still hurts. You're pretty much given up and left your love life to destiny or chance. If this sounds familiar, you'll be happy to know that I've been in the professional dating scene for years and it has taught me something very interesting. There really is an easier way. A faster way to get out of the dating scene and into a healthy relationship with a high-quality man. The method takes a little work, it's not magic wand, but with a minimal effort, you check off all your boxes. In my book you will discover: Science based facts that will make line dating easier and more fun Why staying single is the best thing to do for your romantic relationships. How to read a man's personality so you can divorce-proof your future marriage. The final answer to the question: "Am I being too picky?" What compatibility really means and how to know if you have it with your new man The reason you're overthinking and questioning everything when it comes to men The personality traits that have made you successful in life but unsuccessful at dating The one statistic that will give you the motivation you need to keep swiping The science based reason why men ghost you I am not interested in just looking you up with some man. I never want you to settle. There IS a man out there who checks off all your boxes, but he's a needle in a haystack. And if you're looking for a needle in a haystack, it doesn't hurt to get better at looking. So, if you're satisfied with your current life but think it would be nice to add a good man to the picture, go ahead and hit the "add to cart" button. You won't be disappointed!

Dating has gone digital. As much as we try to avoid that reality, more and more people are making their love connections online. "Thanks for the add" has replaced pick-up lines and, "what's your number?" Dating sites and hook-up apps aren't the only avenue, as social media has made online dating more accessible. So, what happens when you get the add but can't seem to get any further? Perhaps the overwhelming assault of unwanted cock-shots in your woman's private messengers is making things a bit more complicated for decent guys like you. We know it's not your fault, but a girl has got to protect her virtue and her eyeballs. So, what's next? Send every attractive woman you best one-lineer? If that doesn't work, maybe send her a "hey I've sent you three messages this month, reminds you, ya know, in case she forgot?" If you've gotten this far, searching Amazon for new-age dating literature; then you're going to have to admit a lot of your tactics aren't working. In Tiffany Joleen's first venture in self-help books for men, she uses the sum of the modern woman's experiences in online dating to set you up for a win. You're not unattractive, boring, or a total douche bag. Likewise, women are not man-eating, crotch jabbing, evil monsters trying to cut you down to size for shits and giggles. Women have become defensive in our dealings with the riff raff we encounter and the dicks we don't want to see. We do want to see your dicks, just not right away, dude. As a failsafe, we have adapted responses to a collection of "keyword" red-flags that we immediately ignore. Not only are your first attempts at making contact kinda dry, but they're also repetitive and unoriginal. I'm sure there's a great guy on the other end of most of those messages, but it's just not worth the risk or the waste of time. Like seriously guys, if dicks were on the other end of most of your messages, you'd avoid them too. So how are you supposed to get through the insane booty-traps of our fickle first assumptions? You have to stand out. This isn't a guide to properly setting up your Tinder profile, good luck with that by the way. This is about connecting with women who aren't setting up their personal social media platforms with the intent of finding a man. In order to stand out, and convince a woman to at least open your messages without blocking you first, you must have authentic confidence. Unlike I know what women like so I'm going to do it with what you think of yourself, in terms of what makes you valuable and unique. We love men, and we love sex. There are women out there who want to hear from you. So, before you are handed the Minecraft cheat-code into a woman's inbox, we'll discover what it means to have true confidence. Not the confidence that other men use to puff their chests out and peacock around each other at the gym. You are going to discover the confidence that women can smell a mile away. So, before you whip your dicks out, put your phone away, and open up a whole new playbook that will ensure you a win, the next time you shoot your shot.

In the old days, dating was a straightforward process. Man likes a woman. A woman likes man. They court, they date, and if things worked out, they marry. Today's love scene however, is something else entirely large part to how heavily reliant all of us have become on technology. Specifically, our mobile phones. The dating scene today is dominated by text messaging, status updates, online flirting, sexting, and the list goes on. These days, the first date usually takes place only after you've been interacting for some time over texts. Which means a date is only likely to happen if your texting sessions go well. It's no secret that men and women each think the opposite sex is hard to understand. You never know what you're going to say or do that's suddenly going to put the other person off or cause them to lose interest. It is even harder when you can't exactly see their reaction through the screen of your phone when you text them. Keeping and holding onto the man you want over text messages can seem like a bewildering challenge and it's easy to feel lost trying to figure out what works best. Life certainly seems like it would be a whole lot easier if we knew just what to text and how to text a man in a way that he ignore to keep him coming back for more. This book will help you attain this goal. With the help of this advice, you will not only be able to talk to women, but you will also be able to date them. All that you need is a little boost and the right information. In this book, you were given everything you need to not only attract and charm women but to talk and hold their attention, too.
