Part green-lifestyle guide, part popular science, *How Bad Are Bananas?* is the first book to provide the information we need to make carbon-savvy purchases and informed lifestyle choices and to build carbon considerations into our everyday thinking. The book puts our decisions into perspective with entries for the big things (the World Cup, volcanic eruptions, the Iraq war) as well as the small (email, ironing, a glass of beer). And it covers the range from birth (the carbon footprint of having a child) to death (the carbon impact of cremation). Packed full of surprises — a plastic bag has the smallest footprint of any item listed, while a block of cheese is bad news — the book continuously informs, delights, and engages the reader. Solidly researched and referenced, the book's easily digestible figures, statistics, charts, and graphs (including a section on the carbon footprint of various foods) will encourage discussion and help people to make up their own minds about their consumer choices.

First published in 1937, *ORCHIDS ON YOUR BUDGET* gives advice on all manner of subjects, from entertaining and creating the perfect capsule wardrobe to relinquishing the family estate. Lest you worry about how to put the advice into practice, each chapter concludes with a case study providing examples of women who heeded - and those lamentable souls who ignored - Marjorie's wise words. 'It's not difficult to have fun out of economizing (up to a point), both because of the sense of achievement it gives you and because everyone else is doing it, too ... A slight financial pressure sharpens the wits, though it needn't sharpen the disposition. But it takes an interesting person to have an attractive ménage on a shoe-string and to run it with gaiety and charm ... Maybe you would rather play polo than ping-pong, but if you've got an old ping-pong set and no ponies, you'll get a lot more fun out of life from being a ping-pong champion than from taking a dispirited whack with a polo mallet every now and then.

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase *DISCIPLE* program and is prepared for those who have completed *BECOMING DISCIPLES THROUGH BIBLE STUDY*. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for *DISCIPLE IV: UNDER THE TREE OF LIFE*. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

A historic shift is occurring in the nature of management. Until recently, bosses could simply use the power of their positions to direct and order their subordinates. However, in today's workplace, which is significantly different from the remarkably homogenous and traditional business environment of just two decades ago, the approach of command authority no longer works effectively. Winning 'em Over chronicles a revolution. We are witnessing an ancient model of managing built around command and hierarchy give way to a new model built around persuasion and teamwork. Jay Conger demonstrates to managers on all levels how to thrive in the wake of this momentous transformation. Today we work in an environment where people don't just ask "What should I do?" but "Why should I do it?" To successfully answer this "why" question is to persuade. Yet many businesspeople misunderstand and still more make little use of persuasion. The problem? Persuasion is widely perceived as a skill reserved for selling products and closing deals. But in reality, good managers are persuading all day long. As Conger explains with insight and conviction, today's most effective managers are influencing others through constructive forms of persuasion -- and their employees give them levels of commitment and motivation that the managers of the last generation could only dream of. Conger illustrates how three important forces -- new generations of managers and executives, cross-functional teams, and unprecedented access to information that was once the privilege of the most senior levels of management -- are undermining the old Age of Command and ushering in the new Age of Persuasion. He exposes the most commonly held myths about the art of persuasion and shows how to influence others productively, without manipulation. Most important, he outlines the four crucial components of effective managing by persuasion: building one's credibility, finding common ground so that others have a stake in one's

ideas, finding compelling positions and evidence, and emotionally connecting with coworkers so that solutions resonate with them on a personal level. In Winning 'em Over, Conger explains how to implement a management style that will succeed in what is becoming a fundamentally and radically different business environment, and he provides readers with all of the new tools they will need to become effective, constructive persuaders.

From Italy's popular author Corrado Augias comes the most intriguing exploration of Rome ever to be published. In the mold of his earlier histories of Paris, New York, and London, Augias moves perceptively through twenty-seven centuries of Roman life, shedding new light on a cast of famous, and infamous, historical figures and uncovering secrets and conspiracies that have shaped the city without our ever knowing it. From Rome's origins as Romulus's stomping ground to the dark atmosphere of the Middle Ages; from Caesar's unscrupulousness to Caravaggio's lurid genius; from the notorious Lucrezia Borgia to the seductive Anna Fallarino, the marchioness at the center of one of Rome's most heinous crimes of the post-war period, Augias creates a sweeping account of the passions that have shaped this complex city: at once both a metropolis and a village, where all human sentiment-bravery and cowardice, industriousness and sloth, enterprise and laxity-find their interpreters and stage. If the history of humankind is all passion and uproar, then, as the author notes, "for centuries Rome has been the mirror of this history, reflecting with excruciating accuracy every detail, even those that might cause you to avert your gaze."

From the author of the critically acclaimed, award-winning bestseller Ishmael and its sequel, My Ishmael, comes a powerful novel with one of the most profound spiritual testaments of our time "A compelling 'humantale' that will unglue, stun, shock, and rearrange everything you've learned and assume about Western civilization and our future."—Paul Hawken, author of The Ecology of Commerce Father Jared Osborne has received an extraordinary assignment from his superiors: Investigate an itinerant preacher stirring up deep trouble in central Europe. His followers call him B, but his

enemies say he's something else: the Antichrist. However, the man Osborne tracks across a landscape of bars, cabarets, and seedy meeting halls is no blasphemous monster—though an earlier era would undoubtedly have rushed him to the burning stake. For B claims to be enunciating a gospel written not on any stone or parchment but in our very genes, opening up a spiritual direction for humanity that would have been unimaginable to any of the prophets or saviors of traditional religion. Pressed by his superiors for a judgement, Osborne is driven to penetrate B's inner circle, where he soon finds himself an anguished collaborator in the dismantling of his own religious foundations. More than a masterful novel of adventure and suspense, *The Story of B* is a rich source of compelling ideas from an author who challenges us to rethink our most cherished beliefs. Explore Daniel Quinn's spiritual Ishmael trilogy: *ISHMAEL* • *MY ISHMAEL* • *THE STORY OF B*

Wear just 33 items for 3 months and get back all the JOY you were missing while you were worrying what to wear. In Project 333, minimalist expert and author of *Soulful Simplicity* Courtney Carver takes a new approach to living simply--starting with your wardrobe. Project 333 promises that not only can you survive with just 33 items in your closet for 3 months, but you'll thrive just like the thousands of woman who have taken on the challenge and never looked back. Let the de-cluttering begin! Ever ask yourself how many of the items in your closet you actually wear? In search of a way to pare down on her expensive shopping habit, consistent lack of satisfaction with her purchases, and ever-growing closet, Carver created Project 333. In this book, she guides readers through their closets item-by-item, sifting through all the emotional baggage associated with those oh-so strappy high-heel sandals that cost a fortune but destroy your feet every time you walk more than a few steps to that extensive collection of never-worn little black dresses, to locate the items that actually look and feel like you. As Carver reveals in this book, once we finally release ourselves from the cyclical nature of consumerism and focus less on our shoes and more on our self-care, we not only look great we feel great-- and we can see a clear path to make other important changes in our lives that reach far beyond our closets. With tips, solutions, and a closet-full of inspiration, this life-changing minimalist manual shows readers that we are so much more than what we wear, and that who we are and what we have is so much more than enough.

"Whether you view your one-woman ménage as Doom or Adventure, you need a plan, if you are going to make the best of it." Thus begins Marjorie Hillis' archly funny, gently prescriptive manifesto for single women. Though it was 1936 when the Vogue editor first shared her wisdom with her fellow singletons, the tome has been passed lovingly through the generations, and is even more apt today than when it was first published. Hillis, a true bon vivant, was sick and tired of hearing single women carping about their living arrangements and lonely lives; this book is her invaluable wake-up call for single women to take control and enjoy their circumstances. Hillis takes readers through the fundamentals of living alone, including the importance of creating a hospitable environment at home, cultivating hobbies that keep her there ("for no woman can accept an invitation every night without coming to grief"), the question of whether single ladies may entertain men at home (the answer may surprise you!), and many more. With engaging chapter titles like "A Lady and Her Liquor" and "The Pleasures of a Single Bed," along with a new preface by author Laurie Graff (You Have to Kiss A Lot of Frogs), LIVE ALONE AND LIKE IT is sure to appeal to live-aloners and many other readers alike.
