

Excursion To Hell: Mount Longdon, A Universal Story Of Battle

Over the course of his 75 year career Field Marshal Bramall or Dwin as he is universally known has been in the forefront of military thinking. Clearly destined to reach the pinnacle of his profession he shone in a succession of prestigious appointments both in command and on the staff. He fought in Normandy, saw active service in Ireland and Borneo and masterminded the Falklands Campaign. As this unique collection of personal Papers, dating from the 1950s to the present day, testify, Bramall has never shied away from controversy or original thought, whether on low level leadership or higher military strategy. His views are far from predictable or trenchant as demonstrated by his changing nuclear stance and his clearly argued opposition in the House of Lords to intervention in Iraq. The publication of this unique collection of letters, lectures, speeches and theses on a wide range of topics gives the reader the opportunity to delve into a rich mine of sound military thinking and common sense.

A few years ago, a magazine sponsored a contest for the comment most likely to end a conversation. The winning entry? "I teach English grammar." Just throw that line out at a party; everyone around you will clam up or start saying "whom." Why does grammar make everyone so nervous? Probably because English teachers, for decades - no, for centuries - have been making a big deal out of grammar in classrooms, diagramming sentences and drilling the parts of speech, clauses, and verbals into students until they beg for mercy. Happily, you don't have to learn all those technical terms of English grammar - and you certainly don't have to diagram sentences - in order to speak and write correct English. So rest assured - English Grammar For Dummies will probably never make your English teacher's top-ten list of must-read books, because you won't have to diagram a single sentence. What you will discover are fun and easy strategies that can help you when you're faced with such grammatical dilemmas as the choice between "I" and "me," "had gone" and "went," and "who" and "whom." With English Grammar For Dummies, you won't have to memorize a long list of meaningless rules (well, maybe a couple in the punctuation chapter!), because when you understand the reason for a particular word choice, you'll pick the correct word automatically. English Grammar For Dummies covers many other topics as well, such as the following: Verbs, adjectives, and adverbs - oh my! Preposition propositions and pronoun pronouncements Punctuation: The lowdown on periods, commas, colons, and all those other squiggly marks Possession: It's nine-tenths of grammatical law Avoiding those double negative vibes How to spice up really boring sentences (like this one) Top Ten lists on improving your proofreading skills and ways to learn better grammar Just think how improving your speaking and writing skills will help you in everyday situations, such as writing a paper for school, giving a presentation to your company's big wigs, or communicating effectively with your family. You will not only gain the confidence in knowing you're speaking or writing well, but you'll also make a good impression on those around you!

This book explores how military memoirs come to be written and published. Looking at the journeys through which soldiers and other military personnel become writers, the authors draw on over 250 military memoirs published since 1980 about service with the British armed forces, and on interviews with published military memoirists who talk in detail about the writing and production of their books. A range of themes are explored including: the nature of the military memoir; motivations for writing; authors' reflections on their readerships; inclusions and exclusions within the text; the memories and materials that authors draw on; the collaborations that make the production and publication of military memoirs possible; and the issues around the design of military memoirs' distinctive covers. Written by two leading commentators on the sociology of the military, Bringing War to Book offers a new and original argument about the representations of war and the military experience as a process of social production. The book will be of interest to students and scholars across a range of disciplines including sociology, history, and cultural studies.

The unique and harrowing account of the bloodiest battle of the Falkland War - the 1982 battle for Mount Longdon, as seen through the eyes of eight ordinary Argentine soldiers from the Seventh Infantry Regiment and five British paratroopers.

The bestselling author of the American humor classic The Egg and I continues the adventure with this collection of tales about life on the fringe of the Western wilderness. Writing

in the 1950s, Betty MacDonald, sophisticated and urbane, captivated readers with her observations about raising a family on an island in Puget Sound. As usual, humorist MacDonald is her own favorite target. She manages to get herself into scrapes with washing machines set adrift in rowboats, used cars, and a \$25 Turkey Squasher. And then there's the scariest aspect of island life -- teenaged children.

Traces the author's decision to quit her job and travel the world for a year after suffering a midlife crisis and divorce, an endeavor that took her to three places in her quest to explore her own nature, experience fulfillment and learn the art of spiritual balance. (Biography & autobiography). Reissue. A best-selling book. Movie tie-in.

The unique and harrowing account of the most destructive battle of the Falklands War as seen through the eyes of eight ordinary Argentinian soldiers from the seventh infantry regiment and five British paratroopers. Vincent Bramley was a Lance-Corporal and gives a unique and chilling perspective on the horrors of battle. This is a testament to those who bear the brunt of the fighting and a no-holds-barred account of what it is really like to have to do the dirty work of war, where you have to kill or be killed, and sometimes you are pushed over the edge.

This ground-breaking book applies trauma studies to the drama and literature of the ancient Greeks. Diverse essays explore how the Greeks responded to war and if what we now term "combat trauma," "post-traumatic stress," or "combat stress injury" can be discerned in ancient Greek culture.

Includes no. 53a: British wartime books for young people.

Not only were more African slaves transported to South America than to North, but overlapping imperialisms and shared resistance to them have linked Africa, Latin America, and the Caribbean for over five centuries. Yet despite the rise in transatlantic, oceanic, hemispheric, and regional studies, and even the growing interest in South-South connections, the South Atlantic has not yet emerged as a site that captures the attention it deserves. The Global South Atlantic traces literary exchanges and interlaced networks of communication and investment—financial, political, socio-cultural, libidinal—across and around the southern ocean. Bringing together scholars working in a range of languages, from Spanish to Arabic, the book shows the range of ways people, governments, political movements, social imaginaries, cultural artefacts, goods, and markets cross the South Atlantic, or sometimes fail to cross. As a region made up of multiple intersecting regions, and as a vision made up of complementary and competing visions, the South Atlantic can only be understood comparatively. Exploring the Atlantic as an effect of structures of power and knowledge that issue from the Global South as much as from Europe and North America, The Global South Atlantic helps to rebalance global literary studies by making visible a multi-textured South Atlantic system that is neither singular nor stable.

Legendary leadership and elite performance expert Robin Sharma introduced The 5am Club concept over twenty years ago, based on a revolutionary morning routine that has helped his clients maximize their productivity, activate their best health and bulletproof their serenity in this age of overwhelming complexity. Now, in this life-changing book, handcrafted by the author over a rigorous four-year period, you will discover the early-rising habit that has helped so many accomplish epic results while upgrading their happiness, helpfulness and feelings of aliveness. Through an enchanting—and often amusing—story about two struggling strangers who meet an eccentric tycoon who becomes their secret mentor, The 5am Club will walk you through: How great geniuses, business titans and the world's wisest people start their mornings to produce astonishing achievements A little-known formula you can use instantly to wake up early feeling inspired, focused and flooded with a fiery drive to get the most out of each day A step-by-step method to protect the quietest hours of daybreak so you have time for exercise, self-renewal and personal growth A neuroscience-based practice proven to help make it easy to rise while most people are sleeping, giving you precious time for yourself to think, express your creativity and begin the day peacefully instead of being rushed "Insider-only" tactics to defend your gifts, talents and dreams against digital distraction and trivial diversions so you enjoy fortune, influence and a magnificent impact on the world Part manifesto for mastery, part playbook for genius-grade productivity and part companion for a life lived beautifully, The 5am Club is a work that will transform your life. Forever.

British Book News

At the height of the bitter battle for Mount Longdon during the Falklands War, 3rd Battalion, Parachute Regiments assault has stalled in the face of determined resistance. With his platoon held up by an Argentine machine gun, it falls to Sergeant Ian McKay to act. The machine gun has to be silenced to break the deadlock. Gathering a small group together, Ian McKay leads them in a headlong dash into the teeth of a withering fire. One by one they fall until only McKay is left, charging on alone towards the Argentine gun and a place in history. His was the final act of a man who lived, breathed and was shaped by the Parachute Regiment: an act which earned him a posthumous Victoria Cross. This is the story of Ian McKay: the last British hero of the Twentieth Century.

On Friday, April 9, 1982, a British task force set sail for the Falkland Islands. Three months later, after a short but brutal campaign, it had successfully completed its mission of ejecting the Argentinean occupying forces from the islands. With 3 Para to the Falklands is the full story of that dramatic struggle from the point of view of a sergeant in the Third Battalion, Parachute Regiment (3 Para). This elite battle group played a significant part in the campaign, marching from Port San Carlos to Port Stanley and fighting in one of its most crucial, yet often-neglected battles the night assault on Mount Longdon. Graham Colbeck was there every step of the way and his vivid account reveals the stark realities of fighting in this stubbornly contested conflict. His narrative brings to the fore the chilling nature of the combat, the challenge of the harsh conditions met on the Falklands, the training and techniques of an elite force, and the comradeship of troops in battle.

The author of Falklands Hero follows the Third Parachute Battalion through a ferocious battle to secure a key strategic position during the Falklands War. This, the first in a series on Special Operations, tells the story of Three Para and the often-neglected struggle for Mount Longdon. It was a battle that tested the discipline, comradeship, and professionalism of the Paras to the limit; it was a battle that witnessed another posthumous Victoria Cross; it turned out to be the bloodiest battle of the entire Falklands Campaign. "Like many a fascist state before them the Argentine Junta thought they could steal territory that belonged to someone else who they considered weak. It came as a shock when Britain rapidly assembled a Task Force and sent it 8,000 miles to eject the Argentine bandits. . . . It was a victory of British military skill and courage in spite of the neglect by politicians. . . . The author has told the story with skill and insight."

—Firetrench.com

Vincent Bramley's account of his experiences in the Falklands campaign is a universal story that transcends time and place. Such stories are rarely committed to paper and never as candidly as this. Mount Longdon will stand as the testament of common soldiers throughout history, caught up in wars not of their own making, of how they cope - or in many cases fail to cope - with fatigue, fear, aggression, carnage and death. It is a story filled with compassion and brutality in almost equal measure. Most of all it is a story of confusion - confusion in the heat of battle and confusion in the hearts and souls of ordinary men.; Lance-Corporal Vincent Bramley is one of the few soldiers from the ranks to write of his experiences in battle in the Falkland Islands. In retelling what happened to him and his fellow paratroopers during the bloody battle of Mount Longdon, he comes closer than any previous writer to exposing the effect that the prospect of dying and the reality of killing has on a common soldier. Different men react differently to these most bewildering of circumstances. Vincent Bramley dispassionately describes behaviour of every kind from that of those who disappeared to avoid ca

War and Diplomacy

The Falklands War

Covering the Spanish Civil War, the First and Second World Wars, the Gulf War and the Falklands War, the author surveys media accounts, photographs, cartoons, film, official briefings and diplomatic exchanges to examine the formation and function of narratives including the national past, heroism and the enemy.

This book offers an empirically informed understanding of how identity and agency become wholly embedded within practices of media-remembering. It draws upon data collected from the British military, the BBC and Falkland Islanders during the 30th Anniversary of the Falklands war to uniquely offer multiple perspectives on a single 'remembering' phenomenon. The study offers an analysis of the convergence, interconnectedness and interdependence of media and remembering, specifically the production, interpretation and negotiation of remembering in the media ecology. In so doing it not only examines the role of media in the formation and sustaining of collective memory but also the ways those who remember or are remembered in media texts become implicated in these processes.

In this official history of the Falklands Campaign, Lawrence Freedman provides a detailed and authoritative account of one of the most extraordinary periods in recent British political history and a vivid portrayal of a government at war. After the shock of the Argentine invasion of the Falklands in April 1982, Margaret Thatcher faced the crisis that came to define her premiership as she determined to recover the islands. Freedman covers all aspects of the campaign - economic and diplomatic as well as military - and demonstrates the extent of the gamble that the government took. There are important accounts of the tensions in relations with the United States, concerns among the military commanders about the risks they were

expected to take, the problems of dealing with the media and the attempts to reach a negotiated settlement. This definitive account describes in dramatic detail events such as the sinking of the Belgrano, the battle of Goose Green and the final push to Stanley. Special attention is also paid to the aftermath of the war, including the various enquiries, and the eventual restoration of diplomatic relations with Argentina. This book examines the UK approach to investigating international crimes and serious human rights violations. In 2010, the United Nations Secretary General referred to the emerging system of international justice, including the creation of the International Criminal Court, as the 'Age of Accountability.' However, the UK has sometimes struggled to comply with its international law obligations. Using examples from the post-World War II period to 2018, interviews with leading UK military lawyers and newly disclosed official documents, this work explains the legal duties, how the UK military and civilian justice systems investigate alleged military misconduct and highlights the challenges involved. It provides suggestions on strengthening domestic law and policy and its importance for the UK's legitimacy as an exporter of rule of law expertise. This text is essential reading for practitioners, academics, government officials and students of international, criminal, humanitarian or human rights law.

The Incredible Minute-by-Minute Oral History of 3 Para's Deadly Falklands Battle

Then and Now

3 Para Mount Longdon

Throughout the Classical period, the Athenian hoplite demonstrated an unwavering willingness to close with and kill the enemies of Athens, whenever and wherever he was required to do so. Yet, despite his pugnacity, he was not a professional soldier; he was an untrained amateur who was neither forced into battle nor adequately remunerated for the risks he faced in combat. As such, when he took his place in the phalanx, when he met his enemy, when he fought, killed and died, he did so largely as an act of will. By applying modern theories of combat motivation, this book seeks to understand that will, to explore the psychology of the Athenian hoplite and to reveal how that impressive warrior repeatedly stifled his fears, mustered his courage and willingly plunged himself into the ferocious savagery of close-quarters battle.

From the bestselling author of The Day of the Jackal, international master of intrigue Frederick Forsyth, comes a thriller that brilliantly blends fact with fiction for one of this summer's—or any season's—most explosive reads! From the behind-the-scenes decision-making of the Allies to the secret meetings of Saddam Hussein's war cabinet, from the brave American fliers running their dangerous missions over Iraq to the heroic young spy planted deep in the heart of Baghdad, Forsyth's incomparable storytelling skill keeps the suspense at a breakneck pace. Somewhere in Baghdad is the mysterious "Jericho," the traitor who is willing—for a price—to reveal what is going on in the high councils of the Iraqi dictator. But Saddam's ultimate weapon has been kept secret even from his most trusted advisers, and the nightmare scenario that haunts General Schwarzkopf and his colleagues is suddenly imminent, unless somehow, the spy can locate that weapon—The Fist of God—in time. Peopled with vivid characters, brilliantly displaying Forsyth's incomparable, knowledge of intelligence operations and tradecraft, moving back and forth between Washington and London, Baghdad and Kuwait, desert vastnesses and city bazaars, this breathtaking novel is an utterly convincing story of what may actually have happened behind the headlines.

What can fiction tell us about the world that journalism and science cannot? This simple yet vast question is the starting-point for an interrogation of the relationship between literary fiction and society's dramatic transformation in South Africa and Argentina over the past several decades. The resulting discursive text borders on both journalism and literature, incorporating reportage, essay, and memoir.

(Series: Freiburg Studies in Social Anthropology - Vol. 34)

In this insightful new book, published to mark the fortieth anniversary of the end of the Falklands War, former intelligence officer Orpen-Smellie offers a fascinating insider's account of how intelligence was collected and utilised during the war.

The Plague Year

The Culture of Combat in Classical Athens

In 1982, Argentina rashly gambled that a full-scale invasion of the Falkland Islands — ownership of which had been disputed with Great Britain for over a century — would put an end to years of political wrangling. However Britain's response was to immediately dispatch a task force to recover the islands, by force if necessary. The 'conflict' which followed (a formal declaration of war was never given) lasted ten weeks from Argentine invasion to British liberation, the white heat of battle using 20th century technology contrasting with bitter hand-to-hand bayonet fighting in inhospitable conditions. Eyewitness accounts by the participants of both sides, and islanders, leave us in no doubt as to the ferocity of the combat on land, sea, and in the air. Comparison photography in color of all the battlefields, the crash sites of the aircraft shot down, the relics and the remains, together with portraits of those who lost their lives and the battlefield memorials, serve as a graphic testimony to their endeavors, 25 years after the battle. A Roll of Honour lists the casualties of both sides and, for the first time, the graves of all the British fallen — both on the islands and in the United Kingdom — have been visited and photographed as a lasting record of all those who made the supreme sacrifice.

Krigserindringer. Underkorporal Vincent Bramley, der var tjenstgørende ved "3 Para" en britisk faldskærmsjægerenhed, skriver, hvad han så og følte under Falklandskrigen 1982, og de strabadser både de britiske og argentinske soldater blev udsat for under krigen.

Beginning with the absolutely critical first moments of the outbreak in China, and ending with an epilogue on the vaccine rollout and the unprecedented events between the election of Joseph Biden and his inauguration, Lawrence Wright's *The Plague Year* surges forward with essential information--and fascinating historical parallels--examining the medical, economic, political, and social ramifications of the COVID-19 pandemic.

Mother of two wonderful children, Carol Higgins has conquered more than her fair share of turmoil: violent childhood abuse, crippling cancer, a divorce and the traumatic passing of her beloved sister, Donna, have all challenged this remarkable Yorkshire woman through the depths of her mind to the very core of her body. But Carol has never given up, refusing to live in the shadows of her own life as a victim. Only 8 months after she had undergone 9 hours of surgery to remove the tumour that threatened her life, Carol's determination compelled her to set off to fulfil a life time dream: Conquering the biggest free-standing mountain in the world, Mount Kilimanjaro. Told in her own witty, engrossing voice, Carol brings you into the journey she undertook and whisks you through the throng of far away airports and tourist traps, culminating in above-cloud magic of the top of the world. Meet Carol Higgins; a true champion.

The Bloodiest Battle

Writing the Present Past in South Africa and Argentina

Israel Yearbook on Human Rights, Volume 24 (1994)

Tramping on Life

Conquering the Impossible

The true story of of the bloodiest battle of the Falklands conflict, the Battle of Mount Longdon, as recounted by 12 foot soldiers from the ranks - eight Argentinians and four Britons.;It describes the appalling treatment the Argentinian conscripts suffered at the hands of their own generals; the emotions of soldiers meeting face-to-face ten years after they tried their hardest to kill one another; and the terror of battle as experienced by the ordinary soldier.;The author, who also wrote "Excursion to Hell", joined the Parachute Regiment in 1978 at the age of 20. After service in Canada, Oman, Northern Ireland and the Falklands, he was assigned to training recruits. He left the army as a Lance Corporal in 1987.

**** 'If you only read one book about the Falklands make sure it's this one.' - Soldier magazine 'An extraordinarily detailed account of the bloodiest battle of the Falklands war.' - Major General Jonathan Shaw CB CBE When 3 Para began their assault under cover of darkness on Mount Longdon in June 1982, nobody knew what to expect. The three platoons of B Company each approached the mountain silently, treading carefully through a series of defensive minefields. But following an explosion, fighting quickly escalated with shocking speed and severity, resulting in some of the bloodiest close hand fighting, terrible injuries, and shocking loss of life experienced by British troops since the Korean war. Recreating 3 Para's bloody Falklands battle from multiple angles, James O'Connell - who fought there and was seriously injured himself - has written a gut-wrenching 360 degree classic. Frustrated by highly inaccurate books about the battle, O'Connell decided to set the record straight. What he did next was extraordinary - he revisited the Falkland's five times with comrades and Argentine soldiers and literally walked through the battle with them, step-by-step, creating an unprecedented masterpiece of immersive military publishing. Combined with rare access to the Battalion's records and radio logs, the resulting book is the last word on Mount Longdon, and might be the most harrowingly realistic description of modern warfare you will ever read.*

*Looking to jumpstart your GPA? Most college students believe that straight A's can be achieved only through cramming and painful all-nighters at the library. But Cal Newport knows that real straight-A students don't study harder—they study smarter. A breakthrough approach to acing academic assignments, from quizzes and exams to essays and papers, *How to Become a Straight-A Student* reveals for the first time the proven study secrets of real straight-A students across the country and weaves them into a simple, practical system that anyone can master. You will learn how to: • Streamline and maximize your study time • Conquer procrastination • Absorb the material quickly and effectively • Know which reading assignments are critical—and which are not • Target the paper topics that wow professors • Provide A+ answers on exams • Write stellar prose without the agony A strategic blueprint for success that promises more free time, more fun, and top-tier results, *How to Become a Straight-A Student* is the only study guide written by students for students—with the insider knowledge and real-world methods to help you master the college system and rise to the top of the class.*

The book highlights facets of people's experiences since the 19th century with Atlantic space and the design of their stay on board ships. The contributions range from the perspective of pleasure-seeking tourists, who used ships as a temporary, luxurious homes to the perspective of military personnel, who perceived the Atlantic Passage as a transition between homeland security and potentially dangerous professional operations - the risks of sea voyages even on technically sophisticated ocean liners, whose interiors and services often include grand hotels in the metropolises of the late 19th and 20th century, were discreetly ignored by the passengers. The charm of the Atlantic and the ship, unthinkable in earlier times, should not be decimated in

any way.
