*New York IN TOON is a Karmic, Cosmic and Comic Book Reality Narrative Book of Cartoons by the versatile Multimedia Installation Artist Illustrator and Writer Peter G Pereira. Where Have We Been? Where Are We Now and Where Will We Be Tomorrow? A series of New York City Cartoons, Photoons, Illustrations and Photographic Artwork -as an Original Tapestry woven from his syndicated published work 2015-2020 in Our Town Eastsider, The Westside Spirit, Chelsea-Clinton News, Our Town Downtowner, Spirit Westsider, and N.Y. Press. (Straus Media Newspapers) - with never before seen behind-the-scenes New York Stories with Day in the Life and Accidental Tourist Observations. IN TOON REVIEWS: "Having known Peter over 40 years since our adolescence he has always been an exceptionally gifted artist, able to work in virtually any medium, with ferocious intelligence and boundless imagination. His aesthetic vision, his genius, and his enduring originality make him one of the most exciting artists of our times. observer of New York City life. In his whimsical Toons, Pereira captures snapshots and soundbites from the streets, shops and restaurants around town that others often miss. He's a terrific reporter and artist - it is always a delight to have his work in our newspapers." Alexis Gelber Editor in Chief, Straus News Manhattan Former Editor-in-Chief Newsweek International "Peter Pereira is a multi-talented New York artist and photographer. His work is unique and powerful. I always enjoy his artistic endeavors and I'm sure you will too!" Alan Merrill Musician/Composer - Author of "I Love Rock n Roll" "Peter Pereira is a unique and creative storyteller. His accidental tourist drawings of everyday experiences are original hybrids of photography, drawing, painting, and presented within the idiom of comics. While collaborating with Peter on a series of stop motion animation stills from my series of Alice in Dystopia, the artistic dialogue between us and our works was a very rewarding experience." "An amusing collection of New York City moments diversely illuminated by a multi- talented author. I especially enjoyed the areas that focused on the Upper East Side. It was fun to see familiar locales and neighborhood characters. "David H. Reuss Treasurer - New York Society of Illustrators "Peter Pereira's cartoons and photoons show that magic that is all around us but that we often don't recognize or acknowledge, filtered through Pereira's sensitive eye. It is a heightened reality that makes the normal extraordinary."-- David KorenFounder, FIGMENT Arts New York and International“ 'Cartoons' doesn't do Peter's ingenious artwork justice. Eye-catching and on point, he decries how animals are being exploited—from giraffes killed for “sport” to fish dying on pet-store shelves—and turns a light on our kinship with all of them. 'Lively, thought-provoking and consistently surprising. Lydia Pyne is the real deal.' Ed Yong, author of New York Times bestseller I Contain Multitudes Does an authentic Andy Warhol painting need to be painted by Andy Warhol? Why do audiences feel outraged when they find out that scenes from their beloved blockbuster documentaries are staged? Can people move past assuming that a diamond grown in a lab is a fake? What happens when a forged painting or manuscript becomes more valuable than its original? This is a book about genuine fakes - the curious and complex objects that provoke these very

sorts of questions. Genuine fakes fall into the space between things that are real and things that are not; whether or not we think that those things are authentic is a matter of perspective. Unsurprisingly, the world is full of genuine fakes - full of things that defy simple categorisation. From stories of audacious forgeries to feats of technological innovation, historian Lydia Pyne explores how the authenticity of eight genuine fakes depends on their unique combinations of history, science and culture. The stories of art forgeries, fake fossils, nature documentaries, synthetic flavours, museum exhibits, Maya codices and Palaeolithic replicas show that genuine fakes are both complicated and change over time. Drawing from historical archives, interviews, museum exhibits and science fiction as well as her own research, Pyne brings each genuine fake to life through unexpected and often outrageous stories. *Genuine Fakes* will make readers think about all the unreal things they encounter in their daily lives, and why they invoke the reactions - surprise, wonder, understanding or annoyance - that they do. *Breakfast* is an exploration of everything about breakfast and brunch. In a day when rules are being rewritten, guilt has come up with a bad rap. Many parents rush to emancipate their children from such troubling apprehensions--and the results are telling. This coming-of-age memoir traces the challenges of a fatherless boy growing up amidst the folly of his peers and the ever-present predators who cannot be wished away. Faced with the reality of evil, the theological concept of Original Sin looms large. This book is an observation that trouble often springs from circumstances that look pretty benign. It's the prerequisite of every murder trial, that accidents happen from a confluence of events and decisions that seem innocuous but end badly. We who

An “excellent” (The New York Times) modern tribute to an ageless pastime, and a practical guide to the art, philosophy, and rituals of fly fishing, by an expert, lifelong angler. In *The Optimist*, David Coggins makes a case for the skills and sensibility of an enduring sport and shares the secrets, frustrations, and triumphs of the great tradition of fly fishing, which has captivated anglers worldwide. Written in wry, wise, and keenly observed prose, each chapter focuses on a specific place, fish, and skill. Few individuals, for example, have the visual acuity required to catch the nearly invisible bonefish of the Bahamas flats. Or the patience to land the elusive Atlantic salmon, “the fish of a thousand casts,” in eastern Canada. Pursuing these challenges, Coggins, “a confirmed obsessive,” travels to one fishing paradise after another, including the great rivers of Patagonia, private chalk streams in England, remote ponds in Maine, and New York City’s Jamaica Bay. In each setting, he chronicles his fortunes and misfortunes with honesty and humor while meditating on how fishing teaches focus, inner stillness, and a connection to the natural world. Perfect for the novice, the enthusiastic amateur, and the devoted angler alike, *The Optimist*

**Piven, coauthor of The Worst-Case Scenario Survival Handbook) look at how humanity is likely to weather such happenings as nuclear war, a global internet collapse, antibiotics shortages, and even immortality. If you live on planet Earth you're probably scared of the future. How could you not be? Some of the world's most stable democracies are looking pretty shaky. Technology is invading personal relationships and taking over jobs. Relations among the three superpowers—the US, China, and Russia—are growing more complicated and dangerous. A person watching the news has to wonder: is it safe to go out there or not? Taking inspiration from his virally popular VICE column "How Scared Should I Be?," Mike Pearl games out many of the "could it really happen?" scenarios we've all speculated about, assigning a probability rating, and taking us through how it would unfold. He explores what would likely occur in dozens of possible scenarios—among them the final failure of antibiotics, the loss of the world's marine life, a complete ban on guns in the US, and even contact with extraterrestrial life—and reports back from the future, providing a clear picture of how the world would look, feel, and even smell in each of these instances. For fans of such bestsellers as What If? and The Worst Case Scenario Survival Handbook, The Day It Finally Happens is about taking future events that we don't really understand and getting to know them in close detail. Pearl's "well-researched speculations induce daydreams and nightmares and mark [him] as one of his generation's most interesting writers" (Alec Ross, New York Times bestselling author).**

Wish kids came with instructions? At least you can take heart—and have a laugh—in the knowledge that the little dears confound and amuse all of us. Nothing captures our rollicking relationship with them—and theirs with the adult world—quite like New Yorker cartoons. The magazine's brilliant cartoonists (a good number of whom are rumored to have never completely left childhood behind) lead us from the hospital nursery, through toddlerhood, into the school years and beyond—to that long-lasting challenge of being an adult with parents. Selected by Robert Mankoff, cartoon editor of *The New Yorker*, this collection brings together 126 great cartoons (from artists including George Booth, Roz Chast, Leo Cullum, William Hamilton, Gahan Wilson, Jack Ziegler, and many more). The introduction from the one-and-only Roz Chast gives us a riot of insight and delight—which, come to think of it, is not a bad description of childhood.

On a gloomy day in 2040, middle-aged Daniel Connor returns home from an unfortunate doctor's visit. With his wife by his side, he is soon visited by a dear friend, and together they finish Daniel's account of the night of a special reunion—how those dearest to him, including a stubborn journalist, a police officer, an army veteran, and the one that got away, made their way to that night and how their lives have been altered since. Weaving through childhood glory days to the endurance test that is adulthood, Daniel navigates several relationships and career opportunities, but he cannot escape the past. After a heartbreaking setback, he sets out for a new course in life and is ready to leave everything behind, unaware of what awaits him. *The Day Daniel Left* is a novel about the subtle strings, which tie people together, loosening its slack as we grow older and how we eventually realize its ability to tighten once again when all hope seems lost.

***A salty story of friendship, adventure, and the explosive life that teems beneath the ocean The Lofoten archipelago, just North of the Arctic Circle, is a place of unsurpassed beauty—the skyline spikes with dramatic peaks; the radiant greens and purples of the Northern Lights follow summers where the sun never sets. It’s a place of small villages, where the art of fishing, though evolving, is still practiced in traditional ways. Beneath the great depths surrounding these islands lurks the infamous Greenland shark. At twenty-four feet in length and weighing more than a ton, it is truly a beast to behold. But the shark is not known just for its size: Its meat contains a toxin that, when consumed, has been known to make people drunk and hallucinatory. Shark Drunk is the true story of two friends, the author and the eccentric artist Hugo Aasjord, as they embark on a wild pursuit of the famed creature—all from a tiny rubber boat. Together they tackle existential questions and encounter the world’s most powerful maelstrom as they attempt to understand the ocean from every possible angle, drawing on poetry, science, history, ecology, mythology, and their own—sometimes intoxicated—observations, meanwhile pursuing the elusive Greenland shark. By turns thrilling, wise, and hilarious, Shark Drunk is a celebration of adventure, marine life, and, above all, friendship. Winner of the Norwegian Brage Prize 2015 Winner of the***

This novel, set in the Egypt of the 2011 crisis and in Edinburgh, Scotland, tells of two women. They are on apparently different paths in life, encountering problems of health, bereavement, love, and warfare. A family mystery brings their paths together.

The NHL's New York Islanders were struggling. After winning four straight Stanley Cups in the early 1980s, the Islanders had suffered an embarrassing sweep by their geographic rivals, the New York Rangers, in the first round of the 1994 playoffs. Hoping for a new start, the Islanders swapped out their distinctive logo, which featured the letters NY and a map of Long Island, for a cartoon fisherman wearing a rain slicker and gripping a hockey stick. The new logo immediately drew comparisons to the mascot for Gorton's frozen seafood, and opposing fans taunted the team with chants of "We want fish sticks!" During a rebranding process that lasted three torturous seasons, the Islanders unveiled a new mascot, new uniforms, new players, a new coach, and a new owner that were supposed to signal a return to championship glory. Instead, the team and its fans endured a twenty-eight-month span more humiliating than what most franchises witness over twenty-eight years. The Islanders thought they had traded for a star player to inaugurate the fisherman era, but he initially refused to report and sulked until the general

manager banished him. Fans beat up the new mascot in the stands. The new coach shoved and spit at players. The Islanders were sold to a supposed billionaire who promised to buy elite players; he turned out to be a con artist and was sent to prison. *We Want Fish Sticks* examines this era through period sources and interviews with the people who lived it.

This book is the story of Chuck Jones as a young man growing up in a small South Dakota town, his education, military service, graduate work, marriage, and life as a professor. The Jones family moved frequently, taking advantage of job opportunities and research fellowships. Their longest tenures were at Pittsburgh, Pennsylvania, and Madison, Wisconsin. The author provides descriptions of family life, to include their several homes. The book displays the vitality of academic life and family growth. It also identifies the importance of pets to a loving atmosphere. One chapter tells the life of the Jones family from the perspective of their pets. The book is mostly about us and how we lived and prospered through the decades.

But fishing on a windy day can be tricky. Will Oona be able to manage it? A beautifully illustrated story based on the award-winning and critically acclaimed animation. International specialists from law, media, film and virtual studies address the jurist in the era of digital transmission. From the cinema of the early 20th century to social media, this volume explores the multiple intersections of these visual technologies and the law.

Her sadness was leaking out like a faucet that just wouldn't stop dripping. After losing her mom, dad, brother, mother-in-law, two horses, three dogs, and three cats over just a few years she had a lot of suppressed grief. Tricia went about her life thinking that she was happy - after all, she was generally a happy person - but somehow her spark was gone, and she didn't even know it. She attended a conference where the people nicknamed her "Eeyore" (the sad donkey character from Winnie the Pooh). Soon after she had a pivotal experience... and now people call her "the Cheshire Cat".
