

Eden's Garden: A Nia Rivers Adventure (Nia Rivers Adventures Book 5)

To save my ex, I'll have to return to the place we began. But I fear my new love might not be willing to stick around when I do. Nia Rivers spent her immortal life—what she can remember of it—uncovering and recording the horrors of the past to prevent the genocide of humans. Now, she'll have to unearth her own beginning to prevent someone else's end. Zane may have ended their relationship, but Nia's not willing to let him die, even if her fledgling relationship with Tres may suffer because of it. Digging up clues to the fabled garden where the immortals began is no easy task, but Nia follows the clues into the rainforests of Central America. In the heart of the modern Mayan world, she reunites with the Balam, jaguar shifters whose ancestry may hold the key to getting into the underworld of the gods. With the Balam queens at her side, Nia journeys through the midwest of Native American tribal lands where the doorway to her ancestral home may lie just below the surface of the Serpent Mound. There the Mohegan, the wolf shifters of the north, are not the only ones who stand in her way. Tres is losing his patience with her quest to save Zane. And someone is destroying the ancient mounds and blocking her path to the underworld. As time runs out, Nia must find a way into the underworld or another of her kind will die. And this time, that person could be her... I knew the break-up rules. Don't try to be friends. Don't let him in after midnight. And most importantly, don't seek revenge. Pfft, I'm about to break all those rules starting with that bit about revenge. Loren Van Alst, the newly knighted Dame Galahad, has a bone to pick with her ex Leonidas Baros. The last she saw him, he left her for dead at the hands of the Titan gods, so revenge is a definite possibility. The two are reunited when Loren goes on her first knightly quest—to seek out the famed Ring of Gyges, which grants its user invincibility. Leonidas wants the ring as well, and they both enter a supernatural fight club held by a deranged fairy, where the ring is the prize. Now face to face with her ex-lover, Loren is torn between keeping the ring out of the wrong hands and using it to help Leonidas escape from the clutches of the Greek gods. He claims he never betrayed her, but even if that's true, he's still a threat to her heart. If she doesn't get him out of her system and return with the ring, her future as a knight just might be in jeopardy. Urban fantasy steps into the gladiators' arena in this modern day, action-packed, calamitous series of misadventures.

Sure, I can rock a tank top and ponytail while collecting ancient relics, but don't call me a tomb raider. I knew the guy who built the pyramids... and I mean in the biblical sense. Archaeologist, fashionista, and an ancient immortal with a serious memory problem, Dr. Nia Rivers has spent the last few centuries filling in the blanks of her past, all while outrunning dark assassins and stealing brief moments alone with Zane, her immortal lover. But when a two-thousand year old relic from her past resurfaces, Nia isn't sure if the story connected to it is one she wants told to the world. The fact that Tres Mohandis, a fellow immortal and Nia's greatest rival, is determined to develop the land and bury the site before Nia can excavate it suggests some dark history lies hidden in the site. Worse, Nia is beginning to realize that she doesn't dislike the broody billionaire land developer as much as she remembers. Letting Tres have his way might be best for Nia, especially when the truth might expose a horrific crime from Nia's past—one with her name written all over it. But don't all stories deserve to be told? Even the ugliest ones. Even if it proves she's not at all who she thinks she is. Nia Rivers knows better than anyone that immortality comes at a terrible cost. After all, she's lost entire centuries—and a past relationship—from her memory. Are the Olympians the villains of this chapter in history or the benevolent benefactors they claim to be? Her anguish over Zane's betrayal and her conflicting feelings for Tres prove a painful distraction. I thought death was the end of my life. As it turns out, I'll battle heaven itself to get back to the living—and to the man I love. When Nia Rivers sacrificed herself to keep any other immortals from dying, she assumed her long life had finally come to an end. But death is only the beginning, and for an adventurer like Nia, there is no rest—not even in the afterlife. Now, Nia finds herself in the underworld's Garden of Eden, and all is not well in paradise. Angels urge the eradication of humanity for its crimes, and as those on Earth continue to commit heinous acts affecting all of creation, God seems less inclined to say no with every passing day. Humanity's future looks bleak, but Nia and her friends are accustomed to preventing genocide. Now it's up to them to stop the Apocalypse itself. But first, they'll have to find a way to claw their way back to the surface and rejoin the world of the living. Of course, that might involve fighting an army of angels and defying God herself. No one ever said coming back from the dead would be easy...but if Nia doesn't get back to Earth soon, there won't be anything left to return to. Chivalrous? Nah. Virtuous? Not since...well, none of your business. The difference between me and the Knights of the Round Table? I make medieval look good. Loren Van Alst is an independent, twenty-first-century woman, an accused forger, a suspected thief, and the last descendant of Sir Galahad of the Arthurian court. To claim her seat at the Round Table and protect her newly found family of modern-day witches, she'll need to convince the current Arthur and his knights to let a woman take the knights' trials. But things go sideways when a crazed wizard goes on the loose with a magical spear that can strip a witch of her powers. As if that weren't enough, the clique of mean girls from middle school arrives in Camelot and turn out to be witch hunters. To safeguard a future she never

King Arthur has never been hotter in this steamy, magical, modern-day adventure of witches, wizards, and Bunsen burners! As the Lord of Camelot, it is Arthur's responsibility to protect the witches, wizards, and knights in the castle. But one witch in particular gets under his skin like no other. Morgan never listens, is difficult to control, and impossible to keep off his mind. With pressure mounting for him to take a wife, he sets his sights on a suitable Lady of the Castle. Someone agreeable, demure, and sophisticated. Definitely not a hot-headed scientist who always insists on getting her own way. Once upon a time, Morgan's powerful intellect was rivaled only by the strength of her magic. But now that her powers have been ripped away, she's determined to follow her dream of joining a physics research team at the local university. Too bad Camelot is on lock down and the impossible leader of the Round Table is dead set on bringing back the dark ages where witches are concerned. Morgan refuses to bow to the outdated beliefs of her people—she's a modern woman and won't be ruled by a man, even if he is sexy and scruffy and good with his sword. When Arthur and Morgan are forced to reevaluate their feelings for one another, will they continue the fabled rivalry of their namesake ancestors? Or will this noble knight and liberated witch discover a happy ending to their age old story? First Knight is the first in a series of modern day retellings of the myths and lore of Camelot. If you like fierce knights who would lay down their lives for their brothers and lose their hearts for their women, then you'll love the Knights of Caerleon.

After a helluva kiss from my ex-lover and my ex-boyfriend's decision to 'take a break,' I've decided to swear off all men. So of course I end up in Camelot surrounded by the sexiest knights in all of history. When an ancient relic of Camelot goes missing, who do Arthur and his knights call? Nia Rivers, ancient immortal and archaeologist extraordinaire, of course. Though the last time Nia was in Camelot, she kinda got herself banned. But this time, if she'll help him recover the Holy Grail, Arthur will let Nia's past breaches of his castle, theft attempts, and a certain debacle with his sword be bygones. But the grail is more than just an historical artifact, Nia learns. It's connected to a prophecy that may spell doom for her kind—and worse, could lead to the death of an immortal Nia loves. As enemies from the past resurface at every turn, Nia and the knights face off against their foes in a race against time to track down the one item that could destroy everything Nia holds most dear. But when she lands in danger and cries out for help, which lover will she turn to? Tres who's trying to start something new with her? Or Zane who might have called it quits on their timeless love affair?
