Now maintained as a museum and memorial site, the former camp of Fossoli was a Nazi concentration and transit camp for political opponents, Jews and forced labourers. The essays in this volume analyse, from different disciplinary perspectives, the material and immaterial heritage that constitutes a rich and articulated memorial system today.

'MomoFanie' sta per "manifestazioni del nòmos". Nel libro si presentano configurazioni concettuali, problemi teoratici e contesti empirici che sono altrettanti dispositivi nomofanici, cioè produttivi di varie e molteplici manifestazioni di quel nòmos che la filosofia del diritto è chiamata ad indagare. Quattro i filosofi più richiamati: Aristotele, Tommaso d'Aquino, Kant e Hegel, che costituiscono una sorta di "quadratura" per pensare alcune questioni critiche del vivere-insieme anche nelle società presenti.

From the bestselling author of GIRL IN HYACINTH BLUE, "A vivid exploration of one of the most beloved Renoir paintings in the world, done with a flourish worthy of Renoir himself" (USA Today) With her richly textured novels, Susan Vreeland has offered pioneering portraits of artists' lives. As she did in Girl in Hyacinth Blue, Vreeland focuses on a single painting, Auguste Renoir's instantly recognizable masterpiece, which depicts a gathering of Renoir's real friends enjoying a summer Sunday on a café terrace along the Seine. Narrated by Renoir and seven of the models, the novel illuminates the gusto, hedonism, and art of the era. With a gorgeous palette of vibrant, captivating characters, Vreeland paints their lives, loves, losses, and triumphs so vividly that "the painting literally comes alive" (The Boston Globe).

**In 1922 the Fascist 'March on Rome' brought Benito Mussolini to power. He promised Italians that his fascist revolution would unite them as never before and make Italy a strong and respected nation internationally. In the next two decades, Mussolini set about rebuilding the city of Rome as the site and symbol of the new fascist Italy. Through an ambitious program of demolition and construction he sought to make Rome a modern capital of a nation and an empire worthy of Rome's imperial past. Building the new Rome put people to work, 'liberated' ancient monuments, cleared slums, produced new "cities" for education, sports, and cinema, produced wide new streets, and provided the regime with a setting to showcase fascism's dynamism, power, and greatness. Mussolini's Rome thus embodied the movement, the man and the myth that made up fascist Italy.**

**The book teaches students to model a scientific problem and write a computer program in C language to solve that problem. It introduces the basics of C language, and then describes and discusses algorithms commonly used in scientific applications (e.g. searching, graphs, statistics, equation solving, Monte Carlo methods etc.).**

**This is an expanded edition of Pier Paolo Pasolini's long out-of-print Heretical Empiricism. It includes a new Introduction by Ben Lawton that discusses the relevance of the book on the 30th anniversary of the author's death. It also features the first approved translation of "Repu-diation of the Trilogy of Life," one of Pasolini's most con-troversial final essays.While Pasolini is best known in the U.S. as a revolutionary film director, in Italy he was even better known as poet, novelist, playwright, political gadfly, and scholar of the semiotics of film. "New Academic Publishing should be commended for making this expanded version of Pier Paolo Pasolini's Hermetic Empiricism once again available to the English-speaking public, especially in the light of the fact that the important essay, "Reputation of the Trilogy of Life," has been added to its contents. Thirty years after Pasolini's violent death on 2 November 1975, the appearance of this excellent translation and edition of his major writings on Italian film, literature, and language is most welcome. No figure has emerged in Italy since the writer/director's death that has aroused such passionate opinions from all sides of the political and cultural spectrum. The translations by Ben Lawton and Louise Barnett render Pasolini's sometimes complex prose accurately with ample explanatory notes to guide the reader without a firm grasp of the original essays in Italian. This book represents an important work to have in every library devoted to cultural criticism, cinema, and literary theory." -- Peter Bondanella, Distinguished Professor of Comparative Literature and Italian, Indiana University"One of the greatest cultural figures of postwar Europe, Pier Paolo Pasolini (1922-1975), who is already widely known as a revolutionary filmmaker, was an equally important writer and poet. Pasolini's numerous works are published in some 50 volumes, which include poetry, novels, critical and theoretical essays, verse tragedies, screenplays, political journalism, and translations. With this successful and complete translation of Emprismo eretico (a collection of Pasolini's interventions on language, literature, and film written between 1964 and 1971), editors Barnett and Lawton have made a wide sample of Pasolini's most significant theoretical work available to the English-speaking reader. Essays on the screenplay, on the commercial and the art cinema, and on film semiotics make the collection of special interest to American film scholars and students. This volume is further enriched by an excellent introduction, carefully edited notes, a useful biographical glossary, and a thorough index. Given the contemporary interest in studying film, together with other cultural forms, within a broad social and historical context, Pasolini's "extravagantly interdisciplinary" writings beckon as a promising source of insight. A potentially seminal text that could contribute to the further evolution of interdisciplinary humanistic studies, Heretical Empiricism is highly recommended for university and college libraries." -- J. Fossoli: History, Memory, Aesthetics

The Time of Discretion' is an intimate, slow and relational time. It is also an artistic project, at its first chapter. Besides Italy, it has been developed in the remote areas on the south-east border of the Gobi Desert and in the Guizhou Province (South China), in search of rituals, ancient textile practices or together in one.0The research documented here crosses experience and representation, dramatically compares East and West, advancing a dense theoretical scenario in relation to globalization processes.

This book is a complete reworking and update of Marga Cottino-Jones' popular A Student's Guide to Italian Film (1983, 1993). This guide retains earlier editions' interest in renowned films and directors but is also attentive to the popular films which achieved box office success among the public.

"Forbidden City, USA: Chinatown Nightclubs, 1936-1970" captures the magic and glamour of the Chinese American nightclub scene, which peaked in San Francisco during World War II. Previously unpublished personal stories, along with over four hundred stunning images and rare artifacts, are presented in this sexy and insightful chronicle of Asian American performers who defied racial and cultural barriers to pursue their showbiz dreams.It was the mid-1930s: Prohibition was repealed and the Great Depression was waning. With a global conflict on the rise, people were out to drink, dine, dance, and see a show to forget their woes--and what a surprise for the world to behold an emerging generation of Chinese American entertainers commanding the stage in their own nightclubs. "Forbidden City, USA: Chinatown Nightclubs, 1936-1970" reveals the sassy, daring, and sometimes heartbreaking memories of the dancers, singers, and producers who lived this story, and it weaves in a fascinating collection of photos, postcards, menus, programs, and yes, even souvenir chopsticks. Together they recreate a forgotten era, treating readers to a dazzling night on the town. "Forbidden City, USA: Chinatown Nightclubs, 1936-1970" is the culmination of filmmaker and writer Arthur Dong's nearly thirty-year devotion to the topic, originally inspired by the author's research for his documentary of the same name."Forbidden City, USA: Chinatown Nightclubs, 1936-1970" was previously published in paperback under the title: "Forbidden City, USA: Chinese American Nightclubs, 1936-1970."

Francesco Koslovic—even his name straddles two cultures. And during the spring of 1955, in the village of Materada on the Istrian Peninsula, his two worlds are coming apart. Materada, the first volume of Fulvio Tomizza's celebrated Istrian Trilogy, depicts the Istrian exodus of the hundreds of thousands who had once thrived in a rich ethnic mixture of Italians and Slavs. Complicating Koslovic's own departure is his attempt to keep the land that he and his brother have worked all their lives, a tale of feud and displacement, and imbued with the tastes, tales, and songs of his native Istria, Koslovic's story is a testament to the intertwined ethnic roots of Balkan history.

A story of adventure, survival, courage, and hope, set in the vivid Himalayan landscape of Tibet and India. Tash lives in Tibet, where as a practicing Buddhist she must follow many rules to avoid the wrath of the occupying Chinese soldiers. Life remains peaceful as long as Tash, her family, and their community hide their religion and don't mention its leader, the Dalai Lama. The quiet is ruptured when a man publicly sets himself on fire to protest the occupation. In the crackdown that follows, soldiers break into Tash's house and seize her parents. Tash barely escapes, and soon she and her best friend, Sam, along with two borrowed yaks, flee across the mountains, where they face blizzards, hunger, a treacherous landscape, and the constant threat of capture. It's a long, dangerous trip to the Indian border and safety—and not all will make it there. This action-packed novel tells a story of courage, hope, and the powerful will to survive, even in the most desperate circumstances.

**The Boon family and their indefatigable gallows humor are back in Benny Lindelauf's follow-up to Nine Open Arms. Poised to win a scholarship to the nearby teachers college, Fing has high hopes. It's 1938 and her poor family of nine--one father, four brothers, three sisters, and a grandmother--has finally managed to eke out a living in the tiny cigar factory abutting their dilapidated home. But smelling success, her dreamer of a father is determined to expand and Fing's dreams fall apart when she instead has to go to work for the Cigar Emperor, taking care of his new, German wife's eccentric niece. The novel's gripping language, enriched by Yiddish, German, and Dutch dialect, plunges the reader into the world of a large, colorful, motherless family as they navigate the changes World War II visits upon their little town on the border of the Netherlands and Germany. This stand-alone follow-up to Nine Open Arms, a 2015 Batchelder Honor book translated from Dutch, is a fantasy, a historical novel, and literary fiction all wrapped into one.**

**What can I know? What should I do? What may I hope? What s for dinner? More than two hundred years ago, on a day that takes quite a peculiar course, Professor Kant is working hard to give an answer to all these questions. Not only the morning papers, but also a slightly perfumed letter get in his way however. As a result, he even forgets to go out on his regular digestive walk and everything goes off the rails Light-hearted without being flippant, funny and ironical, and accompanied by congenial artwork, this book tells the story of a day in the life of the great stylite and ancestor of Enlightenment philosophy, Immanuel Kant, sketching some of his major thoughts (without omitting his seemingly minor ones, like the inhabitants of Jupiter have marvelously light-weight bodies which teases readers to develop a historical understanding). The result is a wondrously easy and articulate approach to Kant s important construct of ideas. "**

Progettare è un' arte ed è davvero necessario essere un po' artisti per riuscire a farlo correttamente. Quando si crea un progetto, diventa indispensabile immaginare tutto, prevenire ogni singola funzione, ogni comportamento, sia esso dell' utente o del sistema, ed è fondamentale anche specificare ogni variabile di interesse per avere un pieno controllo dell' intero ciclo di vita del progetto. Per raggiungere questi obiettivi bisogna comprendere completamente le richieste del cliente, tenersi al passo con i tempi e con la tecnologia. Essere innovativi è la grande sfida. In questo libro, comprenderemo meglio quali sono le sfide principali da affrontare durante la realizzazione di un qualsiasi prototipo elettronico. Nell'ultimo capitolo discuteremo di intelligenza artificiale e robotica, un tema di grande attualità. Il tutto, ovviamente, mediante esempi pratici e prototipi di casi reali.

Physician, anthropologist, travel writer, novelist, politician, Paolo Mantegazza (1831-1910) was probably the most eclectic figure in late-nineteenth century Italian culture. A prolific writer, Mantegazza can be seen as a forerunner of what has come to be known as cultural studies on account of his interdisciplinary approach, his passionate blend of scientific and literary elements in his writings, and his ability to transcend the boundaries between 'high' and 'low' culture. Though extremely popular during his lifetime both in Italy and abroad, Mantegazza's works have not been made available in a significant English language compilation. This volume is a representative overview of Mantegazza's key works, many of them translated into English for the first time. In addition to the unabridged Physiology of Love (1873), a veritable best-seller at the time of its initial publication, this compilation features selections from Mantegazza's writings on medicine, his travelogues, his epistolary novel One Day in Madeira (1868), and his treatise on materialistic aesthetics. Replete with an extensive and informative introduction by the editor, The Physiology of Love and Other Writings also excerpts Mantegazza's works of science fiction, memoir, and social and cultural criticism. As an anthology of the works of Paolo Mantegazza, a writer of diverse topical orientations, this volume is also an account of the circulation of ideas and cross-fertilization of disciplines that defined a crucial period of Italian and European cultural life.
