Careening was a very necessary operation for the old pirate. On his superior speed he depended both for overhauling the trader and escaping the man-of-war. But it was impossible to retain his sailing qualities unless he periodically—once a year, at the least—cleared his vessel's bottom from the long, trailing plants and crusting barnacles which gather so rapidly in the tropical seas. For this purpose he lightened his vessel, thrust her into some narrow inlet where she would be left high and dry at low

water, fastened blocks and tackles to her masts to pull her over on to her bilge, and then scraped her thoroughly from rudder-post to cutwater. We are happy to announce this classic book. Many of the books in our collection have not been published for decades and are therefore not broadly available to the readers. Our goal is to access the very large literary repository of general public books. The main contents of our entire classical books are the original works. To ensure high quality products, all the titles are chosen carefully by our staff. We hope you enjoy this classic.

The Lichens of Italy

The Bally Shoe company was founded as "Bally & Co" in 1851 by Carl Franz Bally (1821-1899) and his brother Fritz in the basement of their family home in Switzerland. In 1854, a shoe factory was set up in the village but Fritz Bally left the fledgling business and Carl Franz Bally carried on under the corporate name "C.F. Bally." After more than 150 years Bally has come to represent quality and design in shoes. This book illustrates the history of Bally from 1851 to

the early 1960s, a period which embraces the birth and development of a footwear design style that introduced an evolution in comfort, lifestyle and elegance.

Through a vast array of colour photographs, period illustrations and vintage posters, the book presents Bally and the shoes that have intrigued and enchanted us for over a century. The pictures illustrate the evolution of shoe models from the end of the 19th century, when Bally stepped boldly into the international market, to the early 1960s. Bally Since 1851 presents the unfolding of a key period, when the firm's design skills joined

forces with a strong business flair, thus distinguishing the brand internationally. This fascinating account of the development of Bally shoes features the fabrics, embroidery, colours, weaves and different versions of one hundred shoes-- carefully selected from the Bally Shoe Museum of Zurich. The book will appeal to fashionistas, shoe lovers and design aficionados.

Since it first appeared
in Screen in 1975, Laura

pleasure has provoked and encouraged others to take positions, challenge preconceived ideas and produce new works that owe their possibility to the generative qualities of this key essay. In this book, the celebrated New York-based video artist Rachel Rose (born 1986) has produced an innovative work that extends and adds to the essay's frame of reference. Drawing on 18th- and 19th-century fairy tales, and

observing how their flat narratives matched the flatness of their depictions, Rose created collages that connect these pre-cinematic illustrations to what Mulvey describes in her essay--cinema flattening sexuality into
visuality.

A celebration of the achievements of womankind, this book honours fifty amazing women and the incredible impact they have had on our world. From empire builders and healers to

daring explorers and iconoclastic thinkers, these are moving stories of dedication, conflict, tragedy and triumph, as dramatic as any fiction. Each will both inspire readers and provide a greater understanding of the crucial role these women played in shaping our culture and history, and the debt we owe them. Presented chronologically, from antiquity to the modern day, each of these remarkable women's stories is told with a

Women Who Changed the World

In this international bestseller from the critically acclaimed Little People, BIG DREAMS series, discover the life of Marie Curie, the Nobel Prize-winning scientist. When Marie was young, she was unable to go to college because she was a woman. But when she was older, her scientific work was respected around the world. Her discoveries of radium and polonium dramatically helped in the fight against cancer, and she went on to win the Nobel Prize for Physics! This moving book

features stylish and quirky illustrations and extra facts at the back, including a biographical timeline with historical photos and a detailed profile of the scientist's life. Little People, BIG DREAMS is a best-selling series of books and educational games that explore the lives of outstanding people, from designers and artists to scientists and activists. All of them achieved incredible things, yet each began life as a child with a dream. This empowering series offers inspiring messages to children of all ages, in a range of formats. The board books are told in simple sentences, perfect for reading aloud to babies and toddlers. The hardcover versions present expanded stories for beginning readers. Boxed gift sets allow you to collect a selection of the books by theme. Paper dolls, learning cards, matching games, and other fun learning tools provide even more ways to make the

lives of these role models accessible to children. Inspire the next generation of outstanding people who will change the world with Little People, BIG DREAMS! Global warming. Renewable energy. Hazardous waste. Air Pollution. These and other environmental topics are being discussed and debated more vigorously than ever. Colin Baird and Michael Cann's Environmental Chemistry is the only textbook that explores the chemical processes and properties underlying these crucial issues at an accessible, introductory level. With authoritative coverage that balances soil, water, and air chemistry, the new edition again focuses on the environmental impacts of chemical production and experimentation, offering additional "green chemistry" sections and new case studies, plus updated coverage of energy production (especially biofuels), the generation and disposal of CO₂, and
