"Shocking in its disclosures, elegantly crafted, and faultlessly measured in its judgments."-Roger Morris, author of Richard Milhous Nixon and Partners in Power How did the deeply flawed George W. Bush ascend to the highest office in the nation, what forces abetted his rise, and-perhaps most important-where those forces really vanquished by Obama's election? Award-winning investigative journalist Russ Baker gives us the answers in Family of Secrets, a compelling and startling new take on the Bush dynasty and the shadowy elite that has quietly steered the American republic for the past half century and more. Baker shows how this network of figures in intelligence, the military, oil, and finance enabled-and in turn benefited handsomely from-the Bushes' perch at the highest levels of government. As Baker reveals, this deeply entrenched elite remains in power regardless of who sits in the Oval Office. Family of Secrets offers countless disclosures that challenge the conventional accounts of such central events as the JFK assassination and Watergate. It includes an inside account of George W.'s cynical religious conversion and the untold real background to the disastrous response to Hurricane Katrina. Baker's narrative is gripping, sobering, and deeply sourced. It will change the way we understand not just the Bush years, but a half century of postwar history-and the present.

Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. Secrets of the Millionaire Mind is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

26 Ways To Screw-Up in Business and How Not To is a humorous, yet serious, business book. During a span of 50 years, the author discovered that there are 26 business commandments that you should never violate and if you do, it's at your own risk. Commandment #18: Thou Shall Not Look Through a Keyhole With a Glass Eye (test, not guess). For nearly five decades Bill Fawcett has worked with hundreds of entrepreneurs and small-business owners. He is convinced that "96% of business mistakes are a result of breaking one or more of the 26 commandments set forth in this guide-to-success." This book is not about managing people; it's about managing oneself. The number one determinant of your success is you! You're the quarterback who gets all the glory when you win and all the blame when you lose. What if you could reduce the number of turnovers and interceptions? Wouldn't you want to know what mistakes you must avoid? Of course you would! This guide-to-success not only identifies what you must avoid; it offers prescriptions for doing it right.
