In our society, sex can easily become the price many women pay for love and the illusion of security. A woman who seeks a sense of personal power and an escape from pain may use sex and romance as a way to feel in control, just as an alcoholic uses alcohol; but sex never satisfies her longing for love and self-worth. In this wise and compassionate book, Charlotte Kasl shows women how they can learn to experience their sexuality as a source for love and positive power and sex as an expression that honors the soul as well as the body.

Some really great books just keep getting better! For seventeen years The Betrayal Bond has been the primary source for therapists and patients wrestling the effects of emotional pain and harm caused by exploitation from someone they trusted. Divorce,

litigation, incest and child abuse, domestic violence, kidnapping, professional exploitation and religious abuse are all areas of trauma bonding. These are situations and relationships of incredible intensity or importance lend themselves more easily to an exploitation of trust or power. In The Betrayal Bond, Dr. Carnes presents an in-depth study of these relationships; why they form, who is most susceptible, and how they become so powerful. Dr. Carnes also gives a clear explanation of the bond that compels people to tolerate the intolerable, and for the first time, maps out the brain connection that makes being with hurtful people comparable to 'a drug of choice.' Most importantly, Carnes provides practical steps to identify compulsive attachment patterns and ultimately to change or end them for good. This new edition includes: New science for understanding how our brains can make a prison of bad relationships New assessments and insights based on 50,000 research participants A new section utilizing the latest findings in attachment research and narrative therapy to concretely rewrite and rescript bad experiences A redefinition of the factors contributing to addictive relationships

In *Love and Addiction*, published 40 years ago and sold as a mass-market paperback on love, Stanton Peele and Archie Brodsky laid out every major issue confronting the addiction field today. This pioneering classic, which was excerpted in *Cosmopolitan* and spawned the codependence movement, is the first—and still the definitive—book on addictive love. But it is much more than that; it is the book that explains why addiction is not what we think it is. *Love and Addiction* focuses on dependent love relationships to explore what both love and addiction really are—psychologically, socially, and culturally. Addiction is an overgrown, dependent, destructive relationship. Love is the opposite, a sharing, growth-inspiring one. The authors' analysis makes clear that an addiction is an experience that takes on meaning and power in light of a person's needs, desires, beliefs, expectations, and fears. By showing how addiction grows out of ordinary human experience, Peele and Brodsky offer a liberating understanding of all addictions—to alcohol, drugs, tobacco, food, gambling, shopping, electronic media, sex, or love. In 1975, *Love and Addiction* boldly proposed ideas whose truth is only now being recognized: Addiction is not limited to drugs, and

drugs are not necessarily addictive. AA's 12 steps are not the last word in addiction treatment. On the contrary, practically oriented addiction treatments are more effective. The goal of addiction treatment and recovery is not abstinence to the exclusion of all else, but to build a life that rules out addiction. Love is the opposite of the self-protective constriction of addiction; it is the expansion of your spirit with another human being. Remarkably, all of these issues-the widespread application of the addiction diagnosis, the limited value of AA and its disease theory, the possibility that people can continue using but still eliminate addiction (harm reduction)-are as hotly debated today as when Peele and Brodsky first analyzed addiction forty years ago. Most remarkably of all, the answers Peele and Brodsky arrived at in *Love and Addiction* are only now being embraced by progressive thinkers in the field. "Destined to become a classic " *Psychology Today* proclaimed in 1975. Rereading *Love and Addiction* 35 years later, addiction researcher Rowdy Yates wrote that the book "still reads absolutely true as an understanding of addictive behavior." Reading today this clairvoyant analysis of the most challenging issues we face in the twenty-first century-the meaning of love and the cure for addiction-you will recognize both the current relevance and enduring value of *Love and Addiction*, now reissued with a new (2015) Authors' Preface, the Authors' Preface written for the 1991 paperback reissue, and a brief new introduction to each chapter. Otherwise, nothing has been changed in the original book.

This is a book for the person who is hungry for an answer. I know that feeling. I was stuck in it for years and as a Coach and Speaker, I have noticed there is a constant theme for us all. We have read all of the success books, we have gone to the seminars but when we go to execute their wonderful information a feeling comes up. We lay in bed and just don't "feel" like doing what they suggest even though we know it will make our life better. That "feeling" stops us from executing one or more steps they suggest we take to make our lives better. I couldn't overcome that feeling either. Here I was an alcoholic, a sex addict, sugar addict, spending addict, tobacco addict, love addict, I had gone bankrupt, been through two horrific divorces, a child custody battle, I played two professional sports I never wanted to play and I contemplated suicide. None of the books showed me or explained where that feeling comes from, why we all get it and how to overcome it. Without that information, I couldn't execute all of their wonderful suggestions. So this is my story and how I took all of that great information from all of those great success teachers, I collated it and then added to it. I discuss where that feeling comes from, why we all get it and how to overcome it. This book bridges the gap. When you have this information, this skillset to overcome that "feeling" than you can put into place all of their incredible advice and have the personal and professional success we are all searching for.

Conquering Shame and Codependency

A psychologist and bestselling author redefines love and sex addiction as a spectrum disorder, and offers a new approach for healing. For anyone who has wondered Why does everyone else seem to be able to make romantic relationships work, and I can't? What's wrong with me? Why is love so hard? Psychologist and bestselling memoirist Kerry Cohen is all too familiar with the questions she often hears from her clients—and has asked herself. Even though sex and love are some of the most universal, sought-after experiences we have, many of us lack the tools and understanding to approach them in a healthy way. Without knowing it, many people struggling with sex and love actually fall somewhere on the spectrum of sex and love addiction (SLA). Sex and love addiction is still wildly misunderstood. It's shrouded in secrecy and shame, and many counselors lack the training to address it—leaving people who need help without resources. Yet SLA isn't a binary of you are or you aren't, rather, it's a spectrum. Kerry Cohen knows this all too well as both a therapist and someone who identifies on the SLA spectrum. Based on research and her own clinical experience, Crazy for You dives into SLA and provides an inclusive framework for understanding relationships, along with practical exercises and advice for self-assessment, discovery, and healing: Part one explains the sex and love addiction spectrum, helping you determine where you fall on it and how you got there Part two introduces strategies for breaking the spell of sex and love addiction, like behavior modifications and self-awareness techniques Part three teaches you how to navigate healthy, safe, and fulfilling relationships

A renowned psychotherapist explains how to evaluate a relationship and offers practical advice on how to get out of a relationship that is no longer satisfying, offering advice on understanding the difference between good and bad relationships, surviving the pain of breaking up, addictive behavior, and more. She shows you how to diagnose your unique situation with self-analysis and questions like these, which get to the very heart of your problems: • What sins are forgivable and which ones are unpardonable? • Is your partner questioning your opinions to the point where you doubt yourself? • What is your sex life really like, and how important is it? • Is there real love left between you, and how does it stack up against all that you find unlovable? Mira Kirshenbaum provides expert guidelines that are the key to making all your choices, concrete steps that you can implement right now, and the ultimate way to determine your personal bottom line—what you need to be happy. This remarkably insightful and probing guide offers advice that lets you see the truth about your relationship—and with wisdom and compassion, it helps you act with the confidence of knowing that whether

you decide to go or stay, you are doing the very best thing.

Setting Boundaries is not just about saying 'no'. It is about pursuing the things that set our soul on fire, loving deeply without losing ourselves, and better resisting the demands and expectations of others. Dr Rebecca Ray, Australian clinical psychologist and author, shows how boundaries are the key to many of the emotional and practical difficulties we encounter in daily life. Many of us, raised to be people-pleasers, find ourselves giving in to draining colleagues, friends, partners and relatives. In Setting Boundaries, Dr Ray shares science-based advice and tools to help you: - identify your boundaries and when they have been crossed - recognise the patterns and habits that have failed to support you to feel empowered - engage in difficult conversations from a place of strength and self-kindness - set clear, intentional boundaries and become your most loving, fulfilled and authentic self. Accessible, inspiring and deeply practical, Setting Boundaries ignites us to rethink our relationships, reclaim our lives and protect our mental health and wellbeing. Self-concept is destiny What is the most important judgement you will ever make? The judgement you pass on yourself. Self-esteem is key to success or failure. "Tell me how a person judges his or her self-esteem," says pioneering psychologist Nathaniel Branden, "and I will tell you how that person operates at work, in love, in sex, in parenting, in every important aspect of existence—and how high he or she can rise. The reputation you have with yourself—your self-esteem—is the single most important factor for a fulfilling life." • How to grow confidence and self-respect. • How to nurture self-esteem in children. • How to break free of guilt and fear of others' disapproval. • How to honor the self—the ethics of rational self-interest.

After Rihanna and Alanis Morissette and Amber Smith and Rachel Uchitel, we've all heard about love addiction--people who feel they can only be happy when they are deep in an all-consuming love. There are a handful of books about it (including Facing Love Addiction by Pia Melody, Women Who Love Too Much by Robin Norwood, Love Addict by Ethlie Ann Vare, and others), and many rehab and recovery centers are now advertising that they help clients with love addictions and codependency. But no one has approached the subject of its equally

damaging cousin--relationship addiction. Relationship addicts are so in love with love with love and romance and being coupled up that continually move from one relationship to another, always on the rebound, never giving themselves time to heal and learn how to be independent. They get into relationships again and again, just to avoid feeling lonely--or worse, to avoid feeling "abnormal." Love Smacked will address all of these issues, looking at early childhood trauma and how that affects our subsequent choices in partners, and how we approach love and relationships. It will discuss the lessons we learn from our upbringing and social and cultural background--lessons that sometimes teach us what healthy relationships look like, but sometimes teach us something else: that we don't deserve any better; that a typical relationship looks turbulent and difficult. "This is an important book. Sherry Gaba clearly identifies a common pattern in relationships that shows the negative results on relationships of self-abandonment. --Margaret Paul, PhD, Co-Creator of Inner Bonding"

Who Says I'm an Addict?

Crazy for You

Are you feeling exasperated and helpless about your family member's addiction? Are you at your wit's end, having tried everything you can think of to make them stop? If someone you love is engaging in addictive behaviors such as alcohol and drug misuse, eating disorders, smoking, gambling, Internet addiction, sex addiction, compulsive overspending, or relationship addiction, you are undoubtedly experiencing unpredictability in your relationship. Some of the most common emotions you will experience include: - Guilt and shame - Anger and anxiety - Confusion and powerlessness Whether the addict in your life is your spouse, partner, parent, child, friend, or colleague, the key to changing this reality for yourself lies in shifting your focus from your loved one's addiction to your own self-care. This book presents a dramatically fresh approach to help you get off the roller-coaster chaos of addiction, maintain your own sanity and serenity, and live your best life.

Sexual addiction is a problem that affects millions of people. Maureen Canning, LMFT, who has extensive experience treating sex addicts, explains its roots and how those afflicted can recover. This book also explains the poisonous childhood seeds that lead to public scandals like the revelations involving former congressman Mark Foley. Canning shows how compulsions are the product of early childhood abuse and how patterns, from the most violent to the most commonplace, develop. She explains that the overriding emotion sexually addicted people feel towards the partners with whom they seek intimacy is anger turned into sexuality, or "sexualized anger." This yields a false sense of security and power, an "aggressive tendency," which destroys any chance of a healthy relationship. Lust, Anger, Love offers a comprehensive and enlightening look at the origins of these little discussed behaviors and maps out a plan for recovery.

Do you worry that you drink too much? Or perhaps you fear that your dependence on drugs, food, sex, or some other vice is spiralling out of control, and taking your quality of life with it? In *Who Says I'm an Addict?*, David Smallwood looks at the issue of addiction with compassion, clarity, and wisdom that comes not only from his own difficult journey with addiction, but from his considerable experience overseeing treatment programmes in rehabilitation clinics. David looks in detail at all areas of addiction, from denial, hitting rock bottom, and dealing with shame and guilt, to how our family of origin and the traumas we go through in childhood influence us in later life. He then explores the road to long-term recovery, guiding the reader on how to do the emotional work necessary to ensure that they avoid relapse and can finally lay their demons to rest and get on with re-building their life.

A nationally recognized author and codependency expert examines the roots of shame and its connection with codependent relationships.

*Learn how to heal from their destructive hold by implementing eight steps that will empower the real you, and lead to healthier relationships. Shame: the torment you feel when you're exposed, humiliated, or rejected; the feeling of not being good enough. It's a deeply painful and universal emotion, yet is not frequently discussed. For some, shame lurks in the unconscious, undermining self-esteem, destroying confidence, and leading to codependency. These codependent relationships—where we overlook our own needs and desires as we try to care for, protect, or please another—often cover up abuse, addiction, or other harmful behaviors. Shame and codependency feed off one another, making us feel stuck, never able to let go, move on, and become the true self we were meant to be. In *Conquering Shame and Codependency*, Darlene Lancer sheds new light on shame: how codependents' feelings and beliefs about shame affect their identity, their behavior, and how shame can corrode relationships, destroying trust and love. She then provides eight steps to heal from shame, learn to love yourself, and develop healthy relationships.*

*Love addiction manifests in many forms, from Fatal Attraction-type obsessive lust to less extreme but nonetheless psychologically and emotionally harmful forms. The most common of these is staying in a bad relationship because of a fear of being alone—the "I hate you but don't leave me" relationship. In *ADDICTION TO LOVE*, recovering love addict Susan Peabody explains the variety of ways this disorder plays out, from the obsessively doting love addict to the addict who can't disentangle from an unfulfilling, dead-end relationship. Peabody provides an in-depth and easy-to-follow recovery program for those suffering from this unhealthy and often dangerous addiction and explains how to create a loving, safe, and fulfilling relationship. • A seminal work on unhealthy and obsessive behaviors in love, and how to change behavior to have a positive relationship. This third edition includes a new introduction and revisions to the text throughout. • Some symptoms of love addiction include love at first sight, excessive fantasizing, abnormal jealousy, nagging, and accepting dishonesty. • Even relationships with parents, children, siblings, or friends may be addictive—dependency is not always related to romantic love. • Previous editions have sold more than 40,000 copies. "Love addiction is a three-headed serpent that Susan Peabody adeptly slays. This is the quintessential book for any love addict or counselor needing to fully understand this highly prevalent and complex disorder. Susan detects and dissects aspects of this condition not comprehended in other books of its kind. Recovery is possible. This book makes it possible to take the succinct steps necessary toward a loving and reciprocal long-term intimate relationship." —Sudi Scull, M.F.T., C.N., psychotherapist and nutritionist*

do about anger and other painful emotions associated with intimate relationships.

As seen in Time, USA TODAY, The Atlantic, The Wall Street Journal, and on CBS This Morning, BBC, PBS, CNN, and NPR, iGen is crucial reading to understand how the children, teens, and young adults born in the mid-1990s and later are vastly different from Millennial predecessors, and from any other generation. With generational divides wider than ever, parents, educators, and employers have an urgent need to understand today's rising generation of teens and young adults. Born in the mid-1990s up to the mid-2000s, iGen is the first generation to spend their entire adolescence in the age of the smartphone. With social media and texting replacing other forms of communication, iGen spends less time with their friends in person—perhaps contributing to their unprecedented levels of anxiety, depression, and loneliness. But technology is not the only thing that makes iGen distinct from every generation before them; they are also different in how they spend their time, how they behave, and in their attitudes toward religion, sexuality, and politics. They socialize in completely new ways, challenge sacred social taboos, and want different things from their lives and careers. More than previous generations, they are obsessed with social media, focused on tolerance, and have no patience for inequality. With the first members of iGen just graduating from college, we all need to understand them: friends and family need to look out for them; businesses must figure out how to recruit them and sell to them; employers and universities must know how to educate and guide them. And members of iGen also need to understand themselves as they relate with their elders and explain their views to their older peers. Because where iGen goes, so goes our nation—and the world. An insatiable need for sex and love. Periods of overeating or starving. A pattern of unstable and painful relationships. Does this sound painfully familiar? Trauma counselor Kelly McDaniel has seen these traits over and over in clients who feel trapped in cycles of destructive behaviors—and are unable to stop. Many of us find ourselves stuck in unhealthy habits simply because we don't see a better way out. In *Mother Hunger*, McDaniel helps women break the cycle of destructive behavior by taking a fresh look at childhood trauma and its impact. In doing so, she destigmatizes the shame that comes with being under-mothered and misdiagnosed. McDaniel offers women with powerful tools that include therapeutic interventions and lifestyle changes in service to healthy relationships. The constant fear of losing mother love can be a lifelong emotional burden, but healing begins with knowing and naming what we are missing. McDaniel is a trauma therapist and clinician to identify Mother Hunger, which demystifies the search for love and provides the compass that each woman needs to find her way through struggle with achy, lonely emptiness, and come home to herself.

The author of the bestselling Facing Codependence unravels the intricate dynamics of toxic love relationships and shows us how to let go of toxic love. In this revised and updated edition of Facing Love Addiction, internationally recognized dependence and addiction authority Pia Mellody clearly outlines the debilitating 'toxic' patterns played out by love addicts and the unresponsive love avoidants to whom they are painfully and repeatedly drawn.

A brilliant new guide to understanding the origins of codependence and the path to recovery by a nationally recognized authority on dependency and addiction. In this fresh new look at codependence, Pia Mellody traces the origins of this illness back to childhood, describing a whole range of emotional, spiritual, intellectual, physical, and sexual abuses. Because of these earlier experiences, codependent adults often lack the skills necessary to lead mature lives and have satisfying relationships. Recovery from codependence comes from clearing up the toxic feelings left over from childhood and learning to reparent oneself by intervening on the adult symptoms of codependence. Central to Mellody's concept is the idea of the "precious child" that needs healing within each adult. She creates a framework for identifying codependent behavior and describes an effective approach to recovery that includes both therapy and self-help processes. Designed to be used with her new workbook for codependents,

Breaking Free, this is a powerful tool for understanding the nature of codependence.

In Codependent No More, Melody Beattie introduced the world to the term codependency. Now a modern classic, this book established Beattie as a pioneer in self-help literature and endeared her to millions of readers who longed for healthier relationships. Twenty-five years later concepts such as self-care and setting boundaries have become entrenched in mainstream culture. Now Beattie has written a followup volume, The New Codependency, which clears up misconceptions about codependency, identifies how codependent behavior has changed, and provides a new generation with a road map to wellness. The question remains: What is and what is not codependency? Beattie here reminds us that much of codependency is normal behavior. It's about crossing lines. There are times we do too much, care too much, feel too little, or overly engage. Feeling resentment after giving is not the same as heartfelt generosity. Narcissism and self-love, enabling and nurturing, and controlling and setting boundaries are not interchangeable terms. In The New Codependency, Beattie explores these differences, effectively invoking her own inspiring story and those of others, to empower us to step out of the victim role forever. Codependency, she shows, is not an illness but rather a series of behaviors that once broken down and analyzed can be successfully combated. Each section offers an overview of and a series of activities pertaining to a particular behavior -- caretaking, controlling, manipulation, denial, repression, etc. -- enabling us to personalize our own step-by-step guide to wellness. These sections, in conjunction with a series of tests allowing us to assess the level of our codependent behavior, demonstrate that while it may not seem possible now, we have the power to take care of ourselves, no matter what we are experiencing. Punctuated with Beattie's renowned candor and intuitive wisdom, The New Codependency is an owner's manual to learning to be who we are and gives us the tools necessary to reclaim our lives by renouncing unhealthy practices.

In his phenomenal bestseller Listening to Prozac, Peter Kramer explored the makeup of the modern self. Now, in his superbly written new book, he focuses his intelligent, compassionate eye on the complexities of partnerships and why intimacy is so difficult for us. With the art of a novelist and the skill of a brilliant psychiatrist, Kramer addresses advice seekers struggling with such complex questions as: How do we choose our partners? How well do we know them? How do mood states affect our assessment of them and theirs of us? What does "working on a relationship" truly entail? When should we try to improve a relationship, and when should we leave? Equally at home with

Shakespeare, Emerson, and Kierkegaard as it is with Freud and Jung, Should You Leave? is a literary tour de force from a uniquely insightful observer and a profoundly resonant and helpful approach to resolving dilemmas of the heart.

In her professional life, Shary Hauer was a confident, successful, high-caliber executive coach who advised big-time corporate leaders around the globe—but her personal life was an entirely different matter. When it came to love, she was insecure, clingy, desperate, willing to do anything and everything to win and keep a man. Because without a man by her side, what good was she? In *Insatiable*, Hauer fearlessly chronicles her emotional journey from despair to hope, rejection to redemption, and self-hate to self-love, one man at a time. In candid detail, she relates what it is like to be trapped in the torturous cycle of love addiction—what it's like to be forever searching, needing, obsessing, scheming, and agonizing for love, suffering from a hunger that never ceases—and what it takes to break free of that cycle. An intimate, soul-baring tale that sheds much-needed light on one of the least understood and talked about addictions, *Insatiable* is the story of one woman's journey through the hellish, the humiliating, and the humbling in her single-minded pursuit of the most addictive drug of all: love.

Pia Mellody creates a framework for identifying codependent thinking, emotions and behaviour and provides an effective approach to recovery. Mellody sets forth five primary adult symptoms of this crippling condition, then traces their origin to emotional, spiritual, intellectual, physical and sexual abuses that occur in childhood. Central to Mellody's approach is the concept that the codependent adult's injured inner child needs healing. Recovery from codependence, therefore, involves clearing up the toxic emotions left over from these painful childhood experiences.
