

Drawing on media studies, literary theory, and the work of psychoanalytic feminist theorist Shoshana Felman, Ellsworth portrays the work of pedagogy as a performative practice, revealing the manner in which pedagogy positions teachers and students to engender gaps and silences in the communication of knowledge and self. This provocative study of the teacher-student relationship uses recent developments in film and literary studies to explore how education understands who it is teaching and how teachers understand themselves. Based on the Autism Works Now!® Workplace Readiness Workshop, this interactive resource shows how to help students aged 14-17 develop the necessary transition skills for getting and keeping a meaningful job, with accompanying worksheets available to download. Structured around 2-hour weekly sessions over an eight month period, the program is ideal for teaching to groups of students with autism. It covers essential topics such as organization and time management, interview skills, appropriate workplace attire, and how to gain experience of being in the workplace. Worksheets and questionnaires help to track progress and discover what types of job will be appropriate based on an individual's skills and interests, and the book also includes a template for creating effective resumes.
